Congress Programme

Empowering People, Strengthening Networks

**The 9th International Congress on AIDS
in Asia and the Pacific (ICAAP)**

9-13 August 2009, Bali International Convention Centre (BICC)
Nusa Dua, Bali, Indonesia

Putu Aikep and Wayan Aikep
welcome all delegates of
the 9th International Congress on AIDS in Asia and the Pacific (ICAAP)
to Bali, Indonesia.

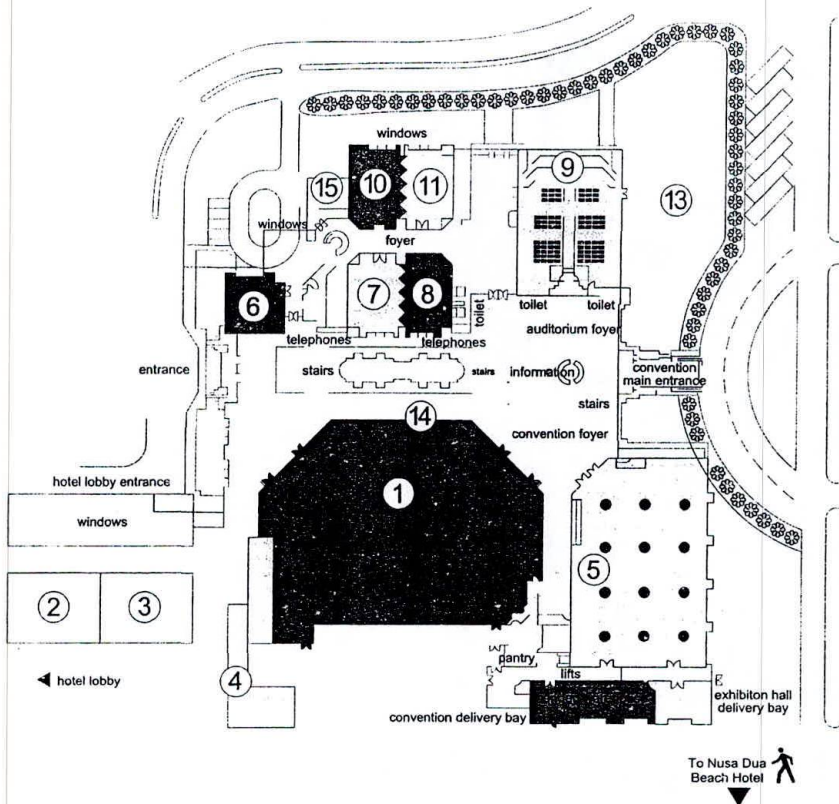

Taking the theme on *Empowering People, Strengthening Networks*, the Congress wishes to envision a vibrant community of empowered people, linked by strong networks that reach across Asia and the Pacific and beyond to mobilize a holistic and effective response, based on the latest best practices and scientific evidence, to the specific and cross-border challenges of the HIV pandemic faced by countries in the region today.

The logo for the 9th ICAAP has originally been developed by Nur Syamsi. The map of the globe represents the Asia-Pacific region, embraced by a network of people working toward a common goal to stop and halt the spread of HIV in the region, represented by the red ribbon in the shape of a person.

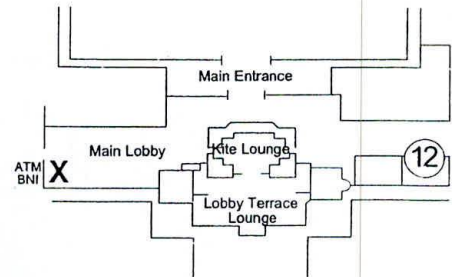

This mascots of the 9th ICAAP are named *Wayan* and *Putu*, names which are traditionally given to the first, fifth and/or ninth child in the Balinese family. Both names apply to any gender. Since this is the 'ninth child', we are using those names for our mascots. To make it easier for Indonesians to pronounce "ICAAP", the mascots' second names have been spelled the Indonesian way: *Aikep*. The Mascots are created by Bog-Bog, a Bali-based cartoon magazine.

Friends and neighbours of the Asia and the Pacific region, partners in the response to HIV and AIDS, we welcome you in Bali, Indonesia for the 9th International Congress on AIDS in Asia and the Pacific. Sadly, there is nowhere in our region that is free of HIV. We face many common challenges but, reflecting the great diversity across our region there is also variety in the face of the epidemic and in our responses. We hope the Congress will set the stage for interesting and useful exchange of experiences. All of us need encouragement and refreshment in our work and we hope the 9th ICAAP will provide you with both.

Although the focus of the Congress is HIV and AIDS, let us never forget that the impact of HIV infection reaches to many fields beyond health, thus it is important that we take a broader perspective as we analyze experiences and plans for the future. If we do not manage our response effectively it will retard our national and regional efforts to achieve the Millennium Development Goals reducing poverty, hunger, maternal and infant mortality. Unresolved, these challenges will slow down the overall progress of development to which we all aspire.

The theme of the 9th ICAAP is Empowering People, Strengthening Networks and the Congress has been structured to facilitate that process. Whatever your special interests are, you will find colleagues with whom you can exchange information while you are in Bali and with whom you may want to network when you are home.

The Government and the People of Indonesia heartily welcome you.

Ir. Aburizal Bakrie

The Coordinating Minister For People's Welfare Republic of Indonesia

Co Chair III

On behalf of the local organizing committee, I am pleased to extend our warm welcome to all delegates of the 9th International Congress on AIDS in Asia and the Pacific to Bali, Indonesia!

This is the first International AIDS Conference ever held in Indonesia, and we have been working hard to develop an exciting congress programme. With over 3,000 participants that includes congress delegates, media delegates, exhibitors, visitors, volunteers and member of the local organizing committee, we look forward to deliver a successful congress together with you.

It is our goal that the congress provides an opportunity to exchange scientific excellence and inquiry, create a forum for meaningful dialogue, foster accountability, and encourage individual and collective action in addressing AIDS in Asia and the Pacific and ensure the sustainability of the response.

With a congress theme on Empowering People, Strengthening Networks, we envision that this congress will deliver a vibrant community of empowered people, linked by strong networks that reach across Asia and the Pacific and beyond. We also hope that the congress will help mobilize a holistic and effective response based on the latest best practices and scientific evidence, to the specific and cross-border challenges of the HIV pandemic faced by countries in the region today.

May we all have a fruitful meeting and kindly please do not forget to enjoy your stay in Bali!

Warm regards,

Prof. Dr. Zubairi Djoerban, SpPD-KHOM
Congress Chair

Messages

I am very pleased that the 9th ICAAP has attracted an unprecedented level of interest as shown by the submissions for oral sessions as well as the applications for symposia, satellites and skills building sessions. The Local Organising Committee ought to be congratulated for their success in attracting such a strong response from all those who are involved in the fight against AIDS in this region.

The high level of interest has allowed the Local Organising Committee to put together a highly selective Congress Programme which is one of the best so far, bringing together speakers from a wide range of disciplines and sharing the already extensive experience which exists in the region, whether it relates to scientific advances, innovative ways to work with populations at risk, or improved national strategic planning. The plenaries have focused attention on a wide range of issues such as those related to empowerment, community mobilization and inequalities leading to enhanced vulnerability – issues which must be tackled if we are to work towards removing the barriers hampering the AIDS responses in countries of the region.

I am particularly delighted to see the strong presence of civil society and community groups which were involved in organizing this ICAAP. The programme clearly shows how intensely their involvement and participation has grown over the years. The ICAAP theme of "empowering people, strengthening network" could not be more apt – we see again and again how communities are fully engaged and innovating on the front lines – be it in fighting for the rights of those who are stigmatized or in finding innovative ways to expand the reach of prevention, treatment care and support services to those who need them. There is so much to learn from these efforts as well as the experience of national governments, as they work towards making universal access to prevention and treatment an achievable goal in the region.

I wish you a productive congress and urge you to participate fully in its sessions and activities.

With greetings and best wishes,

JVR Prasada Rao

Director, UNAIDS Regional Support Team – Asia Pacific

On behalf of ASAP, it is my sincere pleasure to welcome you all to the 9th ICAAP in Bali, Indonesia.

I would like to express my gratitude to the Government of Indonesia, the Local Organising Committee (LOC), UNAIDS, International AIDS Society (IAS), other UN agencies, bilateral and multilateral donors, civil society organisations and community-based groups who have contributed substantially to the preparations and processes for this exciting event through invaluable personal, professional, organisational, technical, intellectual and financial help and assistance.

The ASAP's decision to award the 9th ICAAP to Indonesia was important since Indonesia holds a strategic position in the Asia and Pacific region. The 9th ICAAP will provide a platform for individuals and organisations to discuss the incumbent issues, share values, experiences and expertise, and fire up enough synergy to come up with do-able, innovative and cost-effective solutions. I am convinced that the theme "Empowering people, Strengthening Networks" will bring us all together to further consolidating the gains against HIV and AIDS and uniting us all through expression of diversity.

Your continued interest and participation are a powerful testimony to the joint commitment and struggle against HIV and AIDS. It establishes the possibility and necessity of a better world and a brighter future. Let's all be part of the change. Be the change!

I look forward to seeing Indonesia light the way forward.

Terima Kasih. Thank you.

Myung-Hwan Cho

President of the AIDS Society of Asia and the Pacific (ASAP)

Program Structure

Plenary Sessions

Experts on HIV-related subject matters will be invited from around the region to give plenary lectures during the Congress. This will be a great opportunity to listen to the world's most distinguished researchers, community leaders and policy specialists. Plenary Sessions will be held every morning from 10 August to 13 August 2009.

Oral Sessions

Each session consists of ten-minute presentations by each speaker, followed by questions and answers. The 9th ICAAP deals with diverse topics which are divided into four tracks, namely:

TRACK A - Understanding the Epidemic and Strengthening Prevention Efforts

This track focuses on the dynamics of the AIDS epidemic in Asia and the Pacific and the ongoing efforts to prevent HIV transmission, with special attention to empowerment and partnership strategies. At the global level, this region's AIDS epidemic is overshadowed by the epidemic in Africa. Still, the number of infected and affected people is growing fast and there are pockets of high incidence. Focus has been on so-called risk groups, but in a number of countries new infections predominantly occur among women with single partners and adolescents.

TRACK B - Strengthening Partnership for Treatment, Care, and Support

This track deals with quality improvement in care, support and treatment through broadening partnership in clinical research, capacity building of PLHIV and related professionals and workers, improving the health system by scaling up response and integration of related services, successful identification of a comprehensive set of evidence-based interventions that could significantly reduce the incidence and impact of HIV and AIDS and improve the quality of care.

TRACK C - HIV/AIDS in Context: Understanding and Addressing Socio-Cultural, Economic and Political Determinants

This track focuses on the socio-cultural, political and economic context of HIV/AIDS. It examines the manifestations of the epidemic in specific settings, its impacts, and the ways structural determinants affect the response to it. Issues ranging from globalisation, market liberalisation, migration, climate change, hiking oil prices, and scarcity of food to poverty and ethnic diversity all affect vulnerability to HIV infection, morbidity and mortality as well as prevention, treatment and care strategies.

TRACK D - Leadership and Broadening the Response

This track attempts to bring out examples of policies and programs at the local, national, bilateral or multilateral level that demonstrate genuine commitment of the political leaders, their partners in the private sector, and in the community. The Asia-Pacific region is known to have isolated communities due to its geographical nature or cultural background.

Poster Presentation

Posters will be on display on 10 - 12 August 2009 from 09.00 to 18.00. There will be different posters each day. Presenters are requested to stand by their posters during lunchtime (12.15 - 14.15) on their designated day.

Satellite Meetings

Satellite Meetings will take place during lunchtime and evening, organised and operated by several companies, government agencies, institutions or non-governmental organisations. There are 75 satellite meetings and some are open only for selected delegates invited to the meeting.

Skills Building Workshops

There are thirty-two (32) skills-building workshops at this Congress. Skills-building workshops are considered as one of the important components of the Congress which requires skills and experience as well as technical know-how. Through these workshops, conference delegates will have the opportunity to improve various skills they can apply to their daily work in communities and organisations.

Symposia

There are twenty four (24) symposia hosted by various organisations, where invited speakers and lecturers will discuss cross-track issues. Several symposia will take place simultaneously each day in three time blocks after the plenary sessions and are open for all delegates.

Asia Pacific Village

The Asia-Pacific Village aims to bring the diversity of our region and our congress together in a space where our differences are celebrated. The Asia-Pacific Village will provide a place where we can both interact and engage on a personal level, sharing all our combined experiences, knowledge and skills, build coalitions, and promote interactive learning among communities living with and affected by HIV and AIDS including policy makers, researchers and other groups in the community.

Congress Field Trips

Congress Field Trips

The organizing committee has planned a number of field trips to local organisations with HIV & AIDS prevention and treatment programs, which may be of interest to the delegates. The field trips will take place during lunch time (12.15 - 14.00) on 10, 11 and 12 August 2009 at places relatively close to the congress venue (BICC), which are Denpasar, Sanur and Kuta (30 - 45 minutes drive). The field trips are free of charge, but the number of delegates in each trip is limited to 20 persons only, on a first-come, first-served basis. Registration for the field trips can be done on site during the congress. Transportation will be provided, but lunch will not be provided. All field trips will commence from designated pick-up points at BICC complex.

Post Congress Field Trips

The 9th ICAAP is also offering delegates the opportunity to visit the district of Buleleng (North Bali) or Gianyar (Central Bali) after the Congress from 14 - 15 August 2009 to see directly the HIV program activities as well as cultural performances and local attractions.

For more information about the Congress Field Trips, please contact the Hospitality Desk.

Pre Congress Community Forum

The Community Forum was historically convened by the Coalition of Asia Pacific Regional Networks on AIDS as part of the pre-ICAAP program. On the 9th ICAAP for the first time the Community Forum will take place more than one day. There will be eight (8) break out forums from 7 - 8 August designed to reflect the main concerns of each community and is organized by respective sub-committees of the organisers along with an international counterpart. About 500 civil society representatives from the Asia-Pacific region along with some pre-identified experts, donors, other stakeholders, and human rights activists are expected to participate. The sessions will include plenary presentations and discussions, as well as breakouts and other activities deemed appropriate by the respective organizers. The Community Forum will end on 9 August 2009 morning, when all the groups gather to share the outcomes of their respective forums which will be presented at the Opening Ceremony.

Official & Social Program

OPENING CEREMONY

Sunday, 9 August 2009

The 9th ICAAP opening ceremony will take place at 19.00 at Lotus Pond, Garuda Wisnu Kencana (GWK) Cultural Park in Bali and will be preceded with a Welcome Reception. President of the Republic of Indonesia, H.E. H. DR. Susilo Bambang Yudhoyono, is expected to officially open the congress. The Cultural Park is located at Bukit Ungasan, Jimbaran Bali with an enormous statue of Garuda Wisnu Kencana as its landmark. Delegates will be required to arrive an hour before the ceremony starts for security check.

WELCOME RECEPTION

Sunday, 9 August 2009

Welcome Reception will take place immediately after the Opening Ceremony in Lotus Pond, Garuda Wisnu Kencana Cultural Park - Nusa Dua, Bali. It will be a great opportunity to meet other participants and prepare yourself for a productive and enjoyable Congress by enjoying its first social event. All registered delegates are invited to attend.

CLOSING CEREMONY

Thursday, 13 August 2009

The 9th ICAAP Closing Ceremony will take place on August 13th, at Bali International Convention Center (BICC) in Nusa Dua, Bali, Indonesia. Coordinating Minister for People's Welfare is scheduled to close the congress. The ceremony will be held immediately after the Rapporteur Session and the last plenary session. All delegates are invited to attend.

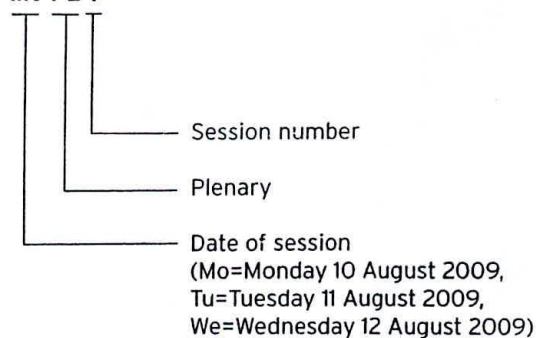

AIDS AMBASSADOR MEETING

The Indonesian First Lady and National AIDS Ambassador, H.E. Hj Ani Bambang Yudhoyono will co-host an AIDS Ambassadors' Meeting during the 9th ICAAP, together with the Australian AIDS Ambassador, Hon. Murray Proctor. The AIDS Ambassadors' Meeting will address the role of AIDS Ambassadors in the Asia and Pacific region and how they can be mobilized for greater action and accountability for the response. Attendance to the meeting is by invitation only.

Information for Speakers and Poster Presenters

Information for Oral Presenters

Plenary Sessions, Symposium, Oral Sessions, Satellite Meetings, & Skills-Building Workshops

- All presentations are in English, except for some presentations in the Bahasa Indonesia sessions.
- Presentation slides should use power points (Windows XP-Microsoft Office 2007) on computers connected to a multimedia projector.
- Presentations are limited to a maximum 10 slides.
- Speakers are requested to submit their presentations either in a USB flash drive or CD-ROM at the Speakers' Desk one day before their presentation day.
- The presentation file will be transferred to the session room prior the session. Once transferred, speakers are requested to preview their own presentation.
- Please note that the Speakers' Desk does not provide editing facilities.
- You may also wish to send your presentation file prior to the congress via email to presentation@icaap9.org. Please indicate your abstract number and presentation code in the email.
- Duration of each oral session is 90 minutes. Each session may consist of up to six abstract presentations. Therefore, each presentation are strictly limited to 10 minutes. A thirty minute discussion will follow facilitated by the session chair.
- Every speaker are required to report to the organiser at the entrance of the allocated session room 15 minutes before the session begins.
- The person listed as the presenting author is responsible for presenting the paper at the congress.
- If due to unforeseen circumstances the presenting author cannot attend, please notify the organisers at the Speakers' Desk.

Speakers' Desk

The Speakers' Desk is located at the Karangasem Room.

Working Hours

Sunday 9 August 2009	08.00-15.00
Monday 10 August 2009	08.00-18.00
Tuesday 11 August 2009	08.00-18.00
Wednesday 12 August 2009	08.00-18.00
Thursday 13 August 2009	08.00-12.00

Information for Poster Presenters

- Posters are displayed using a two-dimension medium of your preference. You may use words and images describing your research or programme activity as described in your abstract.
- All posters are written in English.
- Poster will be displayed in the designated locations. Please visit the information desk to find out where the location is and on what date your poster will be on display.
- Posters will be on display between 08.00-17.30 for one day only.
- Poster presenters are requested to stand by their poster during lunch time (12.15-14.15)
- Posters will be displayed on panel boards with the following dimensions: 90 cm width x 180 cm height. Your poster should fit into these dimensions.
- Each panel board can be clearly identified by the poster code on the upper left corner of the board.
- Mounting materials (including double sided tape) will be provided.
- Posters must be removed in the afternoon of your presentation day between 17.30-18.00. Materials that are not removed will be discarded.
- Please visit the information desk in the venue to get your exact poster presentation location.

Poster Location

Poster Board Number	Location
001 – 110	Ground Floor
111 – 254	First Floor (Foyer of Exhibition Gallery)
265 – 430	First Floor (Foyer of Nusantara Room)

List of Keywords

TRACK A - Understanding the Epidemic and Strengthening Prevention Efforts

Behavioral change strategies	Information, Education and Communication (IEC)	Intercity Drivers
Behavioral Change Communication, including media & communications	Risk Factors	Surveillance
Circumcision	Sexual Networks	Virologic Epidemiology
Safer Sex Practices	High Risk and Vulnerable Groups	Vaccines Initiatives
Condoms	Sex Workers	Harm Reduction
Life-skill education	Lesbian Gay Bisexual Transgender Intersex	Universal Precaution
Community Empowerment	Questioning	Post Exposure Prophylaxis
Community Education	Intravenous Drug User	Preventing Mother to Child Transmission of HIV (PMTCT) or Prevention of Parent to Child Transmission (PPTCT)
Barriers to behavioural change	Special settings	Voluntary Counseling and Testing (VCT) or Practitioner Initiated Counseling and Testing (PICT)
Communication & messages	Prisons	
Innovative and Effective Interpersonal Communication	Military	
	Overseas workers	
	Sailor	

TRACK B - Strengthening Partnership for Treatment, Care, and Support

Access to care and treatment	Cytokines/chemokines	Immune reconstitution
Adherence	Diagnosis	Immunology
Affordable treatment	Diagnostic tools	Midwives care
AIDS orphans	Drug resistance	Military/police issues
Alternative therapy	Ethico-legal issues	Neuro AIDS
Antiretroviral agents	Generic drug	Nursing care
Antiretroviral therapy	GIPA	Nutrition
Biomedical intervention	Hepatitis co-infection	Opportunistic Infection
Capacity building for program staff	HIV and other organ systems	Palliative Care
Care/support	HIV pregnant woman	Pediatric AIDS
Case management	HIV receptors	Peer support and education
CD4	HIV replication	Person with Disabilities
Clinical Intervention	HIV specific immunity	Reproductive Health
Clinical trial	HIV subtype	Self-help
Closed settings (prison, rehabilitation center, etc)	HIV testing	Strengthening Health Systems
Community-based care	Homecare	TB-HIV
Complementary medicine	Host factors	Viral load
Counseling	IDU clinical and treatment	

TRACK C - HIV/AIDS in Context: Understanding and Addressing Socio-Cultural, Economic and Political Determinants

Class	Faith and Religion	Political Systems
Climate Change	Financial Systems	Poverty
Community Resilience	Gender	Power Structures
Conflict and Violence	Globalization & Regionalization	Socio-economic impacts
Culture	Governance	Structural Determinants
Disaster	Market Liberalization	Structural Responses
Ethnicity	Policy	

TRACK D - Leadership and Broadening the Response

Bilateral Cooperation	Partnership	Role of Political Leaders
Decentralization	Political Commitment	Roles of Parliamentarians
Delivery System	Political Isolation	Roles of the Business Sectors
Legal Framework	Program Harmonization	Strategic Planning
Local Capacity	Regional Inequities	Sustainability
Management System	Resource Mobilization	War and Armed-Conflict
Multilateral Cooperation	Rights of Migrant Populations	Women Involvement
Networking	Rights of PLWHIV	Youth Involvement

List of Abstract Reviewer

Abby Ruddick	John Dwyer, Prof.	Retno Wahyuningsih

10:45 - 12:15

Nusa Indah Hall

MoSY01 Male Circumcision for HIV Prevention: Current Evidence

Chair: Dr Pandu Riono, (WHO)

This symposium seeks to gather lesson learnt from various studies and program implementations in different places about the effectiveness of circumcision as a method to induce immunity to HIV acquisition. Despite plausible results of current epidemiological studies on circumcision status and the incidence rate of STDs, including UTI and acquired immunodeficiency syndrome which shows potential medical benefits and advantages of circumcision, many people still resist circumcision as a method to curb the spread of HIV epidemic. As such, this symposium also aims to find sound communication methods in promoting circumcision where the infection is most prevalent.

