

## POST EVALUATION OF COMMUNITY HEALTH ORIENTATION PROGRAMME OF KRIPALYA FATHERS, Mysore

Community Health Cell conducted a two-day orientation on Community Health for Kripalya scholasticates was held in Mysore on 19th and 20th November. The topics covered and the feedback given by the participants are furnished below.

2001

Nb. 8 participants

### Community Health Course - overall perspective

- It was very enriching, broadened the horizons of my knowledge in the field of Health care. Now I understand holistic health and how as a priest I can promote. It helped me to be sympathetic towards the sick and enabled carry out the healing mission of Christ to all irrespective of caste, color and creed.
- It was very much enriching, helped me to aware about the sick and at the same time to be sympathetic. The course has enlightened me in many ways.
- I came to know many things about health care health and medicine, holistic health Community health, FRLHT
- It enriched me in various ways; it changed my earlier understanding regarding community health. It helped me to understand that community without health, as health without community is useless. So we need to integrate both. Secondly it helped me to be aware of pastoral assistant to the people whom I am going to serve.
- Yes it enriched my knowledge concerning Indian ways of using medicine for the ailments I came to know the dedication and commitment of some of the people we can get inspiration form them fore our ministry. How one can reach people of rural areas, I have got insight.
- Yes it enriched my knowledge concerning Indian ways of using medicine. I came to know the dedication and commitment of some elite people; we can get inspiration for our ministries from them. I have got insight on how to reach the rural people.
- Yes it enriched me, all the talks related to community health were informative, and it was worthwhile to have such life of basic orientation.
- I personally much profited, the course really enriched me, received lots of information about community health through different resource persons, At present I have better understanding in wider way.

What could have been changed or added to make the two-day still benefit?

This report is very delayed  
Reporting should be completed within a week  
Work & time plan should include  
reporting, which is almost as important  
as the activity itself, as it helps in  
reflection, learning & refining the next  
programme. Jv 19/11/02

Report Submitted to  
Kripalya Fathers on

P.J. Chandur

- Let the course be conducted for longer duration.
- I got inspiration after visiting SVVM. I am charged with enthusiasm and joy to serve people more and more with my commitment.

- It was rather useful and informative

FIELD VISIT — mention to which project — *Susanna Vivekananda Youth Movement - Halkore, Mysore District - Dr. — & Ms. —*

- Helped me clear creative ways of imparting formal and non formal education. I appreciate the dedication and commitment of the youth in working for the tribal in enabling them to feel worthy of their dignity. I learned a lesson " where there is a will there is way.
- The dedication and commitment of youth is inspiring, where there is will there is way. It has helped me how to create ways of imparting formal and non formal education
- It was very good, well organized social center, the education center is child centered and eco friendly, the doctors and social worker are making lots of sacrifices for the welfare of the less fortunate people.
- It was very useful and enriching experience for me, their selfless dedicated service and cordial relationships among themselves as well as with the visitors touched me very much, in this work I perceived not dividing people and sowing seed of discord, but uniting and promoting a harmonious society.
- This is a rich experience in learning theory and really seeing people's problems, doing good work of some is quite different.
- Their dedication and life of commitment, their approachability, there of life of penances and sharing.
- It is a different model than missionary organization to be implemented in Karnataka.

#### ANYOTHER

- Thank you to all for enlightens to promote the life in the world.
- Thanks your
- Learnt something's about nature cure through Fr. Thomas maliakerl
- As such it was good but it was too tight, the place should not have been in kripalaya but in some wehre else because due to structure bond we weren't able to be flexible in our timetable.
- On the whole I like it thanks for taking the pain and serving us.

- The talk on priest as healer could have been omitted because we do study extensively about it. Some practical tips about different kinds herbs and its usages, how to deal with patients who are chronically ill, snakebites.
- Priest as healer, two days duration is too short how to deal with patients who are chronically ill would have been beneficial.
- Some more doctors would have been better for other talks
- Some videocassette on community health could have been shown; since we know teaching of church on health there is no need to deal with this subject.
- The time was too short, all the resource persons were rushing through, there should have been some practical than simply receiving theory. Thirdly if the doctors would have given more important to share of their own experience success, as well as set backs rather than theoretical aspect of the programme.
- Some practical session on herbs would have been useful. Visit to orphanage and handicapped also would have been useful.
- Time was too short, in view of time constrain some input could have been avoided and done only important ones.
- I felt it was OK and the time could have been extended.

#### **Holistic Health - Dr. Sampath Krishnan**

Very informative, enriching and useful. It enhanced understanding of the holistic view

- It was very informative useful and enriching.
- Very much useful, I have benefited much from Dr, Sampath through the skills and experience he dealt almost all the topics of community health, congratulations.
- It was useful; I like the simple approach to availability and us.
- I like his way of dealing the subject, his practical experience. I liked the most
- Useful and very much practical
- Very good informative and useful

#### **Priest as healer - S.J.Chander**

- Personally not satisfied, served as a way of revision and rekindled my conviction.
- Poor in communication skill
- Not useful, there is not many new things to learn, he could not communicate clearly and convincingly
- It was not useful. It was an attempt of a laity point of view on the theme; if he could have prepared well then it would have been some effect on us.
- He presented well, but too much document presentation, he can do better if proper pre information is given to him.
- Useful as far as his encouragement is concerned.
- It was ok, useful.

#### **Alternative system of medicine - Dr. Manjunath & Dr. Hafeel**

- Well acceptable as it provided information regarding various systems of medicine,
- It was informative and enriching
- Very useful
- It was useful he enlightened us more in the yoga
- He went on in an academic way, he was concerned with finishing on the given time, and few practical tips he could have given.
- Useful but too short a time to grasp and digest.
- It was very good and useful.

#### **Dr. Hafeel**

- It was simple and clear; it has created an interest help local people preserve the rich tradition in herbal medicine.
- The talk was simple and clear but stress was on the tradition
- Very useful
- It was not so much useful since he dealt most on the theoretical aspect.

- He too was not bad, he spent too much on historical background,
- Useful as far as information is concerned
- It was rather useful and informative

#### **Working With Urban Communities - Mr. Joy Maliakal**

- It was an inspiring testimony, edifying, and a challenging task. Helped us to think about empower the urban poor in our own way.
- His talk was full of testimonies
- Very practical and useful
- It was useful since he shared his own experience, the problems and success
- He shared his experiences I liked it, I became aware of where there is will there is way.
- Useful because of the narration of own personal experience
- It was very good and useful

#### **Understanding Communities - Dr. Paresh**

- It was flowery but practical. It has helped in understanding the dynamics of rural communities and taught me how to deal with them in participatory way without providing but by enabling.
- It was edifying and challenging
- Very useful
- It was very useful as I got the chance to perceive the catholic understanding of charity from other point of view. I felt we would have give some more time for him. Even the street play akka was an eye opening for me.
- I like his field experience he was practical. He presented the face of today's intrustic society.
- Useful though it was rather very fast may be due to lack of time.
