

PARENTS EXPECTATIONS OF THEIR CHILD, AND THEIR ATTITUDE TOWARDS CHILD'S NEEDS

STUDY CONDUCTED BY CHC TEAM

AIM : To make parents aware of their child's needs.

OBJECTIVE :

To find out the parental expectations and attitude towards their child's needs.

METHODOLOGY :

The respondents were selected by using Simple Random Sampling method and interview of the respondents was conducted by making them fill up a Questionnaire.

FINDINGS : To the questions

1) What does your child need?

The data was as follows:

- 53.75% of parents opted for - love, affection, security
- 38.75% of parents opted for - food, shelter, clothing
- 7.05% of parents opted for - study for knowledge, work, study for exams

Thus, it is clear that majority of the respondents gave importance to love, affection, security. In short it reveals that parents are aware of the emotional needs of their children.

2) What do you think the child should eat ?

Among those who were specific in their answers i.e., who did not give multiple choices,

44% of the parents felt that their children should eat- cereals, pulses, greens

28.5% of the parents felt that their children should eat- fruits, vegetables, salads

22% of the parents felt that their children should eat- milk, egg, meat

2.5% of the parents felt that their children should eat- cakes, pastries, chips

1.2% of the parents felt that their children should eat- tonics, vitamin syrups, health drinks like horlicks

1.2% of the parents felt that their children should eat-
chocolates,biscuits,ice-creams

This showed that most of the respondents wanted to provide
easily available and nutritional food for their children.

3) What does your child actually get?

Among those who made specific choices:

33% of parents - cereals, pulses, greens

23% of parents - fruits, vegetables, salads

21% of parents - milk, egg, meat

15% of parents - cakes, pastries, chips

3.9% of parents - chocolates, biscuits, ice-creams

1.9% of parents - tonics, vitamins syrups, health drinks
like horlicks.

So when we compare the two questions (2 & 3), we find that
the children are provided with food according to what they
should eat. But most of the respondents have made multiple
choices, which shows that the children actually get food items
other than what they need. One of the reasons for this might
be when they were children, they used to get cereals, pulses
and greens, but the modern trend of fast foods, bakery items
etc, makes the parents feed their children like-wise.

4) What do you want your child to be in ?

Among those who were specific in their answers -

81.5% of parents wanted their children to be self employed

18.4% of parents wanted their children to be in service

As self employment promotes self dignity, majority of respon-
dents opted for it.

5) In what profession should the child be in?

66.23% the parents felt the child's choice is best

28.57% of the parents opted - profession like medicine,
engineering etc.

2.5% of the parents opted fine arts

1.2% of the parents opted traditional family occupation

1.2% of the parents opted any other area

As individual freedom is emphasised in today's world, we find that most of the parents felt that child should have full freedom to choose his/her profession and children are the best judges of the future; Parents can only guide them.

6) How do you discipline your child?

80 % of the parents opted to explain to the child by giving them examples.

11.4% of the parents opted diverting child attention with other incentive.

1.1% of the parents opted punishing verbally/physically.

6.8% of the parents opted multiple answers

CONCLUSION :

Taking the objective of study into consideration, it was gratifying for us to note that parents have started realising that it is emotional security and love which the child needs than material benefits.

The child's choice in profession is the best choice.

PARENTS EXPECTATIONS OF THEIR CHILD, AND THEIR ATTITUDE TOWARDS
CHILD'S NEEDS

STUDY CONDUCTED BY CHC TEAM

AIM : To make parents aware of their child's needs.

OBJECTIVE :

To find out the parental expectations and attitude towards their child's needs.

METHODOLOGY :

The respondents were selected by using Simple Random Sampling method and interview of the respondents was conducted by making them fill up a Questionnaire.

FINDINGS : To the questions

1) What does your child need?

---------	--------------------	--------	---------

PLEASE NOTE:

Officers are requested to notify the Secretary in writing within 7 days of the house being offered whether or not the offer is accepted. Failure to do so may result in the offer being withdrawn and it will be at the discretion of the Allocation Authority, when, and if a further offer will be made. All correspondence to the Allocation Committee must be addressed through the Head of Department.

Yours faithfully

M.S. Zavahir
M.S. Zavahir
SECRETARY

GABORONE GOVERNMENT POOL HOUSING ALLOCATION COMMITTEE

SAVINGRAM

FROM: Chairman, Govt. Pool Housing
Allocation Committee

A. A. Stanley
A.A. Stanley

TELEPHONE NO. 53251 Gaborone (Mr Zavahir, Secretary)

TO: Government Officers resident in Gaborone Sun,
awaiting housing.

REFERENCE NO: DSL/NA

September 5th

86

ACCOMMODATION, 27TH SEPTEMBER TO OCTOBER 2ND 1986

From the morning of Saturday 27th September to the morning of Thursday 2nd October, 1986, Hotel accommodation in Gaborone will be wholly reserved for State guests attending the Celebrations for Botswana's Twentieth Anniversary of Independence.