MoSY02 Universal Access: What it Takes to Deliver in the Asia-Pacific Region

The Joint United Nations Programme on HIV/AIDS (UNAIDS)
Chair: JVR Prasada Rao, *Director, UNAIDS Regional Support Team - Asia Pacific*
Co-Chair: Murray Proctor, *AIDS Ambassador, Australia*

At the UN High Level Meeting on AIDS in June 2006, the world committed itself to reach universal access to HIV prevention, treatment, care and support for all people in need by 2010. Following this, most countries organized consultations with key stakeholders, including civil society organizations and networks of people living with HIV, to agree on national universal access targets and on ways for overcoming the obstacles in achieving them. Since then, the commitment to universal access has galvanized AIDS responses around the world, and reinforced the engagement to stand by those infected and affected by HIV. Specifically, in the Asia-Pacific region, it is critical to make a breakthrough in prevention coverage among most at risk populations. In order to achieve this, countries will need to tackle legislative barriers and actively work with civil society organisations and people living with HIV to create an enabling environment and reach marginalized groups.

Michel Sidibe, *Executive Director UNAIDS*
Michel Kazatchkine, *Executive Director GFATM*

Closing Remarks: Murray Proctor/JVR Prasada Rao

10:45 - 12:15 Nusantara 3

MoSY03 Planning for National AIDS Response (Strategic Info)

Indonesia National AIDS Commission
Chair : Mr. Tim Mackay
Co Chair: Mrs. Sharifah Tahir** (TBC)

Focussed comprehensive prevention is one key policy for most HIV epidemic in the Asia Pacific. However there are issues and challenges to set national strategic planning in many parts of the region, which will be discussed in the symposium.

DR Amala Reddy, *UNAIDS Reg Tech Supt of Asia and Pacific**
National strategic planning: getting your priorities right

Mr Wiput, *Thai Healthy public policy foundation** (TBC)*
Integrating national strategic planning on AIDS into national planning development

Discussant : Mr. Husein Habsyi (TBC)

Rapporteur : Mrs Yanti Susanti

16:00 - 17:30 Nusantara 2

MoSY04 Empowerment and Positive Women's Leadership in the Asia-Pacific Region: Launching a Publication and Visual Documentation Profiling HIV positive Women Leaders in the Asia - Pacific Region

United Nations Development Fund for Women (UNIFEM) East Asia, The Joint
United Nations Programme on HIV/AIDS (UNAIDS)

The objectives of the session are to:

1. Share experiences and challenges faced by positive women leaders in making their voice heard
2. Help strengthen policy dialogue on meaningful participation and involvement of HIV positive women in policy, planning and programmes among state officials and NGOs
3. Increase visibility of HIV-positive women leaders of the region
4. Provide a forum for networking among participants

Speakers:

Dr. Susan Paxton, *Advisor of APN+ and WAPN+*

Kiran Kaur, *Staff- Asia-Pacific Council of AIDS service organisations (APCASO) and member of APN+*

Maura Mea, *Core-group WABHA, PNG and member of APN+*

16:00 - 17:30 Nusantara Hall

MoSY05 Translating Political Commitment into Action

The Asian Forum of Parliamentarians on Population and Development (AFPPD)
and The Joint United Nations Programme for HIV/AIDS (UNAIDS)

Chairs: Hon Mr. Dinesh Trivedi, *Minister of State for Health and Family Welfare, India*
Hon. Senator. Dr. Pinit Kullavanijaya, *Senate of Thailand and AFPPD secretary General*

Political Commitment is the decision of leaders to use their power, influence and personal involvement to ensure that HIV/AIDS programmes receive the visibility, leadership resource and ongoing political support that is required to effectively action to limit the spread of HIV and mitigate the impact of the epidemic. This commitment is often underscored by an accurate understanding of the dimensions of the crisis of HIV/AIDS in much of Asia-Pacific. Therefore, there is a need to ensure that political commitment goes beyond mere statement of support, and instead directly support the implementation of HIV/AIDS programmes and activities.

Hon. Dame Carol Kidu, *Minister of Community Development, Papua New Guinea*
Hon. Mr. Oscar Fernandes, *MP, India*
Hon. Mrs. Sapna Malla, *MP, Nepal*
Hon. Dr. Tien Nguyen, *MP, Vietnam*
Hon. Senator Ms. Claire Moore, *Senator, Australia*

16:00 - 17:30 Nusantara 3

MoSY06 HIV Prevention and Most at Risk Young People

The Asia Pacific Regional UN Coordination Group on Most At Risk Young People (MARYP)

Chair: James Chau, *UNAIDS National Goodwill Ambassador for China, Television Presenter, China Central Television CCTV-9, Working Group Member, aids2031*

In many countries in the region, over 95% of all new HIV infections among young people occur amongst those most-at-risk, yet coverage of comprehensive HIV prevention interventions for most at risk young people is low. To guide programme planning and monitoring, strategic information on the specific needs of MARYP and the coverage of services is critical. The symposium will share experiences of programming for MARYP in the Asia Pacific region, including effective ways of involving young people.

Welcome: Purnima Mane, *Deputy Executive Director, UNFPA*

Jan de Lind van Wijngaarden and Margaret Sheehan, *Representatives of the UN Coordination Group on MARYP*

Most at Risk Young People in Asia and the Pacific: Who and Where are They, and Why Do We Need to Know?

Panel discussion: Reaching Most at Risk Young People- Programmes and Participation

12:30 - 14:00

Room 2 (Jakarta A)

MoSMO1 Avahan - The Business of Prevention at Scale Avahan - India AIDS Initiative of the Bill & Melinda Gates Foundation

Chair: Aradhana Johri, (the Joint Secretary of the Indian National AIDS Control Organization)

Speakers:

Ashok Alexander, (the Director of Avahan, the India AIDS Initiative of the Bill & Melinda Gates Foundation), or

Tisha Wheeler, (Programme Officer from Avahan),

The use of data to form and maintain the business model - which in turn broadened coverage, deepened intensity and improved quality

Darshana Vyas, (The Director of PATHFINDER, one of Avahan's State Lead Partners),
The role of the State Lead partners in the Avahan programme, and their work on data collection and implementation

Usha Kiran, (Senior Programme Officer for Avahan)

The role of the peer educators in their communities - the devolution of the programme to female sex workers and other members of the key populations

Surekha Barawakar, (Peer Educator with the John Paul Slum Development Project),

The work of groups advocating for an enabling environment for those at risk of contracting HIV, and the mobilisation of communities to lower their risk of vulnerability

12:30 - 14:00

Room 3 (Jakarta B)

MoSMO2 MSM and HIV in Asia and the Pacific: Cross-Cutting Issues

FHI-APRO, WHO-WPRO and Asia Pacific Coalition on Male Sexual Health (APCOM)

Chair: Shivananda Khan OBE, NFI/APCOM

Co-Chairs: Dr Massimo Ghidinelli, WPRO, Dr. Celine Daly, FHI/APRO

The session will explore key cross-cutting issues that affect MSM and TG populations, including key factors impeding access to adequate health and social services, and underlying health disparities and vulnerabilities among these populations and their partners. Presentations will explore the impact and ways in which these issues overlap with HIV infection rates, social situations, economic circumstances, and psychological wellbeing. Q&A and audience discussion will be included.

Speakers:

Mr. Manop Uthairakorn, SWING, Bangkok, Thailand

MSM and Sex Work

Mr. Shale Ahmed, Bandhu Social Welfare Society, Dhaka, Bangladesh
MSM and Female Partners

Mr. Philippe Girault, FHI/Asia Pacific Region Office, Bangkok, Thailand

National Serology Reference Laboratory (NRL), Australia

Chair: Elizabeth M. Dax AM; MD,BS; PhD, (Director, National Serology Reference Laboratory, Australia - NRL™, an ASAP Member Organization)

The Satellite Session is intended to address cross cutting issues related to HIV testing, its control, confidentiality and accuracy when used beyond laboratory settings. The Session will address technical issues associated with expanding testing. The ability to maintain quality will be highlighted. Mechanisms as to how people will access testing more easily or possibly conduct the tests themselves will be addressed. The human rights and ethical issues that might be transcended with easy access and ready availability will be explored e.g. for sex workers. The use of technologies such as mobile phones to facilitate better testing outcomes will be suggested.

12:30 - 14:00

Room 5 (Frangipani)

MoSM05 Protecting Patients, Providers and the Public: Preventing Transmission of HIV, TB and Other Infections in the Healthcare Setting

Jhpiego

Participants will:

- 1) learn simple, low cost strategies to prevent bloodborne and respiratory infections in the healthcare setting based on Jhpiego's experiences in Asia and Africa,
- 2) be updated on current post-exposure prophylaxis (PEP) guidelines,
- 3) Explore best practices in infection prevention that can be implemented in their workplaces, and 4) receive a Respiratory Infection Control training package.

Speakers:

Dr.Chandrakant Ruparelia, (Jhpiego, HIV/AIDS Advisor)

Dr. Jeffrey Smith, (Jhpiego, Regional Technical Director for Asia)

12:30 - 14:00

Room 8 (Orchid)

MoSM04 China Confronts HIV: 3 Perspectives

Tsinghua University, China, University of New South Wales (UNSW), Australia

Chair: Heather Worth, (an Australian HIV social researcher)

Six speakers from China will each make a short presentation. These scholars, program managers, and social activists will share their first-hand experiences in dealing with critical issues in China's effort to control HIV. Their short presentations will be followed by a session of questions and answers. Updated information on HIV in China will be distributed at this meeting.

Speakers:

Professor Wang Ruotao, (Head of China AIDS Information Network),
Address the overall situation of HIV in China

Ms. Annie Ren, (a NGO volunteer with Fuyang AIDS Orphans Salvation Society),
voluntarism and charity among people living with HIV at the grassroots

Jing Jun, (Professor of Sociology at Tsinghua University)
stigma among medical professionals

Li Xiguang, (Associate Dean of Journalism at Tsinghua University),
Chinese media environment for prevention and care

Ms. Zhang Su, (Project Officer at UNESCO Beijing Office),
HIV prevention among migrant workers

Mr. Shi Kai, (Head of China AIDS Roadmap Technical Support Team),
policy innovations

12:30 - 14:00

Room 5 (Hibiscus)

MoSM06 Using Data to Improve HIV/AIDS Programming in Indonesia

Family Health International (FHI), National AIDS Commission (NAC)

Chair: Robert Magnani, (FHI-Indonesia)

Evidence-based programming has become a central tenet of HIV/AIDS programs globally. However, evidence bases tend to be underdeveloped and relatively weak in many if not most countries. This satellite session will provide a forum for the discussion of recent efforts to generate and use of different types of data for program planning and improvement in Indonesia.

Speakers:

Fonny Silfanus, (National AIDS Commission),
Piloting and Scaling-up a Comprehensive Intervention for Female Sex Workers to Prevent Transmission of HIV and other STIs

Dyah Erti Mustikawati, (Ministry of Health),
Priority Actionable Findings from the 2007 Integrated Bio-Behavioral Surveillance among Most-at-Risk-Groups in Indonesia

Rizky Ika Syafitri, (FHI-Indonesia),
Using Quality Improvement Processes to Improve Program Performance

Nurholis Majid, (FHI-Indonesia),
Why an Urgent Response is Needed to a Growing Syphilis Epidemic among Most-at-Risk-Groups in Indonesia

Discussion: Subhash Hira, WHO-Indonesia

Mon
10
AUG

12:30 - 14:00 Room 4 (Medan)

MoSM07 The Role of the Religion in Encouraging and Discouraging HIV and AIDS prevention

Concern for AIDS Research and Education (C.A.R.E.) Foundation

Chairs: Dr.N.M.Samuel, (Professor, Formerly of TN DR MGR Medical University, Chennai, India)
Mr.Zahid Hussain, (President SURF, Pakistan)

Religion plays a significant role in both encouraging and discouraging HIV and AIDS prevention. Religious beliefs, attitudes, teachings, and practices can contribute both negative and positive dimensions to efforts aimed at promoting HIV and AIDS prevention. The challenge is to recognize how restrictive or judgmental religious tenets and tendencies may complicate efforts to eradicate the disease, and to discern how theological and ethical convictions combined with compassion can contribute to protecting the well-being of persons and promoting the goal of an AIDS-free world. No world religion has a monopoly on either creating or eliminating obstacles to promoting HIV and AIDS prevention. Each religious tradition must be challenged to draw from its own rich resources of faith and to play a key role in addressing programs of prevention and becoming partners in the struggle to conquer HIV and AIDS.

Speakers:
Zahid Hussain, (President of Sustainable Resource Foundation (SURF), Pakistan),
Religion and HIV/AIDS: Do we communicate to integrate or alienate?

Youngsook Charlene Kang, (District Superintendent, the United Methodist Church, USA),
Women and HIV/AIDS Prevention Challenges

Lok Prakash, (National MSM Task Force, India),
Yogic way of life - an effortless living

Donald E. Messer, (Executive Director, Center for the Church and Global AIDS, Colorado, USA),
People of Faith As Partners In Preventing HIV and AIDS

PANEL DISCUSSION

12:30 - 14:00 Room 1 (Nusantara 1)

MoSM08 Men Can Change - Reducing the Burden on Women and Girls and their Vulnerabilities to HIV

United Nations Populations Fund (UNFPA)

Chair: Kiran Bhatia, (Gender Advisor, UNFPA Asia and Pacific Regional Office - APRO)

Women and girls account for more than half of the new HIV infections in the Asia-Pacific region. The latest Commission on the Status of Women (CSW) in March 2009, highlighted the need to reduce women and girls' vulnerabilities to HIV and AIDS, including by preventing gender based violence. The involvement of men and boys in decreasing women's vulnerabilities and equally sharing care-giving in the context of HIV and AIDS was emphasized as a core strategy. This session will share innovative strategies from Asia and Africa that engage men and boys in reducing the burden on women and girls and their vulnerabilities to HIV and AIDS.

Speakers:
Opening remarks : Ms. Nobuko Horibe, (Regional Director UNFPA Asia and Pacific Regional Office - APRO)

Mr. Dean Peacock, (Co-Director of Sonke Gender Justice, South Africa),
Men, the care economy and gender equality: challenging gender roles and structural inequalities

Mr. Nur Hasyim, (Manager Media, Research and Training at Rifka Annisa, Indonesia),
Men reducing women and girls' vulnerabilities due to all forms of violence

Mr. Sujit Modak, (Sonagachi project, India),
Babus take action for sex workers' health through condom promotion and violence prevention - a good practice from Kolkata's largest red-light district

Mr. Muhammad Shahzad Khan, (Executive Director of Charan Development Association and National Y-PEER Focal Point, Pakistan),
Young men's leadership for supporting sexual and reproductive health and rights of women and girls in challenging environments

Mr. James Lang, (Programme Coordinator Partners for Prevention),
Introducing Partners for Prevention: an UN interagency initiative in Asia and the Pacific

12:30 - 14:00 Nusantara 2

MoSM09 What's New at The Global Fund for Civil Society

The Global Fund to Fight AIDS, Tuberculosis and Malaria (GFATM)

This interactive session will be an opportunity for representatives of civil society organizations to learn about recent innovations at The Global Fund. Presenters will give an update on two new initiatives at The Global Fund: Dual Track Financing (DTF) and Community Systems Strengthening (CSS). Both initiatives are designed to maximize the community based response to AIDS. Civil society engagement in providing oversight to grant implementation will also be discussed in the context of CCM funding policies and CS participation.

Speakers:
Michael O'Connor, (Manager, Civil Society and Private Sector Partnerships, The Global Fund),
Introduction and Overview of Community Systems Strengthening and Dual Track Financing

Vincent Crisostomo, (Regional coordinator, 7 Sisters/CSAT Host Asia Pacific),
Local experience with CSS

Kate Thomson, (Head, Civil Society Partnerships Unit, UNAIDS),
What UNAIDS can do to support CSS and DTF

David Winters, (CCM Manager, The Global Fund),
CCM policy issues

12:30 - 14:00 Nusantara 3

MoSM10 Redefining AIDS in Asia: Community Perspective

APN+ - Asia Pacific Network of People Living with HIV (APN+)

Chair: Shiba Phurailatpam (Regional Coordinator APN+)

The community follow-up project to the CAA's report is currently progressing and involving civil society leaders from 5 countries. The main objective of the project is to integrate the CAA's recommendations into the civil society agenda at the country level. Through this project, on-going processes such as network annual assemblies, NSP review and GF proposal development has been identified as important opportunities where CAA's recommendation can impact at the policy and programmatic level in countries. Two community focal points from five participating countries (India, Pakistan, Sri Lanka, Cambodia & Thailand) has been invited to a regional workshop in Thailand, where these community focal points were familiarized with the CAA's report and developed a strategic work plan to be implemented at the country level.

Speakers:
Sonal Mehta/Daxa Patel, (India - Project Focal Points)
Ishtiaq Ahmed/Imran Zali, (Pakistan - Project Focal Point)
Swarna Kodagoda/Emanuel Prabhar Thavaraja Deepan, (Sri Lanka - Project Focal Point)
Niwat Swanphatthana/Anan Muangmoonchai, (Thailand - Project Focal Point)
Penn Mony/Tith Khimuy, (Cambodia - Project Focal Point)

Partner Organizations:
The Joint United Nations Programme on HIV/AIDS (UNAIDS), Asia Pacific Network of People Living with HIV/AIDS (APN+), Coalition of Asia Pacific Regional Networks on HIV/AIDS (7 Sister)

12:30 - 14:00 Kertagosa - Nusa Dua Hotel

MoSM11 Using Data for Better Services: Lesson Learnt from Faculty of Medicine, University of Indonesia, Cipto Mangunkusumo Central Hospital Jakarta

Faculty of Medicine, University of Indonesia

Chair: Prof. DR. Samsuridjal Djauzi, SpPD, KAI, (Faculty of Medicine, University of Indonesia)

This session is mainly aimed to disseminate the results of researches conducted among staff of the Faculty of Medicine, University of Indonesia. Various aspects of research in HIV areas will be discussed. Furthermore, this session will allow participants coming from various universities and hospitals to share their experiences in managing HIV/AIDS cases.

Speakers:

DR. Ratna Sitompul, SpM (K),
Eye Manifestation of HIV/AIDS

Dr. Darma Imran SpS,
Toxoplasma, Cryptococcus and TB in Neuro AIDS in Indonesia

Prof. DR. Samsuridjal Djauzi, SpPD, KAI,
Review on Some Researches Conducted in Center for HIV Services, RSCM, Jakarta

Prof. Dr. Zubairi Djoerban, SpPD, KHOM,
Health Insurance for HIV Patients

12:30 - 14:00 Kertaton - Nusa Dua Hotel

MoSM12 Data Sources, Data Uses - Identify Gaps in HIV Data For Decision Making in the Asia-Pacific Region

The Joint United Nations Programme on HIV/AIDS (UNAIDS)

Chair: Anupama Rao Singh, *Regional Director, UNICEF EAPRO*

Co-Chair: Jacques Jeugmans, *Practice Leader Health, ADB*

In many countries of the region, critical data on the HIV epidemic is still limited or unavailable. HIV and behavioral Surveillance, size estimations of population at risk or monitoring of the national response are crippled by inadequate funding and limited human resources. Without this information, National AIDS programs cannot identify priorities, the progress and impact of interventions or to make evidence-based decisions on policy, program design and resource allocation. The session specifically aims to point out the key gaps in strategic information and response monitoring data in the region, and the possible regional platform for highlighting these gaps that the Data Hub can provide. The goal of the Data Hub is that the availability of information and its gaps on an easily accessible website will generate a demand for better country-level data collection and dissemination.

Speakers:

Opening remarks: the Chair and Co-chair

Michel Carael, *Data Hub Manager, HIV and AIDS Data HUB Asia-Pacific, UNICEF EAPRO*

Introduction to the need for strategic HIV data in Asia, the role of a Database.

Amala Reddy, *Regional Programme Advisor - Strategic Information, UNAIDS Regional Support Team for Asia and the Pacific*

Strategic information on HIV: what are the gaps in Asia-Pacific?

Adeeba Kamarulzaman, *Head Infectious Disease Unit, Department of Malaya University of Malaya Medical Centre*

Malaysia: Needs in data collection and use.

Min Thwe Director, *HIV/AIDS Technical Support Facility Southeast Asia, IPPF ESEAOR*

Gaps in information related to HIV programming at the country level.

APN+ speaker to be confirmed

The perspective of a civil society data user

Massimo Ghidinelli, *Regional Adviser, HIV/AIDS and STI, WHO WPRO*
Data requirements for an effective health sector response to HIV

Moderated Discussion facilitated by: Tasnim Azim

Concluding remarks by: Prasada Rao, *Regional Director, Regional Support Team for Asia and the Pacific*

Facilitator:

Tasnim Azim, *Head HIV / AIDS Programme and Virology Laboratory, International Centre for Diarrhoeal Disease Research (ICDDR)*

17:45 - 19:15 Room 2 (Jakarta A)

MoSM13 Continuing Challenges in AIDS Research and Training in Asia

The Fogarty AIDS International Training and Research Programs of Brown University/ Tufts University, the University of California Los Angeles, and the University of Illinois at Chicago.

