- Mr.C.H.Govinda Bhat, IAS, Director, PPMU, had discussion with personnel of JSS Consultants, regarding conduction of different State/District level training programmes.
- 3. Mr.Hamid Ahmed, Social Scientist, **Monitored and Reviewed** the process of planning, organising and conduction of training programmes during this month.
- JSS Consultants personnel have attended the review of progress meeting held at PPMU Office, Bangalore on 28.9.99.
- JSS Consultants personnel have attended the Workshop on MIS held at Hotel Ramanashri, Bangalore on 29.9.99.
- Masons training programmes have been successfully conducted in Belgaum, Mysore and Tumkur districts. District Coordinators of Training Management Consultancy have participated in the training programmes.
- Pipelayer and Valvemen training programmes have been successfully conducted in Bellary and D.Kannada districts. District Coordinators of Training Management Consultancy have participated in the training programmes.
- Pump Operators training programmes have been successfully conducted in Belgaum, Bidar, Gulbarga, Hassan, Mandya, Mysore, Raichur, Shimoga and Tumkur districts. District Coordinators of Training Management Consultancy have participated in the training programmes.
- 9. Gram Panchayat Secretaries training programmes have been successfully conducted in Belgaum and Raichur districts. District Coordinators of Training Management Consultancy have participated in the training programme as resource person.
- Monthly Progress Report on training programmes are sent to M/s.Excel Soft, Management Information Consultants regularly.

2.0 PREAMBLE

Karnataka Government is implementing an Integrated Rural Water Supply and Environmental Sanitation Project in about 1200 villages spread over 12 districts (now 16 districts) with the assistance from World Bank at a cost of Rs.447.2 Crores. The project districts are Bangalore (R), Belgaum, Bellary – Davanagere, Bidar, D.Kannada – Udupi, Gulbarga, Hassan, Mandya, Mysore – Chamarajanagar, Raichur – Koppal, Shimoga – Davanagere and Tumkur. The main objective of the project is to improve the productivity of the rural population by providing adequate safe drinking water and clean environment. The uniqueness of the project is that it is demand driven, user participatory, user operated and maintained based on collection of user charges. At all levels viz., Planning, Implementing and Handing over, the local population is involved and when the project components are completed, the whole system will be handed over to the local bodies, in this case, it is the VWSC to operate and maintain the system on a sustainable basis.

The project has **two components**, the **Hardware** and the **Software**. The <u>Hardware</u> component consists of construction of different Water Supply components, Environmental Sanitation and Habitat components. The different water supply components consists of construction of distribution system, construction of OHT and ground water recharging. The main intention of providing water supply components is to supply adequate safe drinking water to community (70 lpcd for house connection, 40 lpcd for stand post). The environmental sanitation and habitat component helps in providing clean environment. The different environmental sanitation components are Road Reprofiling, Construction of different drainages, Cattle Trough, Washing platforms, Dust bins and most important of all is the construction of House Hold Latrines. The location of the habitat components are determined by the VWSC members. The <u>Software</u> involves in creating the necessary procedures and capacity building for a sustainable Operation and Maintenance of the system by the user community. For creating the hardware components, besides the PPMU, several agencies such as Design consultancy, Consultancy for Construction Supervision etc are used. For implementing the software component of the project the services of NGOs / NGIs, CPM Consultants, HSHE Consultancy, Training Management Consultancy and the MIS Consultancy have been used.

2.1 TRAINING MANAGEMENT CONSULTANCY (TMC)

Training Management Consultancy plays an important role in terms of the necessary capacity building, both in terms of quantity and quality, which are essential for the implementation and Operation and Maintenance of assets created in the project villages on a sustainable basis.

The main role of the TMC is to conduct and monitor training programmes for the various categories of people involved in this project, which include the officials of the Govt., Engineers, NGOs / NGIs, Personnel from various consultants etc, besides conducting awareness programmes for the user community. Training programmes are conducted in awareness, Skill development, Accounts procedures, Engineering design and Management besides Operation and Maintenance of the assets.

As a measure of capacity building, training programmes were conducted in three phases.

Phase-I : Programmes conducted during 1994.

Phase-III : Programmes conducted during the period November 1996 to October 1998.Phase-III : Programmes scheduled for the period November 1998 to December 1999.

