

Dear Health Experts

World Health Organization has developed a **national health research information system** (called **National Health Information Collaboration NHIC**), which is a web enabled database to serve as a one stop location for information on all health subjects relevant for India. The system will be administered by the ICMR.

The fully functional prototype is ready and currently hosted at <http://203.197.175.3/nhic/>. The final system is to be finalized in a workshop on the basis of feedback of representative experts/ users. Indian Institute of Information Technology – Bangalore (iiitb) has undertaken the consultancy work of Quality Audit of the system and coordinating the process of obtaining the feedback from experts/ users and incorporation of the expert committee recommendations by the developer in the final NHIC..

We would like to have your opinion on the following points with regard to the current Portal/Website. (<http://203.197.175.3/nhic/>)

- Ease of use and benefit for researchers/information seekers in the health domain.
- Sufficiency and appropriateness of the Content Categories, grouped in the following heads
 - Scientific Publications;
 - Information Collections;
 - Health IT Applications;
 - Projects and Funding;
 - Education and Training;
 - Statistical Data;
 - Directories
- Navigational ease of the system.
- User manual /help system: clarity of presentation; ease of access and use. etc.
- System for up loading content: for authorized institutions,
- Contents of the Administration module.

On receipt of your feedback, we will collate and circulate it amongst all the experts. The specifications of the system will be finalized in a workshop of all the experts. To meet the expenses, you may incur in the exercise, we will pay an honorarium of Rs 2500/-. The travel expenses and per diem for participation in the workshop shall be met separately. To facilitate the process of obtaining feedback, we are enclosing a template / feedback form. We would be extremely grateful if you could provide your valued suggestions on the form and mail the same to us by March 16, 2003.

We expect to collate the feedback and circulate it amongst the experts by March 6. The workshop for finalization of the system is tentatively scheduled for March 22, 2003.

The exercise being collaborative, may we re-iterate our request for providing the feedback by March 16, 2003.

Please feel free to contact me if any clarifications are needed. If corresponding by e-mail, request mail at Milind@iiitb.ac.in with a copy to dwivedir@whoindia.org.

Thanking you

Milind Priolkar

1. What is your first impression of the Website?

2. How do you rate the Website on a rate of 1 to 5? (1 – Worst , 5 – Best)

a. Content

b. Navigation

c. Searching Capabilities

d. Personalization

e. Classification and Categorization of Sections

f. Overall

3.

a. What is your most Preferred health portal?

b. What is the URL?

c. What features of that portal would you like to be incorporated in NHIC

4.

a. What is your most commonly used health information portal?

b. What is the URL?

c. What features of that would you like to be incorporated in NHIC?

5. Do you feel the sections/categories are suitable, or need to be added, modified or deleted?

6. Any comments for improvement of the website you would like to make.

Please Rate the different Categories on a scale of 1 to 5 (1-- Worst and 5 – Best)