Chair: Judith A. Levy, PhD., (University of Illinois at Chicago)

In 1988, the AIDS International Training and Research Program (AITRP) began as one of the first of a new generation of research training programs sponsored by the Fogarty International Center (FIC) at the U.S. National Institutes of Health. Currently AITRPs funded by FIC at 28 major U.S. educational institutions provide institutional research capacity-building and short, medium, and long-term AIDS research training for scientists recruited from institutions in low- and middle-income countries. This satellite session provides a brief history of the contributions of AITRP programs in Asia and the Pacific, examines specific challenges and directions in AIDS research and training that 3 countries (China, India, and Indonesia) in the region confront, and explores new challenges and opportunities that lie ahead. A social period at the end of the session provides an opportunity for further discussion, networking, and sharing ideas.

Speakers:

Roger Detels, M.D., (University of California, Los Angeles),

20-plus Years in Asia and the Pacific: Contributions of the Fogarty AIDS International Training and Research Programs

Suniti Solomon, M.D., (Y.R. Gaitonde Centre for AIDS Research and Education, Chennai India), **Opportunities and Challenges in Developing a Comprehensive AIDS Clinical Research Program in India**

Zunyou Wu, PhD., (National Center for AIDS/STD Prevention and Control, China CDC), **China Responds to the AIDS Epidemic**

Irwanto, PhD., (Institute of Research and Community Services, Atma Jaya Catholic University), **Indonesia at the Cross-Roads: Current and Future Directions in AIDS Research and Training**

Kenneth H. Mayer, M.D., (Brown University/Miriam Hospital/Fenway Health), **Closing Remarks: New Opportunities, New Challenges"**

17:45 - 19:15 Room 3 (Jakarta B)

MoSM14 Partnership in Reaching Universal Access to HIV Prevention, Treatment, and Care and Support in a Challenging Environment: Experience from Pakistan

National AIDS Control Program (NACP)

Chair: Mr. Mir Aijaz Hussain Jakhri, Minister of Health, Pakistan

The Satellite Session will aim to share the experience of Pakistan in implementing HIV prevention, treatment care and support services over the past five years in a diverse regional and local context, through building strong and sustained partnership with civil society and community based organizations. The specific objectives of the session are to:

- Examine the status of current knowledge and understanding in reaching and scaling-up HIV prevention among various most-at-risk populations;
- Determine how to enhance the voice and participation of communities in Pakistan; and
- Share the experience of building partnership in a diverse regional and local context

Speakers:

Opening Remarks: Health Minister/Secretary Health

Mr Oussama Tawil

Overview of the objectives within the current context of the country

Dr Hasan Abbas Zaheer

Epidemiological situation and experience in implementation of the National AIDS Response

Dr Ali Razzaque

Building of public-private partnership for implementation – Provincial perspective in AIDS Response

Mr. Tariq Zafar

Scale-up of HIV prevention among IDUs – Experience of Civil society

Ms Shukria Gul

Community Based response and role of the PLHIV in Pakistan

Q&A

Concluding Remarks

17:45 - 19:15 Room 7 (Bougainville)

MoSM15 Towards a Multi-Sectoral Response: Scaling-up Harm Reduction Services for IDUs in China

The Joint United Nations Programme on HIV/AIDS (UNAIDS)

Chair: Dr Bernhard Schwartländer, (UNAIDS Country Coordinator, China)
Co Chair: Dr Hao Yang, (Deputy Director General, Bureau for Disease Prevention and Control, Ministry of Health)

- Discuss the overall policy framework providing the context for the implementation of China's harm reduction programme
- Provide a forum for a debate between health and law enforcement sectors on the different approaches to harm reduction and how these can be united within a multi-sectoral approach
- Present case studies portraying how divisions between sectors have been overcome at local level
- Discuss how prevention in closed settings [compulsory detoxification centers and re-education through labor centre's] can be improved and how links to local communities can be established and developed

Speakers:

Dr Wu Zunyou, (Director, NCAIDS, China Center for Disease Prevention and Control),
Progress and challenges – an overview of the progress in scaling-up harm reduction in China.

Mr. Wang Hongru, (Deputy Chief, 4th Division, Narcotics Control Bureau, Ministry of Public Security) and Dr Li Jianhua, (Deputy Director, Yunnan Institute for Drug Abuse)

Policy Perspectives – law enforcement and health sector present the sector's respective approaches to harm reduction

Hua Ming, (Deputy Director General, Department of Narcotics Control Bureau, Public Security Bureau of Jiangsu Province), and Qian Xingcai, (Director, MMT Clinic, Centre for Disease Prevention and Control, Wuxi City, Jiangsu Province),

Implementation Perspectives – law enforcement and health sector cooperation in Jiangsu Province

Xu Wenhui, (Division Chief, 4th Division, Prison Management Department, Ministry of Public Security)

The challenge of providing prevention and care in closed settings and linking these to their local communities

17:45 - 19:15 Room 8 (Orchid)

MoSM16 Repealing Anti-Sodomy Law: Lessons From and Challenges in Asia and Pacific

The Lawyers Collective (India), United Nations Programme on HIV/AIDS (UNAIDS)

Chair: Mr Prasada Rao, (Director, Regional Support Team for Asia and the Pacific, UNAIDS)

The Asia – Pacific region presents a mixed slate on criminalization of adult same sex sexual activity, with 24 States prohibiting such conduct. Criminalisation poses enormous challenges in addressing HIV needs among the disproportionately affected MSM communities and presents a direct barrier to providing relevant HIV prevention, treatment and care services, thus impeding their right to health. Asia has also seen many legal interventions against anti-sodomy laws – including the most recent judicial orders by the Delhi High Court in India repealing proscriptions against adult consensual sex between men. This unparalleled pronouncement reaffirming the right to privacy, dignity, health, equality and non-discrimination against sexual minorities has enthused community and rights activists and presents lessons for other Asian countries that continue to criminalize same sex acts. This session will therefore explore legal strategies against criminal laws targeting MSM in the region, bringing forth experiences of legal repression and reform from community members and sharing lessons from past efforts and successes of legal reform.

17:45 - 19:15 Room 6 (Frangipani)

MoSM17 HIV and Mobile Workers: Towards Public-Private Partnerships in the Maritime and Transport Sectors

International Organization of Migration (IOM)

Chair: Dr. Jaime Calderon, (IOM Senior Migration Health Adviser)

The satellite session HIV and Mobile Workers: Towards Public-Private Partnerships will:

- highlight the HIV risks and vulnerabilities of mobile workers, particularly those in the transport and maritime sectors
- identify best practices in multisectoral responses

The satellite session is organized by the International Organization for Migration in close collaboration with the Global Partnership on HIV and Mobile Workers from the Maritime and Transport Sector, with the generous support of UNAIDS.

Speakers:

Welcome and Introductions

Moderator: Rosilyne Borland

Dr. Caitlin Wiesen, United Nations Development Programme, Regional HIV/AIDS Practice Leader & Programme Coordinator Asia & Pacific

HIV and Mobile Workers in Asia

Dr. Syed Asif Altaf, International Transport Workers' Federation, Global HIV/AIDS Coordinator
Responses driven by workers

Dr. Sophia Kisting, International Labour Office, Director ILO Programme on HIV/AIDS and the World of Work

Working with employers

Dr. Suresh Idnani, International Maritime Health Association, Vice-President; International Committee on Seafarers' Welfare, Regional Co-ordinator South Asia

Responses from health professionals: maritime health

Reiko Matsuyama, International Organization for Migration, Partnership on HIV and Mobility in Southern Africa

Regional responses: experience from SADC

Rosilyne Borland, HIV and Health Promotion Coordinator, International Organization for Migration

Global Partnership on HIV and Mobile Workers in the Maritime Sector: pulling it all together

Q & A session

Conclusion's and final remarks: New New Ayen, (Regional Programme Adviser, United Nations Joint Programme on HIV/AIDS)

Mon
10

17:45 - 19:15 Room 5 (Bali)

MoSM18 Clinical Management of HIV Infection and the Antiretroviral Therapy

Concern for AIDS Research and Education (CARE) Foundation

Chair: Dr.N.M.Samuel, (President C.A.R.E Foundation)

Co-chair: Dr.Aikichi Iwamoto, (IAS Regional Representation, for Asia and the Pacific)

HIV/AIDS is a serious infectious disease in the Asian and Pacific region and the prevalence is clustered and diverse as is evident from the data available with the UNAIDS and the WHO. An estimated 200,000 children on ART are only 10% of those who should be receiving treatment. The limits to scale up of ART is besides funding, the need to be aware of one's serostatus and the lack of knowledge as to when to start ART. This session will highlight the critical need of HIV management in health care settings. And the impact of reducing Tuberculosis and other CI's effectively. It will demonstrate that effective ART and Prophylaxis against MTCT, paired with appropriate monitoring tools can have far reaching impact. This session will truly be engaging creative minds to address the issues related to HIV/AIDS management in resource limited settings.

Speakers:

Opening remarks:

N.M.Samuel, (Professor - Rtd, TN DR MGR Medical University, Chennai, India),

The connection between Treatment and Prevention

Tasnim Azim, (Senior Scientist, ICDDR, Dhaka, Bangladesh),

Current Epidemiological situation of HIV/AIDS in Asia and the Pacific

Steven Johnson, (Professor of Medicine, Division of Infectious Diseases, University of Colorado, Denver, USA),

Clinical Management of HIV/AIDS-Challenges in 2009 and beyond

Bernd Salzburger, (Professor of Infectious Diseases, University of Regensburg, Germany),
Management of Opportunistic Infections - Challenges in Resource limited settings

Steven Johnson, (Professor of Medicine, University of Colorado, Denver, USA),
ART-optimal strategies

Aikichi Iwamoto, (Professor, Division of Infectious Diseases, the University of Tokyo, Japan),
Management of ART related complications

Bernd Salzburger, (Professor of Infectious Diseases, University of Regensburg, Germany),
Management of Antiretroviral drug Resistance

Panel Discussion

17:45 - 19:15 Room 4 (Medan)

MoSM19 Advocacy: What makes for Political Commitment

AIDS Society in Asia and the Pacific (ASAP)

Chair and co-Chair: Tasnim Azim, Bangladesh and Dennis Altman, Australia

1. Ways on building political commitment (what were the various ways and means that can be used to build political commitment)
2. Measuring Political Commitment (what are the key performance indicators that help us measure the efficacy of political commitment?)
3. Building Political Commitment Through Broadening Participation in the Policy Process
4. The relations between community, government and business leaders in building political commitment

Speakers:

Marina Mahathir, Malaysia

Roslyn Moruata, PNG

David Stephens, Australia/Vietnam

Oscar Fernandes, India

17:45 - 19:15 Room 1 (Nusantara)

MoSM20 Gender Variance and Male-Male Sexualities Across the Global South

Hivos, NAZ Foundation International (NFI), AIDS Society in Asia and the Pacific (ASAP) and Asia Pacific Coalition on Male Sexual Health (APCOM)

Chair: Shivananda Khan OBE (NFI/APCOM)

Co-Chair: Paul Jansen, (Hivos)

The session will bring together experts in gender variance and male-male sexualities from the Southern Hemisphere (Asia, Latin America, the Pacific, Sub-Saharan Africa) to explore similarities and contrasts as they impact the delivery of HIV services for MSM and transgenders in each region. Participants will better understand gender and identity affects uptake of HIV services leading to increases in numbers and quality of HIV interventions for non-normative high-risk sub-populations. It is expected that the session will also lead to development of global linkages and networking to increase and strengthen advocacy and educational efforts. Q&A and audience discussion to be included

For additional information, questions or to reach APCOM and/or the speakers, please send email to: 200forum@msmasia.org.

Speakers:

Andinya Hajra, Pratyay Gender Trust, Kolkata, India

Asia/South Asia

Dr. Fernandez-Davila, Ramon Llull University, Barcelona, Spain

Latin America

Niraj Singh, The Amithi Project, Suva, Fiji

Pacific

Professor Vasu Reddy, Human Sciences Research Council of South Africa and the University of KwaZulu-Natal
Africa

17:45 - 19:15 Nusantara 2

MoSM21 Learning Together: Tanah Papua and PNG

National AIDS Commission (NAC) Indonesia, AusAID

Chair: Dr. Nafsiah Mboi, (NAC Indonesia)

The satellite aims to continue and increase the links in HIV work between our two countries. The speakers will be followed by questions, presentations and discussion of key issues including strengthening the health system response, community mobilisation, prevention and the role of positive people. Ways forward for future collaboration will be identified.

Speakers:

Governor Barnabas Suebu, (Governor of Papua Province, Indonesia)

Governor Dr Bob Danaya, (Governor Western Province, PNG)

17:45 - 19:15 Nusantara 3

MoSM22 Restrictions on AIDS NGOs in Asia

Asia Catalyst

Chair: Sara L.M. Davis; *Asia Catalyst director*

Around Asia, grassroots AIDS NGOs and harm reduction groups have faced repeated problems with official restrictions and harassment, from the shutdown of NGOs and arrests of AIDS advocates in China and Burma, to the arrests and police harassment of harm reduction outreach workers in Cambodia and Malaysia. The purpose of this meeting is to begin analyzing the issue as a systemic and widespread problem, and to brainstorm practical solutions on a regional and global level.

Speakers:

Anand Grover, *UN Special Rapporteur on the Right to Health*

Li Dan, *Executive Director, Korekata AIDS Law Center, China*

Raymond Tai, *Executive Director, Pink Triangle Foundation, Malaysia*

Holly Bradford, *Executive Director, Korsang, Cambodia*

17:45 - 19:15 Auditorium

MoSM23 Need of Social Movement and Multi Sectoral Approach to End AIDS in Asia

Asian People's Alliance for Combating HIV & AIDS (APACHA), ActionAid International

Chair: Mr. John Samuel, *International Director (Asia and Governance), ActionAid International*

Despite more than two decades of HIV & AIDS history, the world has not yet been able to move beyond time-bound projects. Broader social movements are still reluctant to engage with issues of HIV & AIDS. They do not even count HIV & AIDS in their agenda nor do they consider people working in this sector as political allies. Multi-sectoral approach was brought into policy debates as a genuine tactic to mobilize different constituencies but it was soon declared a failure! There are cost-effective alternative ways of interventions towards mobilizing constituencies and people. In these contexts, the proposed satellite meeting aims to bring a broad horizon of people and organizations working in different sectors to debate, discuss and galvanize their solidarity for AIDS response in Asia. This forum envisages initiating a social movement in AIDS response.

Speakers:

Joe Thomas, *Chairperson, (APACHA)*

Mohammad Abdus Sabur, *Secretary General, (AMAN)*

Christy Abraham, *National Theme Leader HIV and AIDS- ActionAid India and Asia Coordinator HIV and AIDS- Asia (Interim)*

Dr. Tia Phalla, *Research Consultant, CACHA*

MoSM25 Where We've Come From and Where We're Headed: An Overview of China's AIDS response

The Bill & Melinda Gates Foundation

Chair and Co Chair: Ministry of Health of the People's Republic of China

This meeting aims to present a general overview of the AIDS epidemic in China, including challenges faced, progress made, lessons learned and the direction of future work. By bringing together a number of distinguished speakers from government and non-government sectors, Chinese and non-Chinese organizations, and medical and non-medical backgrounds, each with his/her own distinct role in China's AIDS response, the meeting intends to shed light on the different elements at play in past, present and future HIV/AIDS prevention and treatment work in China. In addition, audience members will have the opportunity to meet key players in the response, including behind-the-scene experts such as public health and medical specialists as well as nationally-recognized AIDS ambassadors who have become the face of prevention in China today. In this way, the meeting aims to demonstrate the necessity for a diverse, multi-faceted response and, ultimately, encourage heightened involvement and cooperation moving forward.

Speakers:

Hao Yang, *(Deputy director, Disease Control Bureau, China MoH: acting director, State Council AIDS Working Committee Office),*
Update on the AIDS epidemic in China

Leong Che-hung, *(Chairman, Hong Kong AIDS Foundation),*
From Hong Kong to the Mainland - the past thirteen years and beyond

Shang Hong, *(Vice president of the First Hospital of China Medical University),*
Testing and treatment networks in China

Peng Liyuan, *(Head of the Song and Dance Ensemble of the Political Department of the Chinese People's Liberation Army; performer; AIDS ambassador),*
Promoting social advocacy and awareness as an AIDS ambassador in China

Pu Cunxian, *(Deputy director, Beijing People's Art Theatre; performer; AIDS ambassador),*
Promoting social advocacy and awareness as an AIDS ambassador in China

Shen Jie, *(Secretary of the Chinese Association for STD&AIDS Prevention and Control),* NGO
Involvement in China's AIDS Response

Ray Yip, *(Chief representative, Bill and Melinda Gates Foundation, China Office),*

SKILLS BUILDING PROGRAMME

10:45 - 12:15 Bandung

MoSB11 Children and HIV/AIDS - Strengthening Leadership Skills for Policy Analysis and Advocacy

The skills building workshop is meant for NGO professionals working with children living with, and affected by, HIV and AIDS. It will build on the existing knowledge of participants on current HIV policy issues as these intersect with children's health, survival, education, development, protection and rights. The workshop will provide participants with a tool to effectively analyze policy gaps, challenges and barriers, with respect to children and HIV. Participants will also be guided on the application of the tool in different country and community contexts, with a view to developing effective advocacy and policy influencing plans.

Suman Sengupta

10:45 - 12:15 Surabaya

MoSB12 Hi-Exchange: Creating Safe Spaces where There are None

Objectives :

1. to discuss how safe spaces can be created for "hidden" individuals and/or communities (ie migrant communities)
2. to share skills for using these spaces to empower individuals and communities
3. developing such spaces for HIV positive migrants

Jacqueline Pollock

10:45 - 12:15 Kertagosa - Nusa Dua Hotel

MoSB41 Being Assertive: One Strategy for HIV Prevention Among Others

Conceptual formulations of HIV risk reduction and many HIV prevention interventions emphasize the role of sexual assertiveness, negotiation, and communication skills as key elements for enacting behavior change.

Assertiveness is the ability to express yourself and your rights without violating the rights of others. It is appropriately direct, open, and honest communication which is self-enhancing and expressive

Finding from previous study showed that individuals with high objectively rated sexual assertiveness skill had the lowest number of unprotected sex acts, the smallest number of different sexual partners, the smallest number of casual sex partners, and the highest levels of condom-protected sex in the past 30 days. Individuals with poor sexual assertiveness role-play skills had the highest levels of sexual risk behavior.

- To recognize the differences between being passive, assertive and aggressive through exploration of personal reaction
- To encourage participants to be assertive in the most appropriate and effective way especially in HIV and AIDS prevention.

Laili Hanifah

10:45 - 12:15 Keraton - Nusa Dua Hotel

MoSB31 Public Speaking for Positive People

To work with PLHIV who have publicly identified themselves as HIV Positive and those considering doing so.

To provide public speaking tools to empower and improve PLHIV ability to communicate effectively about the realities of living with HIV and overcome the fear of public speaking.

Improve the quality of their presentations as speakers, HIV community activists and potential leaders.

Method :

Training delivered by Positive People for Positive People utilising public speaking fundamentals, community development and GIPA principles to engage participants in a rapid adult learning format.

A highly interactive, fast moving and dynamic workshop to learn about the qualities of a good speaker, structuring a talk, body language, voice work and how to actively embed HIV prevention and education messages into their presentations.

Maxwell Robert Nigg!

16:00 - 17:30 Bandung

MoSB32 Empowering Infected and Affected People

The main objective of our workshop is to make the participants understand how empowering the infected and affected people, self-confidence building is going to help them and to the community and to improve their skills on decision making.

Srinivasa varma

16:00 - 17:30 Surabaya

MoSB42 Positive Prevention : Getting the ingredients Right!

This workshop will seek to share the experience of IPPF, GNP+ and ICW on the issue of positive prevention, and in doing so build the skills of participants to better understand, and address, the positive prevention needs of people living with HIV. There is a lack of clarity on the exact ingredients and how to programme prevention initiatives aimed at PLHIV. This workshop will look at the factors that programmes to address the prevention needs of PLHIV should include. It will also provide a platform to discuss what the imperative components of positive prevention are.

Kevin Osborne

16:00 - 17:30 Kertagosa - Nusa Dua Hotel

MoSB43 Positive Prevention Promotes Positive Choices - Shifting to a PLHIV Oriented Prevention Approach

During the past few years, little attention in meeting the prevention needs of people living with HIV/AIDS (PLHA). HIV prevention was merely done for HIV negatives to keep them negative, ignoring the central role of PLHIV. Positive prevention programs are aimed at avoiding re-infections and cross-infections among PLHA as well as HIV transmission from positive people to other people.

The concept of positive prevention is relatively new in most of countries. However, international experiences suggest that, a comprehensive strategy of HIV/AIDS prevention and treatment should address positive prevention. The workshop is aimed at increasing participants' understanding and awareness on positive prevention, and enhancing their ability to translate this concept into practice when they are back to their countries.

Donghua Xia

16:00 - 17:30 Keraton - Nusa Dua Hotel

MoSB44 Interactive Theatre for HIV/AIDS Education to Learn and Practice (IT-HELP)

Equipping ICAAP participants with the skill of Interactive Theatre (Theatre of the Oppressed) so that they can utilize this skill effectively to educate and sensitize their communities regarding HIV/AIDS, Stigma and Discrimination and other related sensitive issues.

Muhammad Shahzad

TuSY07 Falling Through the Cracks: Addressing the Reproductive Health Needs of Female Sex Workers

Family Health International (FHI), World Health Organization (WHO)

The symposium will focus on strengthening networks that aim to improve the sexual and reproductive health of female sex workers. This is to highlight the unmet needs for reproductive health services of female sex workers and present examples of successful models in the region.