2.2 ACHIEVEMENT IN PHASE-I AND PHASE-II TRAINING PROGRAMMES

2.2.1 PHASE-I TRAINING PROGRAMME

During Phase-I, only 10 districts of Karnataka State were included in the project. The Phase-I training programmes were conducted during 1994, the details of training programmes conducted during Phase-I are as follows

SI. No.	Details of Training Programmes	Course Duration in days	No. of Programmes Conducted	No. of Villages covered	No. of Persons trained
1	Orientation of Primary School Teachers (Water Supply and Sanitation)	2	257	257	514
2	Awareness programme to Senior Engineers	1	1	-	8
3	Awareness programme to Engineers	3	3	-	36
4	Training in Construction Methods	5	10	-	209
5	Care Taker Programmes (Water Supply and Sanitation)	2	257	257	1285
6	Training in				
	a) Accounts	3	3	-	60
	b) Stores	1	1	-	13
7	Programme for Senior Administrative Personnel	1	2	-	35
8	Programme for Voluntary Agencies and Social Workers (NGO's)	2	1	-	31
9	Training of Masons	8	15	116	243
10	Training of Pipelayers	3	5	45	93
11	Training of Valvemen	2	5	115	233
12	Training of Composite Mechanics	4 Weeks	2	35	72

2.2.2 PHASE-II TRAINING PROGRAMME

4

In addition to the Phase-I project districts two new districts Viz. Hassan and Tumkur were included in Phase-II project. The various training programmes conducted during (Nov.96 to Oct.98) Phase-II training programmes are as follows.

÷....

SI. No.	Details of Training Programmes	Course Duration in days	No. of Programmes Conducted	No. of Villages covered	No. of Persons trained
1	Orientation of Primary School Teachers and Caretakers	3	581	581	Teachers : 1162 Caretakers : 2905
2	Awareness Programmes to Senior Engineers	1	1	-	10
3	Awareness Programmes to Engineers	3	3	-	60
4	Training in a) Investigation & Design	5	2	-	33
	b) Construction Methods	5	2	-	55
5	Training of Administration Accounts	3	2	-	27
6	Programme for Senior Administrative Personnel	1	3	-	46
7	Programme for Voluntary Agencies & Social Workers (NGO's)	4	4	-	68
8	Training of Masons	8	70	641	1280
9	Training of Pipelayers & Valvemen	3	80	746	1476
10	Pump Operators	3	30	283	534

3.0 PHASE-III TRAINING PROGRAMME

3.1 DETAILS OF TRAINING PROGRAMMES, CONTRACTED FOR PHASE-III

SI. No	Course Name	Target Group	No. of prgs.	Duration of the course in days	No. of persons per prg	Total No. of persons
1	Programme for Senior Engineers	Superintending Engineers of PHED and Executive Engineers of DPMU of the project districts	2	1	10	20
2	Programme for Engineers	Asst. Executive Engineers and Asst. Engineers of project districts	3	3	20	60
3	Training in Construction Methods	Asst. Executive Engineers, Asst. Engineers and Engineers from NGO	2	5	15	30
4	Training in Accounts procedure	Accounts Superintendents and Accounts Personnel of DPMU of project districts	1	3	30	30
5	Programme for District Senior Administrative Personnel	Deputy Secretary for Development (ZP), District Health and Family Welfare Officers, District and Deputy Health Education Officers	1	1	30	30
6	Programme for Training of Trainers on O and M of the project	Engineer and Team Leader of NGOs, Engineer of DPMU and Engineer of Construction Supervision consultants	4	4	30	120
7	Training of Masons	Masons and Semi-skilled labourers - two persons each from the project villages selected by the VWSSC	36	8	20	720
8	Training of Pipelayer and Valvemen	Pipelayer and Valvemen - two persons each from the project villages selected by the VWSSC	32	3	20	640
9	Training of Pump Operators	Two persons from each project village selected by VWSSC	83	3	20	1660
10	Training to Lab Technicians	Lab Technicians and Engineers of ZP	2	2	24	48
11	Training to Gram Panchayat Secretaries	Secretaries of Gram Panchayats of project villages	40	1	24	960

SI. No	Course Name	Target Group	No. of prgs.	Duration of the course in days	No. of persons per prg	Total No. of persons
12	Training to Dry Land Development Board (DLDB) Personnel	Engineers of DLDB	1	2	24	24
13	Training to Consultants	Persons representing CPM, NGO, HSHE, Construction Supervision, Design Consultants and TMC	2	1	30	60

3.2 INSTITUTIONAL NETWORK FOR TRAINING

The Training Management Consultancy has its own infrastructure and group of experts working exclusively for this project in its Head Quarters, Mysore. Besides, TMC have identified 12 nodal institutions (one per project district) – where the required infrastructure and expert manpower is available for conducting the village based training programmes, in particular those meant for skill enhancement of participants. Trainer teams from each nodal institution are trained by experts at the head quarters of Training Management Consultants, in all aspects of Training. To supervise, Co-ordinate and organize the training programmes there is one Co-ordinator in each nodal institution, besides, one District Co-ordinator for each district directly employed by the Training Management Consultants. The project Manager, who is in overall charge and the Monitoring consultants, make sure of the implementation of the Training programmes by surprise visits during the programmes. The programme conduction is well documented and reporting is done on monthly basis. The scheduling of the programmes is done in such a manner that the required trained personnel be made available, prior to the handing over of the project assets.