The current trend in housing availability indicates that it will be difficult to have all newly-arrived officers in houses by September 27th.

Noting this, the Government Pool Housing Allocation Committee has asked its Chairman and Secretary to brief those officers resident in the Gaborone Sun on the position, and on the approach being taken by the Committee in regard to the matter.

For this purpose, I suggest a meeting between us on

Tuesday September 9th at 1.45 p.m.
and the Gaborone Sun Management has kindly made room available for us in the Convention Centre at that time.

I hope you will be able to make arrangements to attend that meeting which I expect to be of fairly short duration.

cc: All Permanent Secretaries.

CH 7.2

Parent's Attitude Towards Child's Needs and Their Expectation of their Child Indon.

What does your child need?

[49%] 43	parents	opted	for	- Love / Affection / Security
[35%] 31	"	"	"	- Food / Shelter / Clothing
[6.8%] 6	"	"	"	- Study for / Work / Exam for knowledge
[8%] 7	"	"	"	- Invalid Answers.

[Ticked More Items]

When we exclude invalid answers we get

53.75% → Love / Affection / Security.
38.75% → Food / Shelter / Clothing
7.5% → Study for / Work / Exam for knowledge.

data

From this figure it is very clear that majority of the respondents are giving importance to love, affection and security along with food, shelter, clothing, study, and work. It also reveals that today's parents are aware about the emotional needs of their children. Those respondents who are ~~ticked~~ ^{opted} more items are aware that most

(2)

of these items are important. Other respondents felt that among all these needs, love, affection and security should be given first priority.

What do you think the child should feed?

39%	34	(44%)	Cereals / Pulses / Greens
25.2%	22	(28.5%)	Fruits / Vegetables / Salads
19.5%	17	(22%)	Milk / Eggs / Meat
2.2%	2	(2.5%)	Cakes / Pastries / Chips
1.1%	1	(1.2%)	Tonics / vitamins Syrup / Health drinks like horlicks.
1.1%	1	(1.2%)	Chocolates / Biscuits / Ice creams.
11.4%	10	— Answered multiple items.	

~~When we exclude we get multiple answers.~~

Among those who were specific in their answers, i.e. did not give multiple choices,

44% - 34

28.5% - 22

22% - 17

2.5% - 2

1.2% - 1

1.2% - 1

44%
28.5%
22.0%
2.2%
1.1%
1.1%
11.4%
100%

This data clearly shows that more respondents ~~feel~~ wanted to provide more available and traditional food to their children. At the same time they are aware that

all these items should be given to children but as per the needs of the questionnaire they have given their priority. Those who have given the multiple answers, are given without realizing the needs of the questionnaire. They are also correct in their view.

What does your child actually get

- 16% 17 — Cereals / pulses / greens
- 13.7% 12 — Fruits / Vegetables / Salads
- 12.6% 11 — Milk / Eggs / Meat
- 9.1% 8 — Cakes / pastries / chips
- 2.2% 2 — Chocolates / Biscuits / Ice-creams
- 1.1% 1 — Tonics / Vitamin Syrup / Health drinks like Horlicks.

36 — Answered multiple items.

Any those when we exclude multiple answers.
who made specific choices,

- 33% 17 Cereals / pulses / greens
- 23.4% 12 Fruits / vegetable / Salads
- 21% 11 Milk / Egg / Meat
- 15% 8 Cakes / pastries / chips
- 3.9% 2 Chocolates / Biscuits / Ice-creams
- 1.9% 1 Tonics / Vitamin Syrup / Health drinks like Horlicks.

Since most of the children are

getting most of these items, & the parents were confused to give priority. They have given the priority according to the previous question. & when

When we compare the two variables we can find that the children are provided according to what they should eat. Since most of the respondents ~~were~~ ^{have} answered multiple items, it shows that what the parents wish to give and what ~~act~~ the children are actually getting is different. It may be because the parents were getting cereals, pulses and greens when they were child, and because of the modern trend for prepared food, the children are ~~they are~~ actually getting different items of food.

What do you want your child to be in?

35% 31 — Self-Employment

8% 7 — Service

(56.3%) 49 — Not answered

~~When we exclude not answered section.~~
~~Among those who ^{were} specific in their answer,~~

81.5% 31 — Self-Employment

18.42% 7 — Service

Since self-employment promote self-dignity, majority δ (81.5%) of the respondents wants their child to be in self employment. More than half of the respondents have not answered the question because they would like to leave it to their child's choice.

In what Profession child should be?

(58.6%) 51 — child's choice

(25.2%) 22 — Professions like medicine, Engineering etc.

(2.2%) 2 — Fine Arts.

(1.1%) 1 — Traditional Family Occupation

(1.1%) 1 — Any other Area.

(11.4%) 10 — Invalied.

77 Today's world is more emphasising on freedom, especially individual freedom, so today's parent is also wants their children to be decided on their choice of profession. Here majority (58.6%) of the respondents wants their children to choose their profession.