Dr. Graham Neilsen, Technical Advisor, Sexual and Reproductive Health, Family Health International, Bangkok, Thailand

Unmet reproductive health needs of female sex workers – including prevalence of medical and surgical termination of unintended pregnancies

Dr. Jennifer Butler, Global Focal Point on HIV and Sex Work, UNFPA New York
Policies and programs which address the challenges of meeting the reproductive health needs of female sex workers

Dr. Glen Mola, Professor of Obstetrics and Gynecology, University of Papua New Guinea
The meaning of dual protection for female sex workers – including discussion of appropriate contraceptive methods for female sex workers

TuSY09 Scaling-Up Harm Reduction Services Towards Universal Access in Asia: Models of Good Practice

United Nations Regional Task Force on Injecting Drug Use and HIV/AIDS for Asia and the Pacific (UNRTF)

Chair: Christian Kroll, *Global Coordinator for HIV/AIDS, UNODC*
J.V.R. Prasada Rao, *Director, UNAIDS Regional Support Team*

This symposium session presents some of the innovative work that is being implemented in Asia to scale up harm reduction services with and for people who inject drugs. Five countries in Asia (Bangladesh, China, Indonesia, Malaysia and Pakistan) will highlight differing models for delivering harm reduction services, including services implemented by governments, governments and civil society in partnership and civil society led responses.

Dr Nafsiah Mboi, *National AIDS Commission, Indonesia*

Indonesia: Government and civil society partnership model for expanding coverage of harm reduction

Mr Xu Wenhui, *Ministry of Public Security, China*

China: Government model for taking harm reduction to scale

Bangladesh: Harm reduction service delivery led by NGOs

Mr Tariq Zafar, *Nai Zindaqi*

Pakistan: Harm reduction for people who inject drugs, services delivered by drug users

14:15 - 15:45 Nusa Indah Hall

TuSY10 HIV and Intimate Partner Transmission: A Call for Action

United Nations Development Programme (UNDP), The Joint United Nations Programme on HIV/AIDS (UNAIDS), Women Asia Pacific Network (WAPN+), United Nations Development Funds for Women (UNIFEM), United Nations Populations Fund (UNFPA), The International Community of Women with HIV/AIDS (ICW)

Chair: Dr Nafis Sadik, *UN Special Envoy for HIV and AIDS in Asia*
Co Chair: Prasada Rao, *Director, UNAIDS, RST, Asia and the Pacific*

This symposium will explore the increasing vulnerability of women to HIV transmission from their intimate partners. As noted by the Report of the Commission on AID in Asia (2008), about 50 million women in Asia are at risk of infection from their partners and urgent attention is needed for developing effective prevention strategies to reach them. The symposium will take stock of new emerging evidence from the region, and key factors that contribute to intimate partner transmission including violence, unsafe mobility and migration, delayed partner notification and disabling socio-cultural and gender norms will be assessed. Critical policy and programme action needed at scale to reduce intimate partner transmission will be proposed. This symposium is the result of a major partnership initiative involving UNDP, UNAIDS, UNIFEM, UNFPA, WAPN+ and ICW.

Dr Nafsiah Mboi, *Secretary, National AIDS Commission, Indonesia*

Challenges of engendering National AIDS programmes and inclusion of low risk women

Caitlin Wiesen, *UNDP Regional HIV Practice Leader, Asia Pacific*

Introduction to intimate partner transmission in the Asian Region

TuSY11 HIV/AIDS in the Workplace - Government and Private Sector Policies and Programs

Chair: Dr. Adi Sasongko, *Track D Scientific Sub-committee Chair*

Co-chair: Dr. James Allen, *Regional Medical Director, Asia Pacific, Chevron Corporation*

The symposium will explore the role of government, private sector, and employees in the prevention, education, outreach, standards, and treatment in the workplace. Perspectives from government, and private sector on global policy progress and will answer questions such as how do you go about the implementation of a successful program; how do you maintain the commitment; on the practical side what happens when you're confronted with and HIV+ employee?

Dr. Petchsri Sirinirund, *Senior Expert in Preventive Medicine Department of Disease Control, Ministry of Public Health, Thailand - to be confirmed*

Veronica Juwaryanti, *HIV/AIDS Counsellor*

Dr. Wisprayogie, *Manager Health & Medical Services, Chevron IndoAsia Business Unit*

14:15 - 15:45 Nusantara 3

TuSY12 Recent Advances in ART - Implications for Program Scale-Up and Implementation in the Asia Pacific region

World Health Organization (WHO)

Chair: Dr. Massimo Ghidini, MD, (WHO, Western Pacific Regional Office, HIV/AIDS Unit)

Co-Chair: Dr. Padmini Srikanthiah, MD MPH, (WHO, Southeast Asia Regional Office, HIV/AIDS Unit)

The enormous progress and scale-up in antiretroviral therapy (ART) programs in the Asia Pacific has been accompanied by quantifiable gains in survival among persons receiving treatment. At a time of continued ART program expansion in this region, it is essential to examine new data on ART and evaluate how best these findings can be applied in our resource-limited settings. Topics that will be discussed include the benefits and challenges of earlier ART initiation, the use of viral load testing and the diagnosis and management of first-line treatment failure, and the recent development of new antiretroviral agents and their potential use as future options for second and first-line ART in this region. The presentations will be followed by a panel discussion. This session is intended for practicing clinicians, persons working in public health and policy agencies, researchers, and HIV/AIDS program managers.

Dr. Marco Vitoria, MD (WHO, Geneva, Department of HIV/AIDS, Antiretroviral, Treatment, and HIV Care Team),

TuSY13 Overcoming Legal Barriers to Comprehensive Prevention Among MSM

United Nations Development Programme (UNDP), Asia Pacific Coalition On Male Sexual Health (APCOM)

Chair: Jeff O'Malley, *Director, HIV/AIDS Practice, UNDP*
Shivananda Khan, O.B.E, *Chairperson, APCOM*

Effective HIV prevention requires only in a conducive and enabling environment that allows unimpeded dissemination of prevention messages, appropriate service provision, and confidence among the most marginalized and vulnerable to seek information, and access health related services. Criminalization of male-to-male sex exists in many countries of Asia and the Pacific and these laws often lead to vigilantism and abuse of law. Even in the absence of active criminalization, other provisions of law and practice obstruct intervention, outreach, and delivery of services. These institutional barriers dramatically increase the vulnerability of MSM and results in a serious adverse impact on the lives and health of MSM. In this context, the panelists will take a close look at the present situation in the region and deliberate on the possible policy and programme interventions.

Hon. Michael Kirby, *Australia*

Hon. Dame Carol Kidu, *Member of Parliament and Minister for Community Development Papua New Guinea*

Hon. Sunil Pant, *Member of Constituent Assembly and Parliament, Nepal*

John Godwin, *HIV and Development Consultant*

16.00-17.30 Nusantara 2

TuSY14 Current Responses to HIV/AIDS Epidemic in Muslim Majority Countries

Previously considered protected from HIV due to religious and cultural norms, Muslim countries are now facing rapidly rising threat of dual epidemic: IDU and unprotected sexual practices. Abstention from drug and illicit sex are usual response from the policy makers. However, stigma which is much more pronounced in Muslim countries, often prevent the success of HIV programs and initiatives. This forum thus aimed to facilitate discussion on major challenges to HIV prevention and treatment in predominantly Muslim countries. This symposium will also assess the interplay between the 1996 UNGASS policy edicts, Islam, and culture in predominantly Muslim countries of Asia and make predictions regarding the future of the HIV epidemic in this region.

TuSY15 HIV and National Borders: Building Research/Evidence on Mobility, Migration and HIV

International AIDS Society (IAS), AIDS Society of Asia and the Pacific (ASAP)

Chair: Prof. Dennis Altman, *(Latrobe University, Melbourne; Governing Council Member IAS; Past President)*

Co Chair: Prof. Sukontha Kongsin, *(Ass. Professor of Health Economics, Thailand / ASAP Exec Committee Member)*

This session, a joint collaboration between the AIDS Society for Asia and the Pacific and the International AIDS Society will examine research and evidence around HIV, mobility and migration. This will include research on HIV-specific national laws on migration, travel and residence as well as how migration and mobility are factors for HIV prevention, care and treatment. The session will look at research gaps on these crucial topics, particularly research gaps relative to social and political sciences.

Malu S. Marin, *(Coordination of Action Research on AIDS and Mobility - CARAM Asia), Research on HIV and Labor Migration in Southeast Asia*

SATELLITE MEETINGS

12.30 - 14.00 Room 2 & 3 (Jakarta A & Jakarta B)

TuSMO1 The Current Update on HIV Diagnostic & Screening, Treatment and Monitoring

PT. ABBOTT Indonesia

Chair: Prof Samsuridjal Djauzi, (Co-Chair of the 9th ICAAP, Bali, Indonesia)

Currently the number of people living with HIV/AIDS in Indonesia is rapidly increasing even considered as the fastest growth within Asia. Abbott Laboratories, one of many pharmaceutical companies manufacturing anti retrovirals, and also established in Indonesia as PT Abbott Indonesia, is always trying to show the continuing commitment to support Indonesian government in fighting HIV/AIDS in the country.

Speakers:

Dr Philip Cunningham, (Senior Scientist, NSW Reference Laboratory of HIV/AIDS, St. Vincent's Hospital, Sydney, Australia)

Experience with Detection of acute HIV Infection Using a Combination Ab/Ag assay

Dr. Bradley Hare, (Assistant Clinical Professor of Medicine, University of California, San Francisco, USA)

The Utility of Final Load Testing in Resource Limited Settings

Prof. David Cooper, (Professor of Medicine, University of New South Wales, and Director of Centre in HIV Epidemiology and Clinical Research, Sydney, Australia)

ARV Treatment and Switching to Second Line Therapies

Question & Answer

12.30 - 14.00 Room 2 & 3 (Jakarta A & Jakarta B)

TuSMO2 The Current Update on HIV Diagnostic & Screening, Treatment and Monitoring

PT. ABBOTT Indonesia

Chair: Prof Samsuridjal Djauzi, (Co-Chair of the 9th ICAAP, Bali, Indonesia)

Currently the number of people living with HIV/AIDS in Indonesia is rapidly increasing even considered as the fastest growth within Asia. Abbott Laboratories, one of many pharmaceutical companies manufacturing anti retrovirals, and also established in Indonesia as PT Abbott Indonesia, is always trying to show the continuing commitment to support Indonesian government in fighting HIV/AIDS in the country.

Speakers:

Dr Philip Cunningham, (Senior Scientist, NSW Reference Laboratory of HIV/AIDS, St. Vincent's Hospital, Sydney, Australia)

Experience with Detection of acute HIV Infection Using a Combination Ab/Ag assay

Dr. Bradley Hare, (Assistant Clinical Professor of Medicine, University of California, San Francisco, USA)

Question & Answer

12.30 - 14.00

Room 7 (Bougainville)

TuSMO3 Crime and Punishment: Making the Case against the Criminalisation of HIV

International Planned Parenthood Federation (IPPF)

Chair: Kevin Osborne, IPPF

Several countries have implemented or are considering the implementation of laws that are used to criminalize HIV transmission in order to promote public health. Yet these laws and policies weaken HIV prevention efforts, undermine human rights, and foster stigma and discrimination. Moreover, these kinds of laws can further marginalize key populations (sex workers and their clients; MSM; people who inject drugs) who should be at the forefront of our HIV efforts. This satellite session will provide clear and articulate arguments why such legal measures undermine human rights and public health efforts, and only contribute to the stigma already faced by PLHIV. It will also showcase alternatives to the criminal law.

Speakers:

Anand Grover, (Indian Lawyers Collective)

How and why the use of laws to criminalize HIV transmission is counter productive to HIV prevention efforts in the Southern and Eastern Asia

Meena Seshu, (CASAM)

How criminalization is particularly harmful to key populations such as sex workers (e.g. due to lack of access to and uptake of services etc) in Southern and Eastern Asia and the alternatives to this punitive measure

Susan Timberlake, (UNAIDS)

The alternatives to criminalisation

12.30 - 14.00

Room 8 (Orchid)

TuSMO4 Strengthening and Deepening Networks on Children Affected by HIV/AIDS in Asia/Pacific

The Coalition on Children Affected by AIDS (CCABA)

Chair: John Miller, Projects Coordinator, Coalition on Children Affected by AIDS

The Coalition on Children Affected by AIDS (CCABA), World Vision International, International HIV/AIDS Alliance, Childfund, Family Health International, The AIDS Education Programme and UNICEF are leading an interactive session that will

a) Provide a forum to begin the formalization and expansion of Regional Inter-Agency Task Team (RIATT) in the Asia-Pacific Region, b) Support the establishment of sub-networks on children affected by HIV and AIDS in the region, and c) Promote and share tools to facilitate networking, including on-line meeting and resource sharing platforms such as OVCSupport.net.

Participants can be expected to leave the session having made regional and issue-based contacts in their work with children, having learned about tools, and having heard about the next steps for a formalized RIATT.

Existing language-appropriate resource materials will be provided free of charge.

Speakers:

Wing-Sie Cheng, Director of HIV/AIDS, UNICEF Asia Pacific

Strengthening the Regional Inter-Agency Task Team on Children And AIDS in the Asia Pacific Region

Kyi Minn, World Vision Asia

Uta Duongsaa, The AIDS Education Programme, Thailand and Chiang Mai University

Options for regional sub-networks

Felicia Wong, International HIV/AIDS Alliance

OVCSupport.net, an online tool to support networking in the region

TuSM05 Engaging Islamic Leaders to Strengthen the HIV Response: Strategies, Successes, and Lessons Learned

Health Policy Initiative, Task Order 1, Futures Group International

Chair: Dr. Claudia Surjadjaja, Country Director, USAID/Health Policy Initiative

This satellite will explore the role of Islamic leaders in fostering an enabling environment for HIV prevention, treatment, and care at the national, province, and community levels. Based on work in the region, the session will share effective strategies for partnering with Islamic leaders to address sensitive issues, such as stigmatizing attitudes and religious opposition to harm reduction and condom use. The session will also share successes in transforming Islamic leaders into HIV policy champions who are making a difference in their communities. In particular, Islamic leaders from the region will share their personal experiences, triumphs, and lessons learned so that approaches can be adapted and replicated in other areas. They will also discuss how passages from the Quran can support HIV-related interventions. The intended audiences include religious leaders, HIV program implementers, and any other stakeholders interested in mobilizing communities of faith in response to HIV in Asia.

Speakers:

Welcome and Introduction to Speakers: Dr. Claudia Surjadjaja, Country Director of USAID/Health Policy Initiative

Prof. Dr. Syafiq Mughni, Chairman of Muhammadiyah Provincial Board, East Java, Indonesia.

Expanding the Outreach: An Experience from Faith Based Organizations in East Java in Response to HIV & AIDS

Mr. Husein Abdul Kader, (interim) President of Cholia Muslim Religious Fund Trust, Myanmar
Implementing Islamic Perspectives in HIV Prevention, Care and Support and Counseling Programs

Dr Muhammad Iqbal Khalil, (Director of Razi Institute of Medical Sciences Peshawar, Pakistan),
The role of Moslem Leaders as advocates to reduce stigma & discrimination: Pakistan Country Experience

Mr. Mohammad Abdus Sabur, Secretary General of Asian Muslim Action Network (AMAN), Thailand

AMAN Experience: Networking, Advocacy and Cooperation in Support of Local and National Level Activities in Asia

Discussion:

- Challenges, potential solutions and strategies
- How Muslim communities can better support PLHA, reducing stigma and discrimination

12:30 - 14:00

Room 5 (Hibiscus)

TuSM06 Infrastructure Development: Mitigating the HIV Risks Beyond the Construction Phase

Asian Development Bank (ADB)

ADB's response to HIV vulnerabilities in the infrastructure sector has evolved since it signed the Joint Initiative for Mitigating HIV/AIDS in the Infrastructure Sectors in 2006. Recent evaluations have pointed out that effective responses must plan for interventions pre, during and post construction stages. The satellite session will discuss why a comprehensive response – starting before construction and lasting after project completion – is needed to maximize and maintain results. It presents new designs for HIV risk prevention in infrastructure projects and discusses different options for cost-effective and targeted interventions

Speakers:

Mr. Chris Lyttleton

HIV and prevention interventions in association with infrastructure developments

Ms. Susan Paxton

Responding to gender and HIV in the Infrastructure projects

Ms. Emiko Masaki

Designing and implementing HIV prevention interventions during pre and post construction

Ms. Chansy Phimpachanh (TBC)

The role of line ministries and institutional partnerships – implementing a multisectoral response

12:30 - 14:00

Room 4 (Medan)

TuSM07 Where's the Care? Palliative Care as Cornerstone of Comprehensive HIV Services in the Era of ART

World Health (WHO) - South East Asia Region and Western Pacific Region, Family Health International Asia Pacific Regional Office (FHI/APRO)

Chair: Sombat Thanpresertsuk, WHO Thailand

Co Chair: Usa Duongsaa, (AIDS Education Program, Chiang Mai University)

This satellite session will highlight programs which are providing a continuum of care, and demonstrating high client retention, adherence and survival rates. Key steps and recommendations will be provided in how to put the 'care' back into HIV care and treatment programs. The session will also explore the challenges of providing comprehensive care at scale. Participants will receive resources and tools to help guide the re-integration of HIV palliative care and support services in existing ART sites.

Speakers:

Introductory presentation:

Masami Fujita, (WHO Viet Nam),

Where's the care? HIV palliative care in the HAART era, (Including report on "Global Consultation on Decent Care Values in Palliative Care Services" in Tunis as well as definition of palliative care)

Omar Syarif, (JOTHI / Indonesian PLHIV Network),

What is needed? A story of a PLHIV, (Sharing personal experiences – articulating the needs of holistic care illustrating what needs are met while what needs are not, including Decent Care (or PHC) Values from PLHIV's perspective)

Shaleen Rakesh, (India HIV/AIDS Alliance),

What is needed? A story of a care provider (Sharing personal experiences – articulating the needs of holistic care illustrating what needs are met while what needs are not, including Decent Care (or PHC) Values from a care provider's perspective)

Virat Klinbuayam, (Sanpatong Hospital, Chiang Mai),

How has local health service being responding to the changing needs of PLHIV and community? (Responding to and learning from those who were dying. PreART phase – ART introduction phase – ART expanded phase: including Decent Care (or PHC) Values from local CoC manager/coordinator perspective)

Kimberly Green, (FHI/APRO),

Integrating palliative care into primary HIV care services: why it is important and how it can be done (Review of palliative care needs of PLHIV and a paper on integration of palliative care into the CoC as well providing introduction on discussion on what can be done to improve access to comprehensive HIV care including palliative care using DC principles in AP as part of the PHC movement: tangible steps governments, PLHIV, health care workers, NGOs and others can take)

Comment by discussant

Usa Duongsaa, (AIDS Education Program, Chiang Mai University)

Open Discussion

Conclusion

12.30 - 14.00 Room 1 (Nusantara 1)

TuSM08 AIDS in Asia: Responses and Challenges

The Global Fund to Fight AIDS, Tuberculosis and Malaria (GFATM), The Joint United Nations Programme on HIV/AIDS (UNAIDS)

This session will highlight the current state of the epidemic in the Asia-Pacific region as well as the responses so far and the remaining challenges. The overall goal is to highlight current challenges to implementing and expanding prevention, care and treatment services within the context of resource constraints and human rights issues.

Speakers:

The proposed session will have six brief presentations.

Epidemic trends and dynamics

Prevention successes and the remaining challenges including coverage, efficacy, and impact

National response will highlight the policy changes that have happened and those that are yet to be implemented as well as allocation of resources by the national governments

Care and treatment will focus on the current state of the treatment and the remaining challenges in relation to expanding treatment in the age of resource limitation

Available resources, resources needed and the gaps that exist

The tension between human rights as interpreted by many and adherence to sound public health principles which has influenced our response to the epidemic

12.30 - 14.00 Nusantara 2

TuSM09 How Exceptional Should the AIDS Response Be?

The Joint United Nations Programme on HIV/AIDS (UNAIDS)

Chair: Excellency Marijke Wijnroks, (Netherlands AIDS Ambassador)

The objective of the satellite is to rally key stakeholders in the regional AIDS response around a comprehensive and re-intensified response. It will raise issues and challenges in maintaining exceptional actions on AIDS as an opportunity for enhancing mainstream development. With particular attention to diverse country contexts, the satellite will discuss multi-dimensional perspectives of how the Asia region can switch from crisis management to a sustained strategic response.

Speakers:

Prasada Rao, (Regional Director UNAIDS Regional Support Team, Asia and the Pacific)
Keeping a long-term view in the AIDS response

Jeff O'Malley (Global Coordinator for HIV and AIDS, UNDP)

Creating synergies between single-focus or disease-specific programmes and population-wide health services

Mariam Claeson (Programme Coordinator for AIDS, South Asia, World Bank)
Beyond the health sector: multisectoral engagement

Dr. Nafsiah M'boi (Manager, National AIDS Programme, Indonesia)

The place of HIV/AIDS in the national health sector plan: Country realities in managing multiple objectives and competing demands

Rajiv Kafil (Director Network of People Living with HIV, Nepal)

Civil society activism in pushing greater accountability and urgency

Moderator: Madhu Deshmukh, Deputy, HIV/AIDS unit, CARE USA

12.30 - 14.00 Nusantara 3

TuSM10 Women Parliamentarians Addressing Feminization of HIV/AIDS

The Asian Forum of Parliamentarians on Population and Development (AFPPD), The Joint United Nations Programme on HIV/AIDS (UNAIDS) and AIDS Society of Asia and The Pacific (ASAP)

Chair: Hon. Dame Carol Kidu, (Minister of Community Development), Papua New Guinea

Co Chair: Hon. Senator. Dr. Pinit Kullavanijaya, (Senate of Thailand) and AFPPD secretary General

While progress has been made in the response to HIV/AIDS over the decades, it still remains a considerable challenge, several worldwide and regional trends point to the need for an even stronger, more integrated and gender sensitive advocacy to the epidemics. At the end of 2007, it was estimated that more than 33 million adults worldwide are living with HIV and AIDS and half of them are women. The study also shows that over 60% of 15-24 years olds living with HIV are young women. A recent UN study reveals the percentage of adults living with HIV/AIDS who are women have increased in all region surveyed, indicating a worrisome "feminization" of the epidemic. Therefore, there is a need to highlight this issue by engaging women parliamentarians and leaders to raise awareness of the linkages between gender inequity and HIV/AIDS.