Following are the list of Nodal Institutions for conducting village based training programmes under Phase-III.

SI No	District	Nodal Institution	
1	Bangalore (R)	JSS Academy of Technical Education, Bangalore	
2	Belgaum	K.L.E. Society's College of Engineering & Technology, Belgaum.	
3	Bellary / Davanagere-1	Sanjay Gandhi Rural Polytechnic, Bellary.	
4	Bidar	Rural Engineering College, Bhalki.	
5	Dakshina Kannada / Udupi	Manipal Institute of Technology, Manipal.	
6	Gulbarga	Poojya Doddappa Appa Engineering College, Gulbarga.	
7	Hassan	Sri Bahubali Polytechnic, Shravanabelagola.	
8	Mandya	JSS Polytechnic, Nanjangud.	
9	Mysore / C.H.Nagar	JSS Industrial Training Centre, Nanjangud	
10	Raichur / Koppal	Sarojini Leeladharan Nair College of Engineering, Raichur.	
11	Shimoga / Davanagere-2	Jawaharlal Nehru National College of Engineering, Shimoga.	
12	Tumkur	Siddaganga Institute of Technology, Tumkur.	

3.3 CONDUCTION OF TRAINING PROGRAMMES

The village based training programmes are conducted at the Nodal Institution of the project districts. The list of villages, from which participants are to be trained, is provided to the Nodal Institution well in advance by the NGOs. The sequencing of villages is done with the help of District Co-ordinator, CPM Consultancy and the NGOs. Based on the priority given by these agencies, the scheduling is done and the programmes conducted. In this way trained persons are available in the project villages which are ready for handing over. During Masons training programme, for hands on experience the participants will construct at least one demonstration HHL at any one of the project villages. The Masons training is conducted keeping in mind the targets for construction of HHL by the NGOs. Similarly, during Pipelayer & Valvemen and Pump Operators training programme the participants will be taken to the nearby project village for demonstration and hands on training of giving house connections, Operation and Maintenance of disinfection unit, Preparation of Bleaching Powder solutions and their use etc. Tool kits and respective Course Materials will be given to the participants during all skill training programmes. To motivate and to partially compensate the loss of wages for the participants who are attending the training programmes, the loss of wages Rs.660/- for Masons and Rs.220/- for Pipelayer & Valvemen and Rs.247.50 for Pump Operators will be given to each participant.

The State/District level training programmes are conducted at the Nodal Centre, Mysore. However some of the Nodal Institutions of the project districts also undertake district level training programmes, keeping in mind the requirements of the engineers for proper execution of their tasks.

3.4 MODE OF SELECTION OF PARTICIPANTS FOR SKILL TRAINING

The selection of participants for skill training programmes such as Masons, Pipelayer & Valvemen and Pump Operators will be done by NGOs / NGIs, in consultation with VWSC members. The selected participants should be semi-skilled. The list of villages and time schedule for skill training (date of conduction) will be sent to each district NGOs / NGIs well in advance, so that the NGOs / NGIs will select the participants for training programme with the consultation of VWSC members. NGOs/ NGIs have been specially requested to identify Women for skill training programmes, as a means to encourage womens participants and their address to the Nodal Institutions of respective districts. The Nodal Institution will in turn write letter to the participants inviting them for training programme with Pre-paid reply post card, requesting participants to post the card to the Nodal Institution confirming their attendance to the training programme.

STATUS OF GRAM PANCHAYAT SECRETARIES TRAINING PROGRAMMES AS ON 30.9.99

4	Mr.P. Veeranna Gowda	Pump Operator	670

FEEDBACK FROM THE PARTICIPANTS

<u>FEEDBACK FROM THE PARTICIPANTS OF SKILL TRAINING</u> <u>CONDUCTED DURING SEPTEMBER 1999</u>

Name of the programme	:	Masons training
No.of programmes conducted	:	3
Duration of training programme	:	8 days
No.of participants attended	:	51
No.of villages covered	:	27

SUMMARY OF THE FEEDBACK

- 1. The concept of clean village has been very well understood by the participants by attending the training programme.
- 2. Earlier they were using inch and foot as unit for measurement, but now, they are informed clearly about the use of centimeter and meter as unit measurement of length.
- Earlier, they were knowing about the general construction of building. Now, they were given training in Construction of Sanitation Components such as different kinds of Drains, Washing Platforms, Cattle Troughs and Dustbin.