Speakers:

Hon. Senator Ms. Chieko Nohno, (Senator), Japan

Hon. Senator Ms. Claire Moore, (Senator), Australia

Hon. Dr. Donya Aziz (MP), Pakistan

Hon. Ms. Francesca Semoso (Deputy Speaker), Bougainville, Papua New Guinea

Hon. Dr. Jeanet Garin, (MP), Philippines

12.30 - 14.00 Kertagosa, Nusa Dua Hotel

TuSM11 Evident Based Result for Decision Making

Health Department of Indonesia, Global Funds AIDS (GF AIDS)

Chair: Bob Magnani

The satellite meeting is intended to disseminate results of activities (surveys, surveillance, studies) done by Ministry of Health in accordance to develop a better strategy and planning in HIV/AIDS control for the future. The activities are:

1. Mathematical Modelling of HIV epidemic in Indonesia
2. HIV-Drugs Resistance
3. VCT based surveillance
4. Integrated Biological and Behavioral Survey

Speakers:

Aang Sutrisna, MPH, AIDS INA Foundation
Mathematical Modelling Of HIV Epidemic In Indonesia

Tri Yuni Miko, dr, MSc, Faculty of Public Health, University of Indonesia,
HIV-Drugs Resistance

Janto, dr, SpP, Sulianto Suroso, Infectious Disease Hospital,
Monitoring HIV-Drug Resistance

Drg. Dyah Erti Mustikawati, MPH, Ministry of Health,
VCT Based Surveillance

Pandu Riono, dr, PhD, FHI/ASA,
Integrated Biological And Bihavioural Survey

TuSM12 Models for Integrating Nutrition and Food Security into HIV Care, Support and Treatment in the Asia Region: Opportunities and Challenges

World Food Programme (WFP)

Chair: Dr. Martin W. Bloem, M.D., PhD. *Chief, Nutrition and HIV/AIDS Policy, World Food Programme, Rome and Global Coordinator*

The World Food Programme actively advocates for and supports efforts to move towards universal access by improving the comprehensiveness and outreach of treatment programmes by providing nutritional support (including food) as part of comprehensive HIV care. In response to growing recognition of the importance of food and nutritional support as part of comprehensive care for people living with HIV (PLHIV). WFP recognizes that nutrition and food security are an integral part of the overall response to HIV at all levels; and encourages governments to ensure the integration of food and nutritional support as part of a comprehensive care, support and treatment package for PLHIV. The aim of this session is to highlight the impact of HIV on nutrition and food security in the Asia-Pacific Region and to provide lessons and insights into the integration of food security and nutrition programmes in HIV comprehensive care.

Speakers:

- Professor Emeritus Praphan Phanuphak, M.D., PhD., *Director, Thai Red Cross AIDS Research Centre*
- Integrating nutrition interventions into comprehensive HIV care
 - Opportunities and challenges for integrating nutritional care in the Asia-Pacific Region

Dr Angela Kelly, PhD. *Team Leader, Papua New Guinea Institute of Medical Research*

- Impact of HIV on Food Security among people living with HIV in Papua New Guinea
- Related challenges and opportunities for nutrition program designs

Ms Kaniz Fatima, *Project Officer and HIV Focal Point, WFP Bangladesh*

- Developing National HIV nutrition guidelines in Bangladesh
- Challenges in implementation
- Priorities for future strategies in Bangladesh

17:45 - 19:15 Room 2 (Jakarta A)

TuSM13 Linking HIV/STI Services and Reproductive, Adolescent, Maternal, Newborn and Child Health Services: Opportunities for Universal Access

World Health Organization (WHO) – South East Asia Region and Western Pacific Region

Chair: Dr. Iyanthi Abeyewickreme, *(Regional Adviser, HIV/AIDS, WHO Regional Office for South East Asia)*

Co-Chair: Ms. Wing-sie Cheng, *(Regional Adviser, HIV/AIDS, UNICEF East Asia and Pacific Regional Office)*

Linking HIV/STI, Reproductive Health and Maternal, Neonatal and Child Health programs have long been endorsed. This has a potential in accelerating universal access to sexual and reproductive health and HIV services, which contributes to achieving the Millennium Development Goals. Yet despite all the support and benefits of linking services, there are a wide range of constraints. Because of the vast potential of linking HIV/STI and RH/ MNCH services, new opportunities can no longer be overlooked. The satellite session will explore appropriate approaches, identify opportunities and discuss challenges in linking services. The session will highlight successful interventions and explore how these resulted to improved HIV/ STI prevention and outcomes and accelerated prevention of mother-to-child transmission of HIV and syphilis.

Speakers:

Dr. Massimo Ghidinelli, *(Regional Adviser, HIV/AIDS and STI, WHO Regional Office for the Western Pacific)*

Operationalizing linkages between HIV/STI and RH/ MNCH

Dr. Francis Jim Ndowa, *(Coordinator, Controlling STI and RTI, Department of Reproductive Health and Research, WHO Geneva)*

Elimination of Congenital Syphilis

Dr. Mean Chhi Vun, *(Director, National Center for HIV/AIDS Dermatology and STD, Ministry of Health Cambodia)*

Scaling up PMTCT through Linked Response

Dr. Liliani Rajapakse, *(Consultant Venereologists, National STI/AIDS Control Programme Sri Lanka)*

Addressing RH needs in HIV/STI interventions: Experience from Sri-Lanka

17:45 - 19:15 Room 3 (Jakarta B)

TuSM14 Up-scaling Leadership in Action - Brokering Linkages to Achieve Universal Access Targets

The Joint United Nations Programme on HIV/AIDS (UNAIDS)

Chair: Mr. Oscar Fernandes, *(Convener Parliamentarians Forum on AIDS)*

Materials for distribution:

Copies of Toolkit for Parliamentarians on HIV and AIDS: The toolkit consists of 10 easy to read flyers on various aspects of HIV in India; a CD titled resource Kit for parliamentarians, which has a comprehensive toolkit on all relevant aspects of HIV and AIDS in India for political leaders and a DVD consisting of a film called Disha (Direction) on action by political leaders in the response to HIV. Users of the toolkit have given feedback that it can be used for practical tips on what parliamentarians can do at an individual level and as a group. It provides brief consolidated pointers for parliamentarians as well as the option to explore more in-depth information on a particular area related to HIV.

Speakers:

Introduction to implementation models of National AIDS Control Programme (NACP) – III and scaling up of evidence-based AIDS response in India.

Ms. K. Sujatha Rao, *(Secretary and Director General NACO)*

Critical factors for effective implementation of NACP- III interventions for community mobilisation and empowerment

- Dr. Ash Pachauri, *(President Y P Foundation - Representative from sexual minorities and youth)*
- Sushena Reza-Paul, *(Karnataka - Representative of commercial sex worker community)*
- Ms. Mekhala, *(APSACS GIPA Coordinator - Representative of Positive Networks)*
- Mr. Bangkim Chingsubam, *(Joint Secretary, SASO - (Representative of IDU communities)*

Challenges and barriers in scaling up and ways of overcoming these to achieve universal access

ADG NACO or Project Director of one SACS - To speak on TI projects - Name to be confirmed

17:45 - 19:15 Room 7 (Bougainville)

TuSM15 Antidote to discrimination: AIDS Law in Asia and the Pacific?

Sponsors: INP+, Lawyers Collective

Supporters: VSO-India, APCASO

Chair: Ms. Ann Lee, *Trustee Asia Pacific Council of AIDS Service Organizations (APCASO), Kuala Lumpur, Malaysia*

The objectives of the session are:

- To share with the international communities about the progress and challenges in enacting HIV-related anti-discrimination law in India
- To learn from the experiences of countries such as Philippines, China, Malaysia and Indonesia in bringing forth an HIV-related anti-discrimination law

Speakers:

Mr. Anand Grover & Mr. Raman Chawla, *Lawyers Collective, India*

From Discrimination to Protection: HIV Law in India

A Comparative study on AIDS Law in Malaysia and Indonesia

Ms. Hanim Hamzah, *Roosdiono & Partners, Indonesia*

Panel discussion

17:45 - 19:15 Room B (Orchid)

TuSM16 Solidarity for Success: Civil Society Participation in Achieving Universal Access in Viet Nam

The Joint United Nations Programme on HIV/AIDS (UNAIDS)

Chair and Co Chairs: Madam Ha Thi Khiat, (*Chair of the Commission for People's Mobilization*), Dr Nguyen Thanh Long, (*Director of the Viet Nam Administration for AIDS Control*), Eamonn Murphy, (*UNAIDS Country Director, Viet Nam*)

This satellite will show how Viet Nam is organizing itself to achieve the universal access goals of HIV prevention, treatment, care and support. The session will:

- Present an overview of the response to HIV in Viet Nam focusing specifically on how Government and civil society work together.
- Share experiences of innovative and dynamic civil society initiatives showing, in particular, how PLHIV have been organising themselves to participate in decision-making.

Speakers:

Madam Ha Thi Khiat, (*Chair of the Commission for People's Mobilization*), will introduce the session and welcome participants

Dr Nguyen Thanh Long, (*Director General of the Viet Nam Administration for AIDS Control*), will provide an overview of the nature of the HIV epidemic in Viet Nam (know your epidemic), an update on the response to HIV in Viet Nam and of Viet Nam's progress in achieving the universal access goals.

Nguyen Thi Hoa Binh, (*Director of the Women, AIDS and Reproductive Health Centre, Viet Nam Women's Union*), will provide a history of civil society involvement in the response, including the Greater Involvement of People Living with HIV (GIPA).

Pham Quoc Hung, (*Co-chair of the National Network of PLHIV, Viet Nam - VNP+*), will outline the important role of self-help groups in supporting the national response. VNP+ is also representing People Living with HIV on the Global Fund Country Coordination Mechanism and is involved in the UNGASS reporting process.

Vuong Thi Huong Thu, (*Family Health International*), will present a case study of the response to HIV at provincial level in Viet Nam and of how civil society supports the response at provincial level including through support to the methadone pilot programme in Hai Phong Province.

The session will also include:

- A 40 minute panel discussion
- A performance from an IEC dance troupe, the Vu Tay performers
- Multimedia presentations

17:45 - 19:15 Room 6 (Frangipani)

TuSM17 Responding to HIV in Timor Leste

University of New South Wales (UNSW)

Chair: Heather Worth, (*International HIV Research Group (IHRG) at the University of New South Wales (UNSW)*)

The satellite session is to showcase the effective partnerships between research institutions, governments, NGOs and civil society in responding to HIV in Timor Leste. The results of the recent Behavioural Surveillance Survey (BSS) conducted amongst populations considered most at risk for HIV in Timor Leste will be disseminated, in conjunction with the launch of reports outlining the key findings of the BSS.

Speakers:

Narciso Fernandes, (*Timor Leste Ministry of Health*),

Introduction to epidemiology of HIV in Timor Leste and outlining the strategic plan for HIV

Joaninha Pereira, (*Cruz Vermelha de Timor Leste - CVTL*),

Overview of CVTL's HIV program in Timor Leste

Michael Johansson, (*Catholic Relief Service - CRS*),

Overview of CRS's HIV program in Timor Leste

Agua Belo Ximenes, (*Fundassaun Timor Hari - FTH*),

Overview of FTH's HIV program in Timor Leste

Patrick Rawstorne, (*National Centre for HIV Social Research - NCHSR; at the University of New South Wales: overview of Behavioural Surveillance Surveys - BSS*)

Dores Vilanova, (*Timor Leste Ministry of Health*),

Behavioural Surveillance Survey. Summary of first round results for uniformed personnel

Paulino Gonzaga, (*Timor Leste Ministry of Health*),

Behavioural Surveillance Survey. Summary of first round results for female sex workers

Jason Lee, (*International HIV Research Group - IHRG; at the University of New South Wales - UNSW*)

Behavioural Surveillance Survey. Summary of first round results for men who have sex with men (MSM)

Refreshments provided

17.45 - 19.15 Room 5 (Hiliris)

TuSM18 HIV Infection among MSM In Developed East and South-East-Asia

Action For AIDS Singapore (AFA)

Chair: Prof Roy Chan, *Action for AIDS*

1. Epidemiology of MSM infection in their country/territory; preferably with sero-prevalence data
2. MSM Education and Prevention Programs at country level
3. The impact of lifestyles on HIV infection and prevention – e.g. the Internet, sex venues, use of recreational drugs, circuit parties, sex tourism

Panel discussion: "strategic steps forward as a region to tackle these new challenges"

Speakers:

Mr Paul Toh, *(Singapore – Action for AIDS)*

Mr Raymond Yong, *(Malaysia- PT Foundation)*

Ms Winnie Tay, *(Hong Kong SAR), AIDS Concern*

Dr. Nai-Yin Ko, *(Taiwan- National Yang-Ming University Taipei, Taiwan), AIDS Prevention and Research Center*

Mr Tetsuro Onitsuka, *(Japan – MASH Osaka)*

Mr Rapeepun Jommaroeng (OHM), *(Thailand –HIV Focal Point, Regional MSM and HIV Project, UNESCO)*

Mr Chung To, *(China PRC –Chi Heng Foundation)*

17.45 - 19.15 Room 4 (Medan)

TuSM19 UNGASS & Community: Civil Society Involvement in UNGASS on AIDS

7 Sisters, World AIDS Campaign, The Joint United Nations on HIV/AIDS (UNAIDS), GESTOS

- To facilitate sharing experiences between civil society groups in countries.
- To evaluate previous experience and identify what is working and what is not working in civil society advocacy for UNGASS & Universal Access
- To strategize regional civil society advocacy effort for UNGASS review 2010
- To update information related to UNGASS on AIDS, Universal Access and High Level meeting 2010

Speakers:

Aditya Wardhana, *(UNGASS Forum Indonesia)*

The progress of UNGASS Reporting & Civil Society in Indonesia

Greg Gray, *(World AIDS Campaign), Global Update on UNGASS Review*

Vince Crisostomo, *(7 Sisters), Regional strategic plan and coordination*

17.45 - 19.15 Room 1 (Nusantara 1)

TuSM20 Actor - Power Mapping in Organizing Women to HIV Response

Lack of women involvement and empowerment in HIV issues in every level of person involved (decision and policy makers, program implementers) is also produces policies and system (health system specially) which doesn't give any benefit to women side. That's why it is important to identify the role and leadership (organizational) potential of the women, also to map and organize them to bring effective gender equality strategy in HIV into realization.

Speakers:

Frika Chia, *(APN+)*

Anandi Yuvaraj, *(ICW)*

Debra Yatim,

Masruchah, *(KPI)*

17.45 - 19.15 Nusantara 2

TuSM21 Community Mobilization to Combat HIV and AIDS in Indonesia

Indonesia National AIDS Commission (NAC)

Chair: Mr. Halik Sidik

Co Chair: Mrs. Rohanna Manggala

This session will discuss key points on engaging Most-at-Risk-Population networks in the fight against HIV/AIDS, roles of local leadership, and communications strategy for promoting community understanding and mobilizing support.

Speakers:

M. Yvonne Sibuea /PKNI

Engaging MARP networks in the fight against HIV/AIDS

KPA Kab. Malang**

Local leadership and broadening the support base for programs for high risk population in Malang ,East Java

Dr. Leo Sutarman

Successful community mobilization effort in Tanjung Pinang district

Karen Smith

Community mobilization in low level generalized epidemic

Discussant: Mrs. Anggia R Marini/Interfaith (Informal confirmed)

Rapporteur: Mr Setyo Warsono

17.45 - 19.15 Nusantara 3

TuSM22 Scaling Up Prevention Program of Sexually Transmitted HIV

Indonesia National AIDS Commission (NAC)

Chair: Dr. Emil Agustiono (TBC)
Co Chair: Dr Maya Triswati (PAC DKI) (TBC)

Like most HIV epidemic in Asia, the infection in Indonesia especially among sex work is induced by the increased of HIV among IDUs. The remaining low condom use and high STI prevalence are main reasons to intensify the prevention program of sexually transmitted HIV in Indonesia. This session will discuss the issues and challenges to scaling up the program.

Speakers:

Dr Gerald Belimac, *National Coordinator STI MOH Philippine*
National strategic of preventing sexual transmission in Philippine

Dr Fonny J Silvanus, *Deputy Program NAC Indonesia*
Comprehensive intervention for FSW

Dr Tri Indarti, *HDO Kota Denpasar*
Screening and treatment of STI

Khartini (South East Asia)**(TBC)
Comprehensive intervention of sexually transmitted HIV infection among female sex worker

17.45 - 19.15 Auditorium

TuSM23 Deal Makers and Breakers: Learning from HIV/AIDS Networking and Partnership Building Initiatives

Asia Pacific Council of AIDS Service Organizations (APCASO), Australian Federation of AIDS Organisations (AFAO), GAYa NUSANTARA, Sampada Grameen Mahila Sanstha (SANGRAM), Strategies from the South

Partnerships could make HIV/AIDS work much more meaningful and effective but they are neither easy to establish nor keep. What are alliance makers? What are network-building breakers? These—the beauty and pitfalls of partnerships—are what the satellite would try to discuss. Specifically, the satellite would aim to:

1. Share lessons from APCASO and other HIV/AIDS organisations and networks' partnership building initiative
2. Engage participants in an honest discussion of partnership issues
3. Have participants come to a joint agreement on basic ingredients/designs for successful or doomed partnerships

Speakers:

David Traynor, *International Program Manager, Australian Federation of AIDS Service Organizations (AFAO)*

Dédé Oetomo, *Founder of the GAYa NUSANTARA Foundation and Coordinator of the Indonesian HIV/AIDS Community Advocacy Network*

Mabel Bianco, *President of the International AIDS Women's Caucus (IAWC) & General Coordinator of Strategies from the South*

Meena Seshu, *Executive Director of SANGRAM & Asia Pacific Regional Co-coordinator of Strategies from the South*

Rodelyn Marte, *Programme Manager for the Community Advocacy Initiative (CAI) of APCASO & Asia Pacific Regional Co-coordinator of Strategies from the South*

Vieng Suoriyo, *Executive Director, Laos Youth Action Program (LYAP)*

17.45 - 19.15 Kertagosa - Nusa Dua Hotel

TuSM24 Making Empowerment Real: Using Community-Led Approaches to Strengthen Evidence Base on Interventions for Female, Male and Transgender Sex Workers

The Joint United Nations Programme on HIV/AIDS (UNAIDS)

Chair: Jacques Jeugmans, *Asian Development Bank (ADB)*
Co Chair: Aurorita Mendoza, *UNAIDS Regional Support Team*

The satellite will focus on the involvement of sex workers in adapting programme design and implementation approaches in their particular context. The satellite will present basic processes in intervention planning, with a focus on three areas:

- Access to the sex worker community and broad mapping
- Estimation methods (enumeration techniques)
- Network-based outreach

The satellite will feature an interactive component with the audience through small discussion groups where samples of tools that have been adapted for the use of sex worker communities will be shared. The contextual factors in using these tools will also be discussed.

Speakers:

Dr. Sushena Reza-Paul, *(Community Health Sciences, University of Manitoba, Canada)*
Value added of community-led approaches in strengthening evidence base

Manjula Ramaiah, *(Ashodaya Academy, India)*

Akram Pasha Anwar, *(Ashodaya Academy, India)*

- Exploring the community: Mapping and enumeration methods
- Mobilizing the community: Network-based outreach and programme monitoring

Facilitator: Dr. Sushena Reza-Paul, *Director, DISHA Project, Mysore, India*

SKILLS BUILDING PROGRAMME

10.45 - 12.15 Bandung

TuSB21 Empowering Migrants and Other Marginalized Communities Against HIV and AIDS Through Participatory

Generally, the workshop aims to enhance knowledge and skills of participants in utilizing participatory action research as a tool to empower migrants and other marginalized communities against HIV and AIDS. The workshop has two specific objectives: 1. To teach participants the basics of participatory action research and its principles, and 2. To develop strategies on how to substantially involve communities in the conduct of participatory action research.

Amara Tadaoan Quesada

10.45 - 12.15 Surabaya

TuSB45 Behaviour Change Communication (BCC) in the Workplace

- 1 To familiarize participants with BCC workplace programmes, including with the ILO/FHI BCC Toolkit
- 2 To strengthen participants' skills to develop HIV/AIDS BCC programmes for the workplace.
- 3 To enhance participants' skills to develop BCC materials for use in workplace programmes.

This workshop will be useful for implementers of workplace programmes. This will include a wide range of representatives from public and private companies, trade unions, civil society organizations and National AIDS programmes.

Josée Laporte

10.45 - 12.15 Kertagosa - Nusa Dua Hotel

TuSB51 Understanding and Applying Community Mobilisation

Community mobilisation is one of the most poorly understood concepts in HIV/AIDS programs. However, it is one of the most vital devices to support communities to respond effectively. This workshop's objectives are to develop accurate understandings about this concept and to increase participants' capacity to identify and practically apply community mobilisation strategies in a range of programs.

Stephen Scott

10.45 - 12.15 Keraton - Nusa Dua Hotel

TuSB22 Managing Short Term Technical Support Effectively

Description of content: Organizations sometimes need short term technical support (STTS) for different reasons. It should not be viewed as a weakness or failure when they need to seek STTS. However, it is very important to manage the STTS effectively so that the whole process goes well and the recommendations are followed up accordingly and finally get the expected impact out of the STTS. The contents of the workshop are essential knowledge and skills in managing STTA in key steps.

Objective:

The workshop is to build the capacity of the STTS managers in following four major steps of STTS management. Power point presentations and group discussions will be made to achieve the outcome.

Step 1. Preparing (focus on deciding on when and for what the organization needs STTS, planning for it and developing quality ToR for the assignment)

Step 2. Matching the assignment with a consultant (focus on how to select an appropriate consultant and preparing a contract)

Step 3. Managing Assignment (focus on necessary preparatory work before consultant arrive and monitoring through out the assignment)

Step 4. Reviewing output and implications for the way forward (focus on how the organization ensures recommendations are followed up accordingly)

Expected Outcome: Participants will gain essential skills to manage STTS

Soe Naing

14.15 - 15.45 Bandung

TuSB23 Crisis Management: Equipping & Operating a System Managed by High Risk Groups to Address Violence

A community led management system for understanding, reporting, and responding on an ongoing basis to violence perpetrated against high risk groups will be shown. The skills and resources of a crisis intervention system will be presented, with practical advice on addressing challenges, and measuring results. Approaches will be introduced for facilitating marginalized communities to report violence; to gain legal literacy and resolve issues with police, families, clients, and others responsible for abuse and violence.

Tisha Wheeler

14.15 - 15.45 Surabaya

TuSB24 Dream-Building and Self-Assessment to Stimulate Local Ownership of the Response to HIV

The AIDS Competence Process, a competence building approach with successful results, helps communities to identify own strengths to respond to HIV/AIDS. An appreciative way of analyzing self-awareness and thinking collectively to build sustainable skills are at the core of the approach.

Objectives :

- 1 Share how facilitators can stimulate communities to take the response to HIV in their own hands, using the AIDS Competence Process.
- 2 Learn and build skills on the tools of AIDS Competence process

Method :

Facilitators will use interactive methods to share steps of the AIDS Competence Process, using practical exercises and group reflections. For effectiveness we propose two adjacent sessions of 90 minutes.

Two internationally experienced coaches from the Constellation for AIDS Competence (Sirinate Piyajitpirat and Risya Kori) would facilitate the session with Rebeka Sultana from UNFPA Indonesia.

UNFPA Indonesia will sponsor the session.

Risya Ariyani Kori

14.15 - 15.45 Kertagosa - Nusa Dua Hotel

TuSB25 Advocacy Campaigning Skills Building to Address HCV/HIV Co-Infection in Asia & the Pacific

To raise awareness of community treatment activists and community advocates to integrate HCV into community advocacy agenda and AIDS response at every level Expected Outcome(skills) : Identification of issues faced at country level regarding HCV campaign & integration to AIDS response, followed by revision of regional advocacy agenda and implementation of those agenda at the local and country level. Confirmation of needs on establishing regional campaign network on HCV.

Skand Amatya

14.15 - 15.45 Keraton - Nusa Dua Hotel

TuSB26 Measuring the Steps: Using the Pacific Stepping Stones Monitoring and Evaluation Toolkit

- Introduce the Pacific Stepping Stones (SS); Monitoring and Evaluation (M&E) Toolkit
- Provide an opportunity to practice using the M&E tools included
- Share lessons and experiences of SS implementation from across the Asia-Pacific region

Robyn Drysdale

16.00 - 17.30 Bandung

TuSB27 Personal Risk Assessment Framework Training in Peer Education Facilitator Training for MSM in Australia

- Introduce Personal Risk Assessment Framework Training (PRAFT).
- Demonstrate its application in diverse settings and target populations
- Discuss train-the-trainer approaches and implications for its roll-out

Asvin Phorunggam

16.00 - 17.30 Surabaya

TuSB28 Building Skill in Assessing and Designing Programme for HIV Vulnerabilities after a Natural Disaster

Study by Oxfam and Swasti in the Tsunami hit districts of Southern India showed an increased vulnerability to HIV following Tsunami. The findings of this study led to preparation of a guide containing ten toolkits to mainstream HIV following a natural disaster. These tools provide guidance on assessment of vulnerability as well as designing HIV prevention programmes following a natural disaster.

Kalathiparambil Joseph Julian George

16.00 - 17.30 Kertajaya - Nusa Dua Hotel

TuSB46 Reducing MSM's Risky Sexual Behaviours by Coping with Minority Stress

There are multi-factors contributing to MSM's risky sexual behaviours. Minority stress is proven to be a major one. This workshop aims at facilitating the participants to:

- 1 Enhance their awareness of the relationship between MSM's risky sexual behaviours and minority stress;
- 2 Adopt a group intervention approach to enhance the skill and capacity of MSM in coping with minority stress; and
- 3 Heed cultural specificity when dealing with minority stress.

LEE Man Wai, Barry

16.00 - 17.30 Keraton - Nusa Dua Hotel

TuSB47 Using Interactive Theatre and Games in HIV/STI Education for MSM

The audiences (especially man who have sex with men - MSM) are not interested in the traditional ways of communication (lecturing and condom fashion show). Applying the relevant and attractive methods help to involve the target audiences in making health and HIV prevention messages

Objectives :

Aimed to help the MSM to be more involved in the discussion and experiences sharing on HIV/STI prevention, the CIHP support the health educators of Light House club (for MSM in Hanoi) in applying interactive theatre and games in communication with MSM and community

WeSY16 Public and Private Partnerships in Tackling HIV and AIDS in the ASEAN Region

ASEAN SECRETARIAT, The Joint United Nations of HIV/AIDS (UNAIDS)
Chair: Dr. Lyn James, *(Chair of ASEAN Task Force on AIDS-ATFOA)*

ASEAN has recognised the threat of HIV to the Southeast Asia Region. Initiated by the establishment of ASEAN Task Force on AIDS (ATFOA), ASEAN have implemented various measures to curb the impact of the epidemic in the region by bringing together different entities, including People Living with HIV (PLHIV), Civil Society Organisations, Dialogue Partners and Partner Organisations to work together. The symposium aims to support the 9th ICAAP Theme by focusing on strengthening network between the public and private sectors at national and regional level and by empowering the voice of vulnerable groups of peoples who will be invited to speak at the symposium

Mr. Alan Boulton (ILO), *(Director of the ILO Jakarta)*

WeSY18 Practical Approaches to Working with Communities to Strengthen Their Responses to HIV in the Pacific

The Joint United Nations Programme on HIV/AIDS (UNAIDS)

Chair: Lady Roslyn Morauta, *president of PNG Alliance of Civil Organisation Against HIV/AIDS (PACSO)*

- Provide practical examples of how to effectively engage with communities in HIV responses, including those which address gender inequalities
- Examine how the barriers to universal access due to stigma and discrimination can be removed
- Explore the understanding of GIPA in the Pacific and how the meaningful involvement of people living with HIV can improve our HIV programmes

WeSY20 Addressing Legal Barriers to Service and Criminalization of Most at Risk Population

The Joint United Nations Programme on HIV/AIDS (UNAIDS)

Chairs: Kyung-wha Kang, *Deputy High Commissioner for Human Rights (TBC)*
Anand Grover, *Lawyer's Collective* – will introduce the session and provide an overview of the regional profile on criminalization of most-at-risk populations (TBC).

This session seeks to:

1. To gain a common understanding and clarity on the legal barriers to services and criminalization of risky behaviors
2. To explore the implications of legal barriers and criminalization on HIV prevention efforts
3. To identify the roles of different partners in addressing legal barriers and criminalization

Sapana Malla, *Senior Advocate/Parliamentarian*
Implications of legal measures and criminalization, particularly the impact on women (TBC)

WeSY19 Capacity Building: Rhetoric and Reality

HIV Consortium

'Capacity Building' is a term that is increasingly used in the international development field. It can have different meaning to different people and the way in which it is implemented can vary. This symposium will explore capacity building from a range of perspectives and reflect on the positive and negative aspects of capacity building programs. Themes to be explored include:

- Terminology: What does 'capacity building' mean to various partners?
- How does capacity building translate within different contexts, populations and affected groups?
- Partnership: a unique form of capacity building.
- How does capacity building and partnerships translate for small organizations?
- What are the challenges and benefits of capacity building programs?

Dr Nafsiah Mboi, *Indonesian National AIDS Commission (NAC) Secretary*

Dr David Wilson, *Curtin University of Technology and The World Bank Lead Health Specialist*

Myo Kyaw Lynn, *Myanmar Drug Users Network*

Dr Tamara Kwarteng, *Burnet Institute Pacific Regional Director*

Moi Lee Liow, *APCASO Executive Director*

Elden Chamberlain, *International HIV/AIDS Alliance Asia Regional Representative*

14.15 - 15.45 Nusantara 3

WeSY21 The Impact of the Financial Crisis on People Living with HIV and Their Households: Whose Burden to Bear?

United Nations Development Programme (UNDP), Asian Development Bank (ADB), The Joint United Nations of HIV/AIDS (UNAIDS), World Bank

Chair: Michel Kazatchkine, *Executive Director GFATM*
Co Chair: Jeffrey O'Malley, *Director, HIV/AIDS Practice, UNDP*

Available evidence from the region and elsewhere indicates that the current global economic crisis is likely to have a significant impact on people living with HIV and their households. The loss of jobs, particularly in export and labour intensive sectors, and cutbacks in AIDS funding will have serious short term and long term impact on the health and wellbeing of people living with HIV. At the macro level, key prevention aspects of the national AIDS programmes and long term ART commitments are likely to be compromised by the sudden shortfalls in resources. Thousands of people could be pushed out of treatment and already vulnerable HIV households could be subjected to additional stress. The symposium will present and discuss emerging evidence on the issue from key studies of WB, ADB and UNDP, and provide government and PLHIV perspectives.

Hon. Marie Elka Pangestu, *Minister of Trade, Indonesia (TBC)*

WeSY22 The Impact of the Financial Crisis on Labour Migration and HIV

United Nations Development Programme (UNDP), International Labour Organization (ILO), Joint United Nations Initiative on Mobility and HIV/AIDS in South East Asia (JUNIMA), Joint United Nations Programme on HIV/AIDS (UNAIDS)

Chair: H.E. Erman Suparno, *Minister of Manpower and Transmigration*

Co Chair: Dr. Nafsiah Mboi, SpA, MPH, *National AIDS Commission (NAC) Secretary*

In the midst of the current financial and economic crisis there are likely to be both direct and indirect consequences for migrant labor supply and demand. A two-way increase is expected in the movement of people: overseas migrants returning home after losing their jobs, or those recently laid off at home moving overseas in search of work. As some countries may take increasingly protectionist stances, the options for formal migration may narrow. Migrants abroad may also face increasingly difficult conditions, with fewer employment opportunities and may encounter greater discrimination and stigmatization. Of particular concern, is the likely impact on the lives and jobs of millions of documented and undocumented migrant workers in the region, and their access to health services.

Dr. Sophia Kisting, *Director ILO/AIDS*

WeSY23 Faith in Action towards Universal Access

The Joint United Nations Programme on HIV/AIDS (UNAIDS)

Chair: Mr. Nasruddin, *Director General of the Ministry of Religious Affairs, Indonesia*

Stigma and discrimination have been identified as major barriers to universal access in the region. They impede prevention efforts by excluding most at risk communities from services, make easy access and use of prevention commodities difficult, delay testing and disclosure of HIV status, and make treatment and care risky. Religion and cultural beliefs and practices are often the source of the values that underlie stigma, and can therefore be a way to overcome these barriers. Often, it is a particular interpretation of religious writings/teaching and simultaneously there are opportunities for greater acceptance and positive approaches within the same religion.

This session seeks to bring together the 4 major faiths in the region- Islam, Christianity, Hinduism and Buddhism to:

- To identify specific niches in each faith which provide the space for acceptance of MARPS with respect and dignity
- To share experiences of how faith-based organizations/leaders have addressed attitudinal and cultural barriers and promoted prevention, treatment, care and support.

Hinduism:
Sri Ravi Shankar, *Art of Living India* (TBC)
Swami Agnivesh (TBC)

Islam:
Dr Mohammad Iqbal Khalil, *Inter-Religious Council for Health' (IRCH) form the North West Frontier Province, Pakistan*

Christian:

WeSY24 Viagra vs. Condoms: Unequal Footing in Technology of Sex and Sexuality

The Institute for Population and Social Research, Mahidol University, the Southeast Asian Consortium on Gender, Sexuality, and Health, and Sexuality Policy Watch and ICAAP 9 Local Organizing Committee

Chair: Dr. Rosalia Sciortino, *Institute for Population and Social Research, Mahidol University, Thailand*

The juxtaposition of "Condom" and "Viagra" in the title of the proposed session is to indicate that there are different perceptions and values centering on the various types of sex-related products in the market. Whereas there is still a great hesitancy in Asia to discuss openly and promote condoms for safe sex, Viagra has been aggressively promoted in the media and marketed widely in the region, for objectives well-beyond its prescribed purposes, without facing any 'moral' or political objection. How can this difference in societal acceptance be explained, considering that both products focus on male sexuality, and could thus be considered equally 'sensitive' (or not 'sensitive')?

Dr. Michael Tan, *Faculty of Social Sciences and Philosophy, University of the Philippines, the Philippines*

Dr. Jayashree Ramakrishna, *Department of Mental Health Education, National Institute of Mental Health and Neuro Sciences, India*

Prof. Irwanto, *Atmajaya University, Indonesia*

SATELLITE MEETINGS

12.30 14.00 Room 2 (Jakarta A)

WeSMO1 General Meeting Room

12.30 14.00 Room 3 (Jakarta B)

WeSMO2 Parliamentary Action Post-ICAAP 8: the Way Forward

Parliamentarians for Global Action (PGA)

Chair: Shazia Rafi

The goal of the meeting is to highlight successes and challenges faced by parliamentarians when dealing with the issue of HIV from a governmental perspective. The regionally balanced panel will help to show some of where the South Asian countries share similarities and also differences concerning legislation. There will also be a presentation representing the viewpoint from a donor country outlining the concerns and commitments from their end in the issue of HIV, especially in concerning the Asia-Pacific Region.

Speakers:

Welcome Note/Introduction:

Ms. Marie Norden, MP, (Sweden – PGA Executive Committee Member)
Dr. Nafis Sadik, (Envoy of the UN Secretary General for HIV and AIDS in Asia and the Pacific)

Panelists/Speakers:

Hon. Nimal Siripala De Silva, (Federal Health Minister of Sri Lanka)
Hon. Oscar Fernandes, MP (India, Convenor, Parliamentarians Forum on AIDS, Former Union Minister for Labour)
Ms. Sapana Pradhan Malla, MP (Nepal)
Bangladesh MP TBD
Dr. Donya Aziz, MP, (Pakistan – PGA Executive Committee Member) National Perspective
Pakistan Provincial Perspective – MPA TBD

Conclusion:

Hon. Navdeep Qamar, MP, (Pakistan – Federal Minister for Privatisation and investment, PGA Executive Committee Member)

12.30 - 14.00 Room 7 (Bougainville)

WeSMO3 A Borderless Response to the Prevention of HIV Transmission

International Planned Parenthood Federation (IPPF)

Chair: Dr. Raj Karim, (Regional Director, International Planned Parenthood Federation, East & Southeast Asia and Oceania Region)

Intra and inter-country population movements [e.g. internal migration from rural to urban areas, refugees, overseas workers, IDPs] are now common given the social, political, and economic climate of the world. Various factors make it challenging to mobilize HIV prevention and containment efforts among these groups.

Current methods and programs being employed to address the issue will be critically evaluated in order to identify strategies to increase access to SRH and HIV services for vulnerable mobile populations. This session will also analyze the role of advocacy in supporting the inclusion of these groups in interventions and national responses to the prevention, treatment, care, and support for HIV.

12.30 - 14.00 Room 8 (Orchid)

WeSMO4 Reaching Clients of Sex Workers Through Workplace Interventions

International Labour Organization (ILO)

Chair: Alan Boulton, Director, ILO Office for Indonesia and Timor-Leste
The Importance of Workplace Program in Asia

To reach the drivers of concentrated and low prevalence epidemics in Asia and the Pacific, it is critical to target those groups that are most at risk of acquiring HIV and most affected by the epidemic. Most-at-risk populations in Asia and the Pacific include men who have sex with men, IDUs, sex workers and their clients. Significant scale-up of targeted interventions geared to the clients of sex workers is needed to respond to prevention needs in Asia and the Pacific. HIV workplace programming is an effective, yet underutilized, means of reaching clients of sex workers that yields measurable prevention outcomes. This session will feature best practices from ILO workplace programming targeting mobile construction workers in India and China, and will provide a platform for other UN and non-UN organizations to share their experiences.

Speakers:

Asfar Syed Mohamed, ILO Sub-regional Office for South Asia

Targeting FSW Clients in the Workplace: An Evidence Base for a Sectoral Approach

Kelwyn Brown, Asian Development Bank (ADB), Papua New Guinea

A Sexual Health Approach to Reduce Risk Behaviors in the Agricultural and Extractive Industries in Papua New Guinea

Asif Altaf, International Transport Workers' Federation (ITF)

Reducing Risk Behaviors among Transport Workers: The Role of Trade Unions

Richard Howard, ILO Office for China and Mongolia, China

Delivering Prevention and Care to Vulnerable Mine Workers in China

Collaborative Approaches for Female Sex Workers and their Clients - TBC

12.30 - 14.00 Room 6 (Frangipani)

WeSMO5 Leadership Initiatives for IDU Harm Reduction: Issues and Challenges

Indonesia National AIDS Commission (NAC)

Chair: Mr. Christian Kroll ** (TBC)

Co Chair: Ms Ingrid Irawati A

HIV epidemic in many parts in Asia and Indonesia triggered by HIV transmission through injecting drug use. National policy of harm reduction to cope with this situation has been developed, however constraints occurred during the implementation. This session will discuss the important roles of leadership initiatives to transfer the policy into action.

Speakers:

Mr Andi Heri Iskandar, Former Major of Makassar

Scaling up IDU harm reduction in Makassar

Dr Dien Ermawati / Head of PHO DKI Jakarta

Budget policy for IDU harm reduction in Jakarta

Tariq Zafar / Pakistan**

Community organizing among IDU for social movement

Surahman / Afghanistan** [confirmed informal]**

Scaling up IDU Harm reduction in Afghanistan

Discussant: Mr Inang Winarso/ Sekar Wulan ** (TBC)

Rapporteur: Mrs. Amala Rahmah

12.30 - 14.00 Room 5 (Hibiscus)

WeSMO6 Ministries of Public Works and Transport - Key Partners for HIV Prevention in the Infrastructure Sector

Asian Development Bank (ADB)

This satellite session will showcase how the ministries of public works and transport in Cambodia, Lao PDR and Viet Nam have developed HIV/AIDS strategy and action plans for the infrastructure sector. Government representatives from the infrastructure and transport sectors will share their experiences, lessons, and recommendations. Asian Development Bank (ADB) will also present a joint initiative of GMS development partners in developing practice guidelines for harmonizing HIV prevention initiatives in the infrastructure sector, in support of national HIV/AIDS strategies.

Speakers:

Ministry of Public Works and Transport (Cambodia):

- His Excellency Lim Sidenine, Secretary of State and Chairman of the Ministerial AIDS Committee
- Mr. Seng Setha, Deputy Director General of the Planning and Administration Department and Vice-Chairman of the Ministerial AIDS Committee

Ministry of Public Works and Transport (Lao PDR):

- Mr. Khangeun Khamvongsa, Deputy Permanent Secretary and Chair of the Committee on HIV/AIDS Prevention
- Mr. Xayabandith Insiengmay, Deputy Director of the Environment and Social Division

Ministry of Transport (Viet Nam):

• to be determined

WeSM07 aids2031: A Special Look at the Countries in Rapid Transition in Asia

The Joint United Nations Programme on HIV/AIDS (UNAIDS)

Chair: JVR Prasada Rao, *Regional Director, UNAIDS RSTAP*

aids2031 is a multi-disciplinary, global initiative that is influencing the long-term response to the AIDS pandemic. For nearly two years, the Working Group on Countries in Rapid Transition (WGCRT), co-convened by UNAIDS and Myung Cho, has been investigating the impact of rapidly changing context in the Six Asian Countries (China, India, Indonesia, Malaysia, Thailand and Vietnam) on to HIV spread and response. The Working Group has now drafted a report outlining the key emerging trends due to the transitions taking place in these countries, impact on the future of AIDS in Asia and developed recommendations for a long-term sustained response to AIDS based on those investigations. The session includes presentation on some of the emerging global scenarios and trends related to financing as well as structural issues and its relevance to Asia and the Pacific as well as share and discuss the key emerging issues in Asia, particularly on the role of new emerging drugs and the use of Information Communication Technologies on HIV spread and response. The report of the WGCRT will be also launched during this event highlighting some of the key findings and recommendations of the study.

Speakers:

Dr. Geeta Rao Gupta, *President of the International Center for Research on Women and Co-Convenor of aids2031 Social Drivers Working Group*

Presentation title: TBC. The presentation will present the findings and recommendations from the Social Drivers Working Group of aids2031 initiative.

Ms. Farzana Muhib, *Results for Development (R4D) Institute*

Presentation title (TBC). The presentation will highlight the findings of the Costing and Financing WG in relation to the resource needs estimates, and the impact of the different scenarios that were modeled. She will also discuss the outlook for domestic and donor resource mobilization including on its implications for Asia and low/concentrated epidemics.

Dr. Jing Jun, *Associate Director of the Comprehensive AIDS Research Center in Tsinghua University in Beijing, China*

New Drugs, New Wave: The emerging drug issues in Asia and the potential impact on HIV epidemic. Focusing on the six rapid transition countries in Asia, the presentation will focus on discussing the emerging drug-market, particularly pleasure-enhancing drugs and its potential impact on HIV epidemic.

Mr. James Chau, *UNAIDS National Goodwill Ambassador for China and a Television Presenter for China Central Television CCTV-9*

Information Communication Technology, social change and the young people in Asia. The presentation will focus on discussing the booming of information communication technology, the changing social values and norms and its influence and impact on young people's life-style, sexual networking and behaviors. The presentation will also explore the both opportunities and challenges in using ICT to address some of these issues in context of HIV prevention among Asia's New Youth.

Launch of WGCRT: Made Mangku Pastika, *Governor of Bali* – TBC

Wrap-up and closing: Myung Cho, *(Cho-chair WGCRT)*

12.30 - 14.00

Room 1 (Nusantara 1)

WeSM08 Innovative Partnerships Between the Global Fund and Private Sector: Engagement to Increasing Capacity to Implement Programs at Country Level

The Global Fund to Fight AIDS, Tuberculosis and Malaria

Chair: Christoph Benn, *Director of External Relations and Partnerships at the Global Fund*

The objective of this session is to highlight good practices and discuss challenges of private sector engagement to increase capacity at the country level. Whilst remaining primarily a financing institution, the Global Fund encourages the private sector to engage in all aspects of its work ranging from mobilization of resources, implementation of grants, and provision of commercial services, to public advocacy and good governance. As such, the private sector makes important contributions at global, regional and country levels, leveraging its resources, capacities and networks to strengthen the Global Fund financed programs.