- 4. Earlier, they were knowing about the construction of latrines without proper technical know how. Now, after training they are able to construct Two Pit Pour Flush Latrine as per technical specifications. This was evidenced by construction of HHL's during training by trainees themselves.
- 5. During first day some trainees expressed difficulties in understanding the theory. However, their doubts were cleared during hands on training.
- Participants expressed their satisfaction about the arrangements made for the training, like qualified Resource Persons, Lodging arrangements, Food arrangements etc.
- 7. All the participants expressed, that they have learnt during training many things, which they were not knowing before the training.

<u>FEEDBACK FROM THE PARTICIPANTS OF SKILL TRAINING</u> <u>CONDUCTED DURING SEPTEMBER 1999</u>

Name of the programme	:	Pipelayer & Valvemen training
No.of programmes conducted	:	2
Duration of training programme	:	3 days
No.of participants attended	:	27
No.of villages covered	:	15

SUMMARY OF THE FEEDBACK

- 1. The concept of clean village has been very well understood by the participants by attending the training programme.
- Participants have appreciated the hands on experience training on storage, preparation of bleaching powder solution, determination of residual chlorine and operation and maintenance of disinfection unit.
- 3. Participants have appreciated the hands on experience training regarding giving house connection from main distribution pipe. Earlier some of them were giving house connection by crude method. Now they have understood technical methods of giving house connections.
- 4. Participants have appreciated the training on different uses of valves and pipes. The use of different valves at suitable places for equitable distribution of water and their operation and maintenance.

FEEDBACK FROM THE PARTICIPANTS OF SKILL TRAINING CONDUCTED DURING SEPTEMBER 1999

Name of the programme	:	Pump Operators training
No.of programmes conducted	:	9
Duration of training programme	:	3 days
No.of participants attended	:	172
No.of villages covered	:	91

SUMMARY OF THE FEEDBACK

- 1. The concept of clean village has been very well understood by the participants by attending the training programme.
- Participants have appreciated the hands on experience training on storage, preparation of bleaching powder solution, determining residual chlorine and Operation and maintenance of disinfection unit.
- 3. Participants have understood about the use of different meters in the Panel board of Pump House, Advantages of Capacitors etc.
- 4. Earlier they were knowing very little about submersible pumps, centrifugal pumps, starters, motor winding, etc. Now they are well versed with motor winding etc.

FEEDBACK FROM GRAM PANCHAYAT SECRETARIES

A total of 4 Gram Panchayat Secretaries training programmes were conducted during September 1999. Total number of Gram Panchayat Secretaries attended is 106. The feedback from the Gram Panchayat Secretaries is as follows –

- 1. Majority of the Gram Panchayat Secretaries felt that the training should have been conducted in the **beginning for successful monitoring of the project.**
- 2. Majority opinion of the Gram Panchayat Secretaries is that One day training duration is not sufficient. It should be at least for 2 days.
- 3. The Gram Panchayat Secretaries training should be conducted once in 3 to 6 months.
- 4. The **President/Vice President** of the VWSC should be included in the training programme for **better coordination** in achieving the objectives of the project.
- 5. This programme has helped in monitoring for **sustainable operation** of the assets created in the project villages.
- Printed registers of different formats should be made available at the earliest, for proper maintenance of records.

ACTION NEEDED FROM NODAL INSTITUTIONS/ DISTRICT CO-ORDINATORS/NGOs/CONSULTANTS

- Training reports to be sent by 3rd of every month, so that the progress report can be prepared and submitted by 10th of every month.
- The names of the trained Masons, Pipelayer & Valvemen and Pump operators to be provided to DPMU and Gram Panchayats for displaying in the Gram Panchayat Office/VWSC Office and the DPMU Office.
- Nodal Institution Co-ordinators to effectively communicate with District Project
 Manager, Executive Engineer (DPMU) and NGOs for better attendance of skill
 based training programmes.
 - Nodal Institutions to conduct skill training programmes more effectively.
- Nodal Institutions to conduct survey to obtain information about the Engagement/ Employment of the trained Masons, Pipelayer & Valvemen and Pump operators in the project villages.
- Nodal institutions should not postpone scheduled programmes under normal conditions. If due to emergency, a scheduled programme is to be postponed, all the concerned agencies are to be informed, and the programme to be rescheduled suitably.
- Nodal Institution Co-ordinator should conduct Hands on Experience training to increase effectiveness of the training programme.
- HHL constructed by the trained Masons in project villages are to be inspected by District Co-ordinators to ensure the construction as per design.

ACTION NEEDED FROM GOVERNMENT AGENCIES

- Participation of DPMU/Government officials in the skill training programmes may be encouraged in all the project districts.
- NGOs are requested to get semi-skilled participants in consultation with VWSC for skill training programmes. More number of women participants may be encouraged.
 - District Project Managers may be requested to depute personnel from their units to State level training programmes as and when conducted.
 - Trained skilled persons should be involved in the project during construction and implementation stage.