Speakers:

Dr. James Allen, *(Director, Health and Medical Services, Chevron)*

Anthony Pramualratana, *(General Manager, Thailand Business Coalition on AIDS - TBACA)*

Mr. Sushanta Sen, *(Principal Adviser, Confederation of Indian Industry (CII), Confederation of Indian and Executive Director of Friends of Fund South West Asia)*

Bill Bowtell, *(Executive Director of Pacific Friends of the Global Fund)*

12.30 - 14.00

Nusantara 2

WeSM09 Stocktaking on programming for Children Affected by HIV/AIDS in South Asia

The United Nations Children's Fund (UNICEF) - south Asia for South Asia

Chair: Mr. Scott McGill, *Asia Pacific Regional Advisor, Save the Children, USA*
Co Chair: Dr. Priscilla Akwara, *Advisor, Statistics Monitoring and Evaluation, UNICEF, New York Headquarters*

The specific objective of the satellite session is to present the core elements and approaches of the SAARC Regional Strategic Framework. The session will also provide opportunity for stocktaking by sharing practical country level experiences on CABA including M&E for national response since the last ICAAP in Colombo Sri Lanka. Dissemination of this Framework is expected to bring to the attention of policy makers, programme planners and development agencies, a consistent regional approach to programming for CABA

Speakers:

Mr. Hassan Shifau, *(Director Social Affairs, South Asia Association for Regional Cooperation - SAARC Secretariat),*
SAARC Regional Strategic Framework on protection, care and support for Children Affected by HIV/AIDS in South Asia

Ms. Bolina Pradeep, *(Joint Secretary Ministry of Women and Child Development, India),*
Operationalising the SAARC Framework: Policy implication and implementation

Mr. Ratna Kaji Bajracharya, *(Joint Secretary, Ministry of Women Child Welfare, Nepal),*
Country: experience on Children Affected by HIV/AIDS for developing Child Protection Systems

Ms. Rachel Odede, *(Regional Advisor HIV/AIDS, UNICEF South Asia)*
Regional experience in development of Monitoring and Evaluation of National Responses for Children Affected by HIV/AIDS

12.30 - 14.00 Nusantara 3

WeSM10 Donor-NGO Dialogue: Linking HIV and Sexual & Reproductive Health and Rights

Asia Pacific Alliance, United Nations Population Fund (UNFPA)

Chair: Elisha Dunn-Georgiou, *Project Manager, RH/HIV Integration Initiative, Population Action International*

How can donors and NGOs work together to mobilise resources and scale up sexual & reproductive health and HIV services? How can linkages and integration help to optimise resources? Sexual and reproductive health and rights are essential to HIV prevention. The satellite meeting will feature an interactive dialogue on sexual & reproductive health needs in Asia and the Pacific. Participants will have a chance to ask questions and put forward ideas. The meeting will present upcoming priorities from representatives of the Asian Development Bank, AusAID, the Global Fund to Fight AIDS, Tuberculosis and Malaria, Swedish SIDA, the David and Lucille Packard Foundation and UNFPA. The meeting will include discussion on ways to meet reproductive health supply challenges in Asia and the Pacific, particularly by linking HIV interventions.

Speakers:

Robyn Biti, *(HIV Adviser, AusAID)*

Rikard Elfving, *(HIV Adviser, Asian Development Bank)*

Chaiyos Kanunusont, *(Technical Adviser on HIV and AIDS, UNFPA Asia Pacific Regional Office)*

Tomas Lundstrom, *(HIV Specialist, Sida)*

Sonal Mehta, *(Director of Policy & Programmes, India HIV/AIDS Alliance)*

Anurita Bains, *(Senior Adviser, the Global Fund to Fight AIDS, Tuberculosis and Malaria)*

Micheal Tan, *(Country Adviser-Philippines, the David and Lucille Packard Foundation)*

Noruko Horibe, *(Regional Director, UNFPA Asia Pacific Regional Office)*

12.30 - 14.00 Kertagosa Nusa Dua Hotel

WeSM11 Incorporating Harm Reduction Strategies within the Existing Social, Cultural and Religious Frameworks

Malaysian AIDS Council (MAC)

Statistics as at 31 Dec 2006 show that out of 76,000 HIV cases in Malaysia, 59,000 are IDUs, many due to the use of contaminated needles. Plans for harm reduction program in Malaysia prior to 2005 and even after have always been contentious as methods such as condom distribution, needle exchange, and Methadone maintenance therapy are often perceived as contradicting the Malaysian culture. Despite this, in 2006, the Malaysian government embarked on harm reduction initiatives by funding programs to provide clean needles and condoms to IDUs in three major cities. Favourable evaluation results after the initial pilot of two years saw the Ministry of Health Disease Control Unit declare the "Harm Reduction Program" effective. Since February 2006, nine NSEP sites have been established across Malaysia with service provisions through outreach and drop in centres. At the end of the pilot phase, a total of 10,948 IDUs were reached with 769,132 numbers of needles and syringes distributed.

Speakers:

Bakhtiar Talhah

Dr. Mohd Nizar

12.30 - 14.00 Keraton Nusa Dua Hotel

WeSM12 From Africa to Asia: HIV and Women's Inheritance and Property Rights

United Nations Development Programme (UNDP), United Nations Development Fund for Women (UNIFEM), GROOTS Kenya, GROOTS International and the Huairou Commission

Chair: Susana Fried, *(UNDP)*

Co-chair: Anne Stenhammer, *(UNIFEM)*

It is increasingly being acknowledged that addressing structural factors is key to halting and reversing the spread of HIV. One of the emerging though not well understood factors in the rise of HIV among women is the denial of property and inheritance to women. The link between HIV and women's unequal property and inheritance rights need to be better understood. Lack of equal rights for women and girls to property and inheritance exclude women from accessing resources that would help reduce their vulnerability to HIV and improve their ability to cope with the consequences of HIV. This panel will bring together grassroots women and legal practitioners to raise awareness of these issues.

Speakers:

Opening Remarks: Caitlin Wiesen, *(UNDP)*, To Be Confirmed

Susana Fried, *(UNDP)*

Anne Stenhammer, *(UNIFEM)*

advocacy, activism and some of the barriers to effective change

Anand Grover,

existing legal structures and experience with ICAAP Court

Rup Narayan, *(FWLD)*,

What works and what doesn't, specifically in regards to the new confidentiality clause

Esther Mwaura, *(GROOTS Kenya)*,

The African context

Kou Sina, *(Cambodia UPWD)*,

Evictions, land rights and HIV

17.45 - 19.15 Room 2 (Jakarta A)

WeSM13 Addressing TB/HIV: The Critical Role of PWA Activists and HIV Service Providers

Treatment Action Group (TAG) and Medecins Sans Frontieres (MSF)

Objectives:

1. To highlight the impact of TB amongst PLWH/A and why current TB tools are inadequate.
2. To discuss the global TB/HIV policy framework and the role of AIDS programs and PWA activists in reducing impact of TB/HIV
3. To explain what are the 3is (Infection Control, Intensified Case Finding, and Isoniazid Preventive Therapy) and how they can be used to reduce the impact of TB amongst PLWH/As.
4. To highlight specific TB/HIV projects that are implementing the 3is and addressing Multi Drug Resistant (MDR) TB

Speakers:

Adeeba Kamarulzaman, *(University Malaya Medical Center)*,

Why is TB a concern for PWH?

Javid Syed, *(TAG)*,

TB/HIV Policy Overview and a Focus on the 3is and Role of AIDS programs and communities in implementing 3is

Chris Green, *(Spirita Foundation)*,

TB Infection Control

Joanna Ladomirska, *(Medecins Sans Frontieres)*,

Implementing Intensified TB Case Finding and Ambulatory MDR TB treatment in PWH

Colleen Daniels, *(World Health Organization)*,

Isoniazid Preventive Therapy for PWH with latent TB infection

Discussion: TAG and MSF

17.45 - 19.15

Room 3 (Jakarta B)

WeSM14 Encouraging & Enhancing Responsibility, Involvement & Participation of Private Companies During the Economic Crisis

Malaysian AIDS Council (MAC)

In view of the rising cost of treatment which is a major drawback in seeking medical assistance for PLHIVs and those affected, funding from the private sector plays a very crucial role in providing the necessary financial support for both infected and affected individuals. Children, being vulnerable, benefit tremendously from private sponsorship. The Standard Chartered Pediatric Fund launched in July 2008 sponsors infected and affected children up to the age of 12 for three years. In an uncertain economic climate, such assistance will greatly benefit this vulnerable group. The Malaysian AIDS Council has initiated the Malaysian Business Coalition on AIDS (MBCA) and Corporate Social Responsibility (CSR) initiative to promote private sector involvement in dealing with the HIV/AIDS epidemic. Meanwhile it will also be useful for relevant NGOs to implement these measures to sustain HIV/AIDS impact mitigation programs.

Speakers:

Bakhtiar Talhah

Celine Ng

April Layla Joseph

17.45 - 19.15

Room 7 (Bougainville)

WeSM15 HIV Distance Learning in Asia and the Pacific

Australasian Society for HIV Medicine, University of Indonesia, Indonesian Medical Association

Chair and Co-Chair: Professor Samsuridzal Djauzi, Mr Edward Reis

This session will consider a range of approaches and technologies being used to facilitate skills development and support for health care workers where distance and remote location is an issue in national and regional HIV programs.

Speakers:

Prof Samsuridzal Djauzi and Edward Reis, UI/ASHM

Introduction and background to session

Dr Izhar Fihir and Dr Gator Fatwando, UI

Knowledge sharing using video-conferencing system; a lesson learned from University of Indonesia

Dr Fransje van de Waals, Health(e) Foundation

Academic Medical Centre Amsterdam, Health(e) Foundation Results in Blended Learning in Asia

Professor Elizabeth Dax, National Serology Reference Laboratory, Melbourne

Laboratory Quality Assurance System - using mobile phone technology

Question and answer session facilitator: Prof Samsuridzal Djauzi and Edward Reis, UI/ASHM

17.45 - 19.15

Room 8 (Orchid)

WeSM16 Opportunities and Challenges in Addressing HIV Amongst Diverse Humanitarian Populations

United Nations High Commissioner for Refugees (UNHCR), The Joint United Nations Programme on HIV/AIDS (UNAIDS)

Chair: Mr. Tjandra Yoga Aditama, Director General of the (National Agency For Disaster Management, Indonesia)

The relationship between humanitarian crises and HIV is contentious: emergencies can increase risk factors for HIV transmission (for example, when rape is used as a weapon); but they can also play a "protective" role vis-à-vis HIV infection, by limiting population mobility and by improving access to the range and quality of health services. Even in low prevalence settings there is a need to ensure that minimum interventions to prevent and respond to HIV are in place; sadly this is not often the case. Over the last several years increased attention has been given to HIV and Humanitarian emergencies in Asia. The session will explore some of the epidemiology of HIV and Conflict and also the principles and practice of HIV programming in diverse humanitarian populations.

Speakers:

Ann Burton, United Nations High Commissioner for Refugees

HIV in Conflict (epidemiology, programmatic principles, experience from the region)

Mr Jiang Hua, Abai, Country experience, China

Multisectoral Programming for HIV and AIDS in Emergencies

Muhammed Ayub, DOST Foundation Pakistan

Addressing HIV amongst most-at-risk populations in humanitarian settings

Ms Nopono Araklara, Thailand

Implementation of ARV-based programmes in humanitarian settings - Experiences from the region

17.45 - 19.15

Room 6 (Frangipani)

WeSM17 HIV/AIDS in Sri Lanka: Sustaining the Gains of ICAAP 8

AIDS Foundation of Lanka

Speakers:

Dr. Nimal Edirisinghe, Director National STD/AIDS Control Programme, Sri Lanka

Why is Sri Lanka labelled as a low HIV prevalent country over the past 3 decades: positive and negative connotations

Dr. Sujatha Samarakoon, Co-Chair, 8th ICAAP, Sri Lanka

Highlights of and lessons learned from the 8th ICAAP

Dr. Sarojini Perera, Director-Research & Programmes, AIDS Foundation of Lanka (AFL)

Role of AFL in Sri Lanka and future plans

Mr. Sagara Palihawadana, Director, Companions on a Journey

Presentation by Companions on a Journey (MSMs) on a project funded by AFL

WeSM18 Case Study Unilever Indonesia: HIV & AIDS Integrated Prevention Program

Yayasan Unilever Indonesia

Chair: dr. Leo Indarwahono SpKJ
Co Chair: Sari tobing, *Unilever*

To share our lesson learn and also to invite other organization/companies to join the program.

Speakers:
Arif Affandi, *Wakil Walikota Surabaya, Kemitraan Pemerintah dan Swasta dalam Upaya Memerangi HIV dan AIDS*

Roni Syahroni, *Chief of LSM Spektra*

Sinta Kaniawati, *General Manager Yayasan Unilever Indonesia*

17.45 - 19.15 Room 1 (Nusantara 1)

WeSM20 Scaling Up of HIV Testing and Counseling Population Targets with Integrated Health Campaign Approach

Vestegards Frandsen

Chair: Mr. Navneet Garg

Innovative methods that can be used to rapidly scale up HIV testing and counseling to cover large percentages of the target population so that they know their status. Lessons learnt from our experience in Kenya.

Speaker:
Mr. Navneet Garg, (*Global Business Manager Vestergaard Frandsen*)

17.45 - 19.15 Room 4 (Medan)

WeSM19 Evidence-Based Advocacy for HIV and AIDS Resource Mobilization: Issues and Challenges

Indonesia National AIDS Commission (NAC)

Chair: Budi Hamanto
Co Chair: Asep Kurniawan

Knowing the future trend of HIV epidemic many governments have focused their strategic planning. Unfortunately the funding is not readily available. This session will discuss the issues and challenges to advocate policy makers using the costed action plan for resources mobilization.

Speakers:
DR Mardiaty/Ms. Yanti Susanti
Resource allocation for HIV programming in Indonesia – To be confirmed

Deddy Darmawan/Husein Habsyi
Enhance of provincial level capacity in evidence based planning and budget allocation

Mrs. Rohana Manggala
Public policy on HIV and AIDS in Jakarta province

H Muhammad Masduki, (*Vice Governor of Banten Province*)
Integrating HIV planning and budgeting to the local planning and budgeting development

Ly Penh Sun, M.D. MSc.- NCHADS
Evidence based for resource mobilization, experience of Cambodia – To be confirmed

Discussant: Mr. Halik Sidik

Reporteur: Mr. Eka

17.45 - 19.15 Nusantara 2

WeSM21 Up-scaling Prevention and Empowering Communities-the Indian AIDS Response (National AIDS Control Programme)-III

National AIDS Control Organization (NACO) – India, The Joint United Nations Programme on HIV/AIDS (UNAIDS)

Chair: Mr. Oscar Fernandes, *Convener Parliamentarians Forum on AIDS /*
Co Chair: Mr. Ghulam Nabi Azad, *Union Health Minister, Government of India (TBC)*

- Introduction to implementation models of National AIDS Control Programme (NACP) – III and scaling up of evidence-based AIDS response in India.
- Critical factors for effective implementation of NACP- III interventions for community mobilization and empowerment.
- Challenges and barriers in scaling up and ways of overcoming these to achieve universal access.

Speakers:
Ms. K. Sujatha Rao, *Secretary and Director General NACO*

Dr. Ash Pachauri, *President Y P Foundation - Representative from sexual minorities and youth*

Sushena Reza-Paul, *Karnataka, Representative of commercial sex worker' community*

Ms. Mekhala, *APSACS GIPA Coordinator - Representative of Positive Networks*

Mr. Bangkim Chingsubam, *Joint Secretary, SASO - Representative of IDU communities*

ADG NACO or Project Director of one SACS: To speak on TI projects - Name to be confirmed

WeSM22 Executive Committee and Members Meeting: Strengthening Our Network

The AIDS Society of Asia and the Pacific (ASAP)

The ASAP executive Committee is holding a meeting of the membership of ASAP. This will be a two part meeting.

Part A : report back to members on progress made by ASAP since 2007 ICAAP

Part B : discussion of prospective future developments, re-distribution of ownership among member organizations and how ASAP membership would like to work together in the future.

17.45 - 19.15 Auditorium

WeSM23 Pleasure and Safer Sex: Have They Come Together?

The Pleasure Project

Chair and Co-chair: Arushi Singh and Anne Philpott, *(The Pleasure Project)*

Most dialogue around AIDS – including at international AIDS conferences – has omitted discussion of sex and sexual pleasure. Safer sex campaigns have focused almost exclusively on fear-based messages to promote safer sex. The key objectives of this session is ensuring a wide audience of health professionals learn how to make safer sex sexy, in order to create more effective safer sex messages creating skills to ensure effective incorporation of discussions of pleasure and desire into safer sex messaging highlight key resources, such as the global mapping of pleasure and other international evidence of the eroticising of safer sex for practitioners to use in the future.

Speakers:

Selected speakers from The Global Mapping of Pleasure, to summarise their experience of eroticising safer sex in Asia

17.45 - 19.15 Kertagosa - Nusa Dua Hotel

WeSM24 Entry points for Integrating Gender into HIV/AIDS Programmes in the Health Sector

World Health Organization (WHO)

Chair and Co-Chair: Irwanto PhD, *(Chair, Institute of Research and Community Services)*, Islene Araujo, MD MSc, *(WHO Geneva, Department of Gender, Women and Health)*

The satellite section will discuss entry points on how to integrate gender into HIV programme design and implementation in the health sector, and most importantly share concrete country experiences on gender responsive HIV programming. The meeting discussions will contribute to moving forward the focus of the global response from problem analysis to what can be done concretely at the country level.

During the section WHO will be presenting the tool to integrate gender into HIV/AIDS programmes in the health sector.

Speakers:

Key note speaker: Nafis Sadik, M.D., *(Special Envoy of the UN Secretary-General for HIV/AIDS In Asia)* E-mail: sadik@unfpa.org

Avni Amin, PHD, amina@who.int, *(WHO Geneva, Department of Gender, Women and Health)*

How to integrate gender into HIV programme design and implementation in the health sector - lessons learned from applying WHO guidance tool

Rahmat Sentika SPA PhD, rsentika@yahoo.com, *(Bintaro International Hospital, South Jakarta)*

Successful stories and challenges on integrating gender equality into the health sector work in Indonesia

Gender and HIV: situation analysis in the South East Asia Countries

18.00 - 19.30 Keraton - Nusa Dua Hotel

WeSM25 What will it Take? Implementing a Long-Term Structural Approach to AIDS

International Center for Research on Women and the UNAIDS Regional Support Team for Asia and the Pacific for the Social Drivers Working Group of aids2031

Chair: Geeta Rao Gupta

Co Chair: J.V.R. Prasada Rao

aids2031 is a multi-disciplinary, global initiative that is influencing the long-term response to the AIDS pandemic. For nearly two years, the Social Drivers Working Group, co-convened by ICRW and Clark University, has been investigating the social and structural factors driving vulnerability to HIV. We have now drafted recommendations based on those investigations, which we will share with a small group of experts. The format for this satellite session will be a roundtable discussion over dinner, during which we will present our recommendations and solicit feedback, reactions and suggestions. The audience will be a small, invited group of about 20 individuals, including national-level policymakers, donors, parliamentarians and community leaders, as well as civil society representatives.

Speakers:

Geeta Rao Gupta, *(president of the International Center for Research on Women; and Co-Convener, aids2031 Social Drivers Working Group)*, will present the findings from the Social Drivers Working Group

J.V.R. Prasada Rao, *(Director, Regional Support Team, Asia and the Pacific, UNAIDS; and Co-Convener, aids2031 Countries in Rapid Transition Working Group)*, will facilitate a discussion among the participants

SKILLS BUILDING PROGRAMME

10.45 - 12.15

Bandung

WeSB13 The Asian HIV/AIDS Resources Needs Estimation and Costing Model: A Hands-On Workshop**Objective:**

i) to introduce the Asia-Pacific MDG-consistent HIV Costing Model developed by UNDP RCC in partnership with UNAIDS, ADB and World Bank. The Model is a consolidated tool allowing unit cost calculations and resource needs estimation required for implementation of the country's National Strategic Plans; and ii) to provide hands-on training to participants in its use.

Method: The rationale for the costing model development, its key and unique features, and its country applications will be described using PowerPoint presentations. Participants will have access to computer terminals to allow hands-on training on: (i) the software (including installation); (ii) usage of specific features of the model and how to adapt it to local circumstances

Expected Outcome (skills):

- Participants will become familiar with the tool, and understand the objectives of the model, i.e., to promote effective targeted interventions recommended by the Commission on AIDS in Asia, and to focus on countries meeting HIV and AIDS MDG goals.
- Participants will practice using the tool and learn how to capture local realities in the model.

10.45 - 12.15

Surabaya

WeSB14 You Want to Stop HIV Discrimination in Employment? - Let's Write an HIV/AIDS Workplace Policy Together**The objectives of the skills-building workshop are:**

- 1) to enhance advocacy skills to mobilize workplaces to develop HIV/AIDS policies based on the International Labour Organization's (ILO) Code of Practice on HIV/AIDS and the world of work
- 2) to provide participants with the knowledge, tools and skills to develop effective workplace policies

This workshop will be valuable for a wide range of participants from national AIDS programmes, public and private sector enterprises, Ministries of Labour, employers' organizations, trade unions, civil society organizations and networks of people living with HIV.

Archana SINGH

10.45 - 12.15

Kertagosa - Nusa Dua Hotel

WeSB29 Building Community Sector Accountability using the NGO Code of Practice

- 1 A short presentation on the NGO Code of Practice, the development process and its principles
- 2 Group work involving identifying gaps in organizational planning and programming. This will lead to identifying concrete measures on the way forward for filling in those gaps
- 3 Interactive session on good principles in the work of NGOs and suggestions on how to build accountability into its work
- 4 Handouts: Power point on the Code which can be used as a resource material by these participants for a similar session within their organization; a poster outlining the principles in the Code and copies of the NGO Code of Practice

10.45 - 12.15

Keraton - Nusa Dua Hotel

WeSB33 Empowering HIV Positive Families to Communicate with and Care for Their Children

An HIV diagnosis put enormous pressure and psychosocial stress on a family. In conservative cultures such as Pakistan often parents are unwilling to disclose their status to their children, thus leaving the children untested in an emotionally unstable situation. The session will share experiences learned through the collaboration of UNICEF and Pak Plus Society in Lahore, Pakistan working on psychosocial well-being with HIV affected families and provide valuable skills and tools to other NGOs and Government institutions working with HIV affected families to empower them to cope as a family with their HIV status and provide needed support to affected children.

Bettina Taylor Schunter

14.15 - 15.45

Bandung

WeSB15 Criminalisation of HIV: All You Need to Know and All You Need to Do

Several countries have implemented or are considering to implement laws that are used to criminalize HIV transmission in order to promote public health. Yet these laws and policies weaken HIV prevention efforts (and therefore public health), undermine human rights, and foster stigma and discrimination. Moreover, they can further marginalize people who are already vulnerable to HIV infection.

This skills building session will provide clear and articulate arguments why such legal measures undermine human rights and public health efforts, and only contributes to the stigma already faced by PLHIV and other marginalized groups. It will also identify opportunities for practical action for HIV organizations, networks of PLHIV and advocacy groups.

The workshop will:

- Provide information to support legal advocacy and social mobilisation in countries that criminalise HIV transmission or exposure in order to repeal or reform these laws.
- Give consolidated arguments to why the criminalisation of HIV transmission or exposure is not an effective approach to promoting public health
- Identify key areas for advocacy action to strengthen national, regional and international activism to prevent future laws on criminalisation and to support people living with HIV to become better familiar with legal issues and their rights.

Lucy Stackpool-Moore

14.15 - 15.45

Surabaya

WeSB34 Engaging People Living with HIV (PLHIV) in the Workplace for Advocacy

- To demonstrate the importance of engaging PLHIV for advocacy in workplace settings to reduce stigma and discrimination
- To provide guidelines for capacity building of PLHIV for conducting advocacy sessions with employers, workers and their organizations.
- To share tools developed for PLHIV to address HIV in workplaces

Who will benefit:

The workshop will benefit PLHIV and their networks, implementers of workplace programmes, and officials of National AIDS programmes.

Indira Hettiarachchi

14.15 - 15.45 Kertagosa - Nusa Dua Hotel

WeSB48 Advocacy Good Adherence to Anti retroviral Treatment

Participant: Health care providers who have the experiences of ART services at least 1 year, 21 persons.

Objectives:

- 1 To provide treatment education skills by encouraging the concrete thinking how to analyse the barriers and key messages to good adherence of HIV infected people who are on ARV drugs,
- 2 To transfer the skills of developing and using appropriated tools; not expensive, simple, and fitted to PHA lifestyle, for ART adherence among the target groups.

Method: Participants will learn the five "key steps" to advocacy and explore:

- Breaking into 3 small groups and take turn; children group, adult who are on treatment 6-12 months group, and those who are long term treatment group.
- Working with case studies
- Mind mapping
- Building coalitions and setting advocacy good adherence
- Develop appropriated tools for ART adherence

Expected skills: The trained participants will be enlightened the concrete thinking how to assist their clients adhere to their treatments. And they are also expected to develop the skills that can be utilized as the effective tools to support good adherence for various adult groups and children who are on ART.

Kanitha Tantaphan

14.15 - 15.45 Keraton - Nusa Dua Hotel

WeSB49 HIV/AIDS Prevention Programs (Daku!) at High Schools in 4 Provinces in Indonesia (IT based/printed)

Participants will learn about interactive ways to address HIV/AIDS prevention sessions, using parts of the Daku (Dunia Remajaku Seru!) curriculum.

Method: selected teachers will facilitate the sessions, assisted by students and NGO staff. Interactive parts of the curriculum are selected (including ice breaking games, negotiation skills on condom use (role play) and the participants will be invited to prepare a story board (also using digital cameras).

The curriculum is IT based and will be demonstrated by the use of an LCD.

Expected Outcome(skills):

- The participants will understand the principles of the award winning program the World Starts With Me (WSWM) (or Daku in Indonesian). This comprehensive curriculum integrates life skills with sexual health and rights education and HIV/AIDS prevention. The 15-lessons are formulated to empower adolescents in goal setting, decision making, communication, and negotiation. Adapted versions of the WSWM are currently being implemented in Indonesia, Thailand, Kenya, Uganda, Vietnam, and India.
- Participants will learn a number of interactive components of the program for inspiration.
- Participants will learn the development process of a comprehensive evidence based sexuality education including HIV/AIDS prevention and the most important lessons learned for the success of their own program.

Students reported gaining improved knowledge, positive attitude and skills. They considered computer-based method as very attractive and fit to their culture. Teachers and schools also reported positively on their participation in the program. A series of trainings provide teachers with required knowledge, attitudes and skills to discuss sensitive issues and help them become open-minded and less prescribing their own norms. Teachers also reported improvements in teaching methodology and their relationships with students.

N.G.Kollmann

16.00 - 17.30 Bandung

WeSB16 How to Participate Fully in Social Research

A common characteristic of HIV social research is its focus and collaboration with marginalised communities, such as drug users. However, marginalised communities are not always in the position to participate fully in social research. To help ensure that community representation and participation is embedded in HIV research AIVL and ARCSHS propose running a skills workshop for community workers and representatives from IDU communities.

Ann Gabrielle Madden

16.00 - 17.30 Surabaya

WeSB35 Speaking Out to Tackle Stigma

- Familiarise individuals and organisations with The People Living with HIV Stigma Index.
- Highlight the Index as an advocacy tool that workshop participants can use themselves.
- Provide an opportunity for workshop participants to practice use of the Index questionnaire.
- Highlight how the Index can be used to analyse, understand and present experiences of stigma and discrimination.
- Connect participants with other people living with HIV and researchers associated with the national, regional and international levels of the project.

Kevin Osborne

16.00 - 17.30 Kertagosa - Nusa Dua Hotel

WeSB52 Developing Skills in Non-Tradition Fundraising Methods for Community Based Organizations

Assisting CBOs to acquire skills in non-traditional fund raising methods in order to reduce dependence on traditional forms of fundraising.

Method:

The workshop will impart skills on non-traditional fund raising methods, including manufacturing and marketing of apparel, handicrafts and magazines, organizing of cultural events, and social marketing of STI/HIV/AIDS preventive materials, among others. The session will open with an icebreaker, followed by sharing of experiences by SAATHI and other participants. Next, a participatory session on various fund raising techniques will be held, with a focus on selecting unique and marketable products, cost-effective manufacturing and marketing through networking, cultural events and fashion shows. The workshop will conclude with a planning exercise in which participants will strategize for future fund raising activities for their respective organizations based upon the learning. The workshop will be followed by an e-discussion to share progress on the implementation of the plans that are developed during the workshop.

Expected Outcome(skills):

Participants will learn a variety of non-traditional fund raising techniques that will help to build the fund-raising capacity of their respective organizations, which will in turn help them with their own financial sustainability.

Amitava Sarkar

16.00 - 17.30 Keraton - Nusa Dua Hotel

WeSB36 Integrating Therapeutic Yoga, Meditation and Music for People Living with HIV/AIDS

- 1 To sensitize participants on the benefits of alternative therapies such as yoga, meditation and music, and their positive impact on the psychosocial/mental health of people infected and affected by HIV/AIDS.
- 2 To empower people infected and affected by HIV/AIDS to take control over their own mental wellbeing by building their knowledge and skills on various yoga exercises and meditation techniques, and how this can be integrated with music for greater impact on mental and physical wellbeing.

Method: Methodology will include: Oral presentation on the integrated therapy concepts, aided by live demonstration from the PCI/India team. Participants will then be taught a selection of basic yoga and meditative exercises through practical hands-on training, followed by discourse and discussion.

General Information

Congress Dates
9 - 13 August 2009

Congress Site
Bali International Convention Centre Nusa Dua, Bali, Indonesia

Registration Guidelines

- The Registration Desk is located at the outdoor exhibition area near the Bali International Convention Centre (BICC) Main Entrance.
- Opening Hours:

Sunday, 9 August 2009	07.30-20.00
Monday, 10 August 2009	07.30-20.00
Tuesday, 11 August 2009	07.30-20.00
Wednesday, 12 August 2009	07.30-20.00
Thursday, 13 August 2009	07.30-15.00

 (Certificate Distribution)

On-Site Registration

Those who wish to register on-site at the BICC during the Congress are requested to pay the registration fee either in cash (Indonesian rupiah only) or by credit card (Visa or Master Card will be accepted). Personal checks or travelers' checks are not accepted.

Registration fee and items covered by the fee

FEE TYPE	ONSITE REGISTRATION FEE	DAILY (ONSITE) FEE
International Delegate (OECD nationals)	USD 700	USD 250
International Delegate (Non-OECD nationals)	USD 600	USD 200
Youth Delegates	USD 250	USD 100
Accompanying Person	USD 200	USD 100
Indonesian Delegate (Warga Negara Indonesia)	Rp 2,500,000	Rp 1,000,000
Pendamping (Warga Negara Indonesia)	Rp 1,500,000	Rp 500,000
Media **	Free	Free

Notes:

- OECD member countries include: Australia, Austria, Belgium, Canada, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Japan, Luxembourg, Mexico, Netherlands, New Zealand, Norway, Poland, Portugal, Slovakia, South Korea, Spain, Sweden, Switzerland, Turkey, United Kingdom, and United States of America.
- Registration Fee entitles delegates to receive the Congress Programme Book, Congress Bag and attendance at all sessions, exhibition, Opening & Closing Ceremony, and Welcome Reception.
- Accompanying Persons are entitled to attend the Opening & Closing Ceremony, Welcome Reception and Exhibition only.

- Youth must present proof of age by an official state or institute-issued document.
- Please read the requirements for media on our website or another section in this programme book.

Cancellation of Registration

Notification of cancellation must be made in writing and sent to the 9th ICAAP Committee secretariat. This notification must indicate a bank account to which the refund may be remitted. If the written notification of cancellation is received before 31 March 2009, 50% of the registration fee will be returned. No refunds can be made for cancellations on or after this date. All approved refund will be processed and issued 60 days after the conference.

Congress Bag

The Congress Bag (including Congress Programme Book, Abstract Book and other Congress Materials) will be handed out when you register at the Registration Desk.

Name Badges

Delegates are obliged to wear their name badge (name tag) to obtain full access to the Congress program and facilities. Please note the 'no badge, no entry' rule. If a delegate loses, misplaces, or forgets the name badge, a handling fee will be charged for every replacement. Upon handling out the replacement name badge, the old name badge will be deactivated and become invalid.

Congress Facilities

Accommodation Desk

A desk will be conveniently situated by the hospitality desk at the BICC to handle inquiries related to hotels and other accommodation options.

Banking Facilities

Automated Teller Machines (ATMs) and money changers are available within the vicinity of the BICC.

Business Centre

Business services such as faxing, photo-copying, and courier services are available at the hotel business center. Delegates should pay for these services.

Hospitality Desk

Information on post-congress trips and ticket reconfirmation are available at the Hospitality Desk, located at the BICC and some official hotels for those planning to travel around Bali or to other destinations in Indonesia. The Hospitality Desk will be open during the congress from 08.00 to 18.00.

Internet facilities

Internet Cafe is available at Flamboyan Lounge in the BICC. The Internet Cafe will provide delegates with complimentary internet usage for a fixed duration. Complimentary wireless internet hotspots are also available within the Exhibition Hall and the Asia Pacific Village in BICC. Delegates may also wish to find numerous internet cafes (locally known as warnet) in the Kuta, Nusa Dua and Sanur area.

Information Desk

Information desks for general inquiries related to the 9th ICAAP will be located at the registration area at BICC during the Congress from 08.00 to 18.00. Information desks will also be available in each official hotel.

Meals and Snacks

Congress delegates can purchase light meals, snacks and beverages at catering areas available at BICC. There are also affordable food and beverage outlets available at the Bali Collection shopping area, within walking distance from congress venue. Shuttle services are available for pick-up / drop-off from BICC to Bali Collection

Media Accreditation

To register as a media delegate, delegates are requested to complete the following:

1. Submit a photocopy of **official Press Card** or a **letter of assignment** (in English) with official letterhead by your media organisation.
2. **Freelance journalists** must submit copies of three (3) articles in addition to media registration form or official letter of assignment from the media you will be writing/broadcasting for.
3. **Newsletter writers or electronic mailing list hosts** must submit three (3) issues of the applicant's newsletter and letter of assignment with official letterhead by the organisation.

We strongly suggest that journalists register early and submit all required documentation as soon as possible, given the potential need to close media registration early, due to space constraints.

Media registration includes entry to all congress sessions, the exhibition hall and poster areas, the opening session, welcome reception and the closing session. It also includes the congress kit and materials.

All media delegates are obliged to wear the name badge (media pass) to obtain full access to the media center. Please note the NO BADGE, NO ENTRY policy.

Media Centre

The Media Centre is located at Denpasar Room on the 2nd Floor of BICC. The Media Centre provides the following facilities for registered media delegates: computer work stations, internet connections, telephone/fax lines, printers, scanners, photocopying machines, an interview room, and third-party press conference room. Access to the Media Centre will only be reserved for accredited media delegates and other individuals granted a Media Pass.

Opening hours

Sunday, 9 August 2009	08.00-15.00
Monday, 10 August 2009	08.00-20.00
Tuesday, 11 August 2009	08.00-20.00
Wednesday, 12 August 2009	08.00-20.00
Thursday, 13 August 2009	08.00-12.00

Medical Centre

Fully equipped first aid and medical centre will be conveniently located on the ground floor of the BICC, at the Flower Secretariat Room. Medical staff will also assist with referrals for HIV-related treatment, methadone treatment and other medical support services, including for Influenza A (H1N1).

Official Language

The official language of this congress is English and used for all printed materials, presentations and discussions.

People with Disabilities

The BICC has toilet facilities and elevators equipped with special, user-friendly buttons for people with disabilities. Delegates with disabilities will be prioritised to stay at the lowest floor nearest to the hotel lobby in each official 9th ICAAP hotel.

PLHIV Lounge

The PLHIV Lounge will be a place for rest and support where PLHIV can find relief from the busy and often tiring congress experience. It can also provide opportunities to meet and talk with other PLHIV from across the region in a relaxed and nurturing environment. The lounge will provide complimentary snacks, spaces for informal meetings and private facilities for taking medication. *The lounge is accessible for PLHIV only.*

Safety and Security

There will be permanent 24-hour security staffing at the BICC during the congress.

Simultaneous Translation

Simultaneous translation facilities (English to Indonesian, Chinese, Vietnamese only) are available during plenary sessions only. For other type of sessions, simultaneous translation facilities will be provided upon request only by payment of a fee.

Smoking Policies

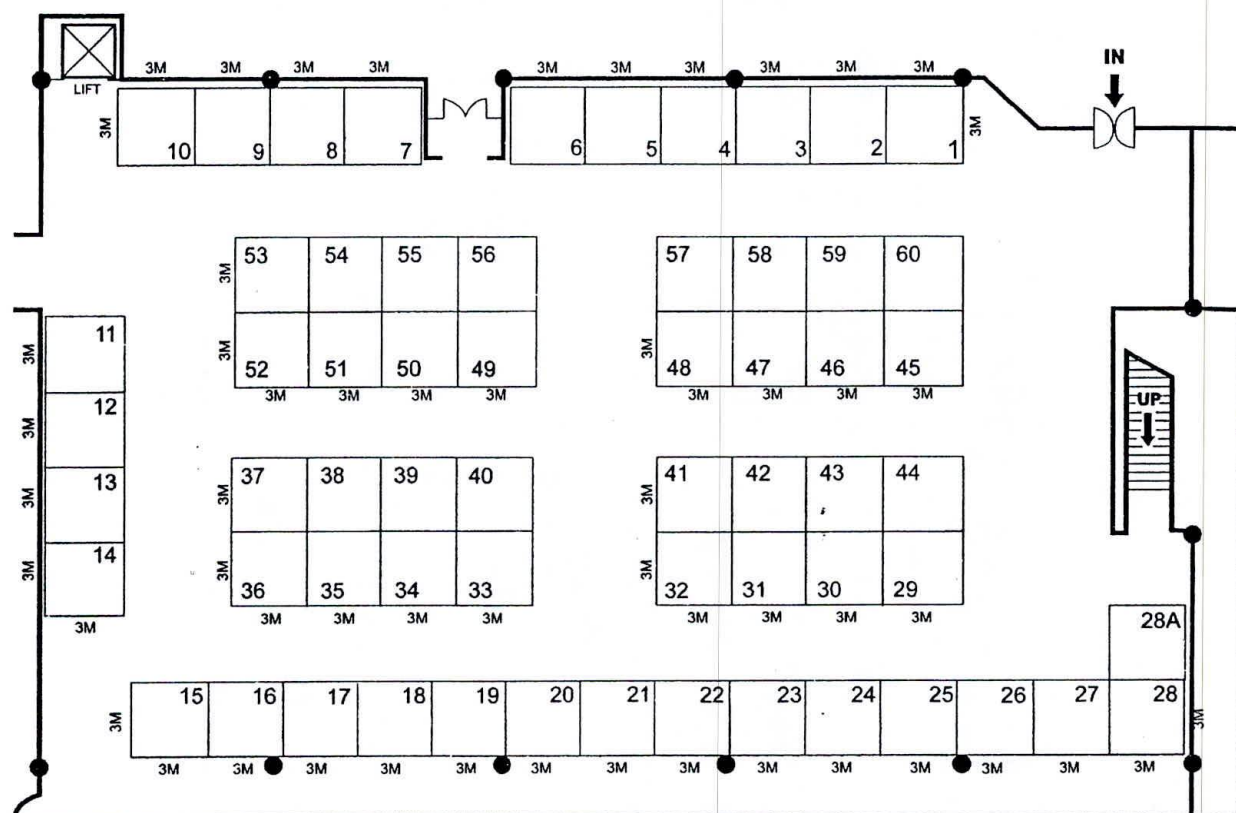

Smoking will only be permitted at designated areas.

Speakers Centre

The Speakers' Desk serves the needs of all speakers, oral abstract presenters, chairpersons and moderators, and will be open daily from from 08.00 to 18.00 during the Congress

Executive Committee and members meeting: strengthening our network

COSPONSORS:

The AIDS Society of Asia and the Pacific (ASAP)

The fight against AIDS will take all the energy we have.

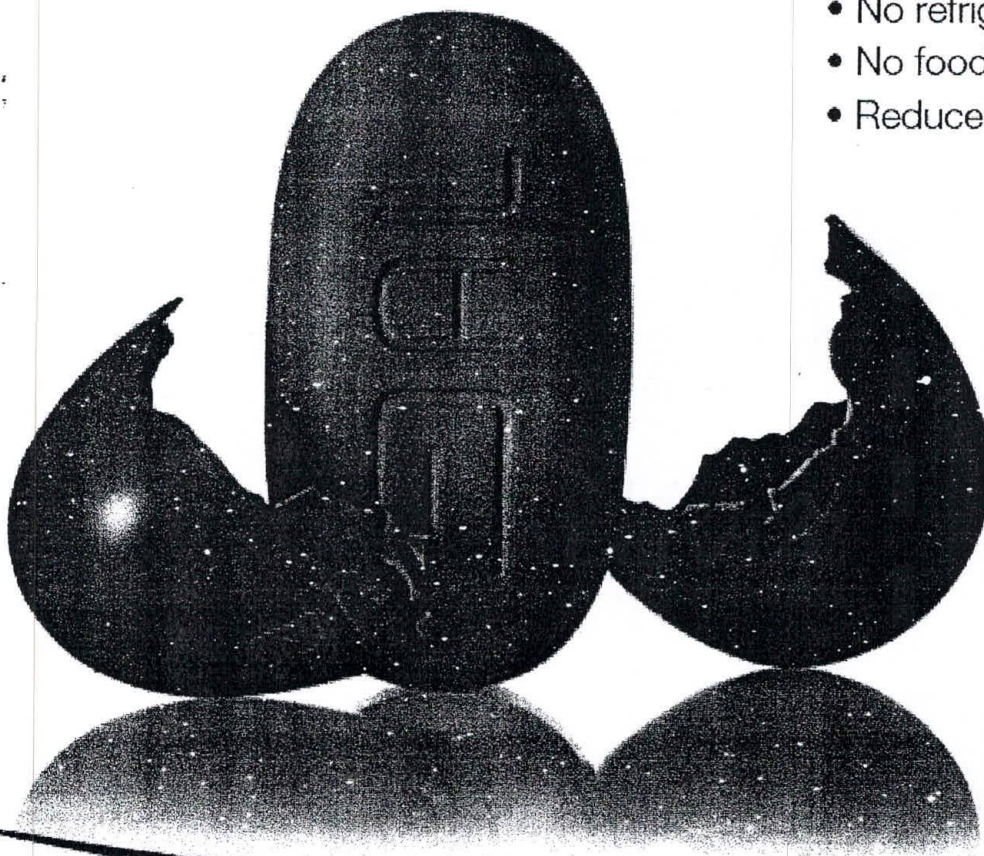

For over 25 years, HIV/AIDS has had a devastating impact on lives around the world. And real progress takes more than concern—it takes action. At Chevron, we are partnering with governmental and nongovernmental organizations and have made a three-year, \$30 million commitment to assist The Global Fund to Fight AIDS, Tuberculosis and Malaria. Through partnership and collaboration, our efforts are helping strengthen health programs in communities around the world. Because defeating such widespread diseases is going to take the most powerful form of energy on the planet. Human Energy.

Human Energy™

Designed for the Realities of the Global Epidemic

- Co-formulated protease inhibitor²
- No refrigeration²
- No food requirements²
- Reduced pill burden

ALUVIA[®]
